Jail Committee Report

The Jail Committee appeared in open Court and presented and read their report for the last Quarter which report on Motion of J. H. Willis Esq. seconded by C. B. Freeman Esq. was adopted and ordered to be spread of Record. Said report is in the words and figures following to wit:

Chattanooga Dec Jan 8th 1884

County Court of Hamilton County
Gentlemen

Your Committee on Jail beg leave to report that they have examined the Jail and find there were confined December 31st 1883 38 prisoners as follows

27	for Felony
4	for Misdemeanor
<u>10</u>	A. O. Prisoners
38	Total

Two are from other Counties -

During the month of December 12 Prisoners escaped from the Jail of these 6 have been captured of these one was a A. O. Prisoner and one was from Bradley County - of those at large four are for Misdemeanor and two are for Felony.

The prisoners escaped by cutting through two

County Court January Quarterly Term 1884

thickness of the iron bars of the Jail and taking out the back of a bath tub and then letting themselves down by blankets &c - We have had the Iron repaired at a cost of \$3⁸⁵ dollars - In regard to the escape of the Prisoners from the Jail we think it would hardly have occurred had the Jailor exercised proper diligence and in this connection we would condemn the practice of making a Trusty of any inmate of the Jail -

We find that the Prisoners are in good health and well cared for and the Law in this respect has been complied with

Jail Committee

Report of
Committee on
Ex. Officers
Jail

State of Tennessee, To the Honorable the County Court
Hamilton County, N. Hamilton County

We the undersigned Committee appointed to enquire and examine into the Ex. Officio Services of the Officers of said County, and report, what if any, would be a reasonable & sufficient compensation to them for such services, beg leave to submit the following

After having met and elected C. E. Tyler Esq Chairman we called the Sheriff to come before us - We find that the Sheriff is necessarily compelled in carrying out and executing the duties of said Office, to perform at least one thousand dollars worth of services for which he receives no compensation whatever - We find that he is required to issue writs in all parts of the County, requiring a great deal of riding, and the employment of several deputies for which he receives nothing - That he must serve all jurors of said County for which he receives little or no compensation - That he is allowed only one dollar for making an arrest when in a great many cases the expense of making the arrest is ten times that amount - That he does several hundred dollars worth of work each year in the Circuit Court for which he does not receive anything, he parties against whom the costs are adjudged being insolvent - That he receives no mileage for going to other States to arrest fugitives from Justice - Tennessee is the only State so far as we are able to learn that does not allow mileage in such cases - That the delinquent Taxes have to be collect.

County Court January Quarterly Term 1884

to the Sheriff, and that the collection of these taxes costs the Sheriff more than he receives in compensation, and notwithstanding the fact that the taxes had to be collected last year, while the Smallpox epidemic was raging, they were collected closer than they ever been heretofore, as substantiated in the report of the Trustee - We further find, that the Sheriff used extraordinary efforts at a great cost to himself, for which he received nothing, in aiding in bringing to justice the murderers of Tate & Combs - We find upon the whole that although Hamilton County and especially the City of Chattanooga has heretofore been a resort for fugitives from justice, our County has been better Sheriffed during the present incumbency than it ever was before

We find from information that the Sheriff of Davidson County which is much smaller County than ours, is paid \$500 per annum for Ex officio services, and that the Sheriff of Davidson County receives \$1000⁰⁰. Therefore in consideration of these facts we think that Three Hundred Dollars would be a very small compensation for his Ex officio services for the past year, and we earnestly recommend that the same be allowed him by this Hon. Court

In regard to the Ex officio services of the County Judge, and the fees he should receive therefor. We find that he has been especially efficient in the performance of the duties of his office - that he stood manfully at his post during all the Smallpox Epidemic and carried on the business of the County during that dreadful period at great hazard to his own health - He deserves great credit for the active interest he has taken in all matters concerning the County, and the economical manner in which he has let out all contracts over which he has had control - We do not think the salary he receives at present is sufficient compensation for all the Extra services he has performed - We find from information that the County Judge of Davidson County receives \$2500⁰⁰ for his services, and that the work of the same officer in our County is fully as onerous - Therefore after due consideration we are of the opinion, that Three Hundred Dollars for Ex officio would be a very small compensation for the same - And we earnestly recommend that the same be allowed by this Hon. Court

In regard to the County Court Clerks Ex officio services. We caused the Clerk to come before us, who produced an itemized account of the fees for which he receives no compensation which is made out in regular account form and is sworn to by the Clerk - The account is long covering 20 pages of closely written legal cap - We did

County Court January Quarterly Term 1884

we have him to examine each item of this account, and annex it to his report as a part thereof, it amounts to \$72⁸⁵ but we are satisfied the account is correct and recommend that the same be paid.

On record to the Ex Office of the Inspector of Bridges we are of the opinion that \$25⁰⁰ is not enough for the labor and expense incurred in making the inspection and we recommend that he be allowed \$25⁰⁰ for the extra work and labor he has performed during the year.

At this term of the court— you make your Tax Levy
 for the year 1884 and Elect your Tax Assessors
 I present with this report a Tax Levy on property
 polls and privileges, that I think if adopted will
 carry us through the year and enable us to get all
 the benefit of the work Home fore on our public lands
 Since we last met I have engaged the services of
 Mr Whitman, to do the necessary engineering for the
 County at the sum of \$5⁰⁰ per month, subject to the
 approval of the Court— Mr Whitman is now laying
 out the Rossville and Annicola Road, when that
 is done I have proposed to send him over the River
 to lay off a road from the upper Ferry to intersect

County Court January Quarterly Term 1882

The Chatauque and Washington Road - we want this road on a grade of not over 5 feet to the 100 ft. - It will take an Engineer to do the work the time is gone by in this county when roads can be laid out. By guess we must get them at good grades and on good ground. and to do this it will require an Engineer and we can use him every day - At this term of the Court you also elect road Commissioners for the various road districts of the County - In this connection I will say that there has been a reasonable good compliance on the part of the Citizens of the County with the new Road Law and a marked improvement in the public Roads in almost all parts of the County - It is a start in the right direction, but we can never get good roads in the County until they are brought to a better grade by proper survey with a view alone to the ground and the grade - Our main first class road, leading from this City to Washington, has in many places a grade of as much as 11 feet to the 100 ft. - The grade of this road could be greatly improved - by survey - I do not think the County ought to accept a road with a greater grade than 5 ft. to the 100 ft. unless it is up the mountain -

In order to properly equip the Work House - I think the County ought to authorize some Committee to purchase a Stone Crusher

Mrs. Steel informs me, that she will soon have a house in the City for Orphan Colored Children this is certainly a commendable enterprise and I think the Poor House Commissioners ought to be requested by the Court to furnish the same aid to Colored Children in this Institution that is now furnished to the White Children in the Orphan Home - This is the term of the Court at which you make your Ex Officio arrangements to the Sheriff & others - At the request of the Sheriff I recommended the appointment of a Committee of three to whom the whole question of Ex Officio may be referred

Chattanooga Term Janry 7th 1884
 To the Hon. County Court of Hamilton County Tenn
 I herewith submit for your information
 Report showing amount of receipts and expenditures
 of the County during the year 1883
 The sources from which the County Revenues are derived
 and the purposes for which the same have been
 expended. The actual cost of maintaining each of the
 several departments of the County for the year 1883
 and an estimate of the amount that will be required
 to meet all expenses during the year 1884
 The rate of tax necessary to levy from which
 to realize the same &c

I estimate the total amount of Taxes that will be collected this year at about \$122,900⁰⁰ which amount as I have before shown \$23,829¹⁶ is already collected. Leaving estimated taxes yet to be collected on Tax Levy of 1883 \$70,070⁸⁴ to be applied as follows

State of Tennessee	\$ 18180	00
Maintenance of Schools	" 12330	00
Public Road Tax	2300	00

Public Buildings	1500	00
Miscellaneous Expenses	<u>5460</u>	<u>84</u>
Total	<u>76,070</u>	<u>84</u>

The following estimate will closely approximate the cost of maintaining the several departments of the County during the year 1884

Maintenance of Schools	\$ 20000.	00
Tray costs of Circuit Court	5000	00
" " " " County "	4000	00

" " " " Public Buildings	1500	00
" " " " Miscellaneous	<u>13000.</u>	<u>00</u>
Total	\$ 60,000	00

The Revenues required to meet the above estimates will be derived from the following Sources

From Clerk of Circuit Court	\$ 400	00
" " " " County "	16000	00
" " " " Chancery "	200	00
" Back Taxes	200	00
" Fees Circuit Court & JP Costs	800	00
" Poll Tax	3000	00
" Tax Levy for School State & County ¹⁰	<u>17,000</u>	<u>00</u>

County Court January Quarterly Term 1884

From State of Tenn School Dividend	\$ 1900 00
" Tax Levy for all County Purposes	<u>23500 00</u>
Total	\$ 65000 00

After an examination of the above estimates you find them about correct - and should you adopt the same as a basis on which you will levy a Tax for the year 1884 the rate will be as follows

State Tax (not including School Tax)	30 cent
County Tax for all purposes	30 cents
School (State 10¢ County 10¢)	<u>20 "</u>
Total	80 cents

In addition to this on each \$100⁰⁰ of real estate and personal property you should levy a Road Tax sufficient in your judgment to meet the demands of the County should you levy a road tax of 10¢ on the \$100⁰⁰. The rate for all purposes would be 15¢ lower than for the year 1883. The net assessed valuation of real estate and personal property will be about \$8,500,000⁰⁰ for the year 1884. The Tax Books show an increase of valuation of nearly half a Million dollars each year for the last five years. Taking the remarkable increase of values, and the usual promptness with which the taxes have been paid it is truly gratifying. - The Months of November and December 1882 which were the last months in which the taxes were collected by the Trustees were the months in which our business rose so terribly in the city and even in some parts of the County. In spite of the terror and suffering which was every where the people came up right nobly and the taxes were paid easier than any year in the last 10 years - It is a matter of congratulation that this was done and is a proof that our people are willing to pay their taxes every though the burden be hard. It taxes be assessed in moderation to meet the general welfare of our country

Very Respectfully
A Jackson Trustee

Report of
Commissioners
of the Poor

To the Honorable County Court of Hamilton County
Tennessee

We the undersigned Poor House Commissioners do hereby present the account of John Alford Keeper of the Poor House together with his statement of the list of poor and insane in the Institution during the Quarter last passed and the list of the public property in his possession - We recommend that the bill be allowed and paid we are convinced that he has discharged his duties properly Your Committee are unanimous in the opinion that the sum allowed for the care of the Pauper Insane & Educate is insufficient and recommend that the allowance be increased to one hundred & twenty Dollars - and we have entered into a contract subject to ^{your} approval continuing him in employment for another year and here with transmit the agreement and bond of said Alford to secure compliance with the same on his part, and ask that the Court take such action thereon as may be deemed proper

Poor House
Comm^{rs}

The Poor House Commissioners appeared in open Court and
presented and read their report - which is in the words and
figures following to wit-

To the Honorable County Court of Hamilton County
Gen. Termen -

Your Committee on Poor and Poor House have the honor
to report that they find the Poor House kept in a satisfactory
manner, the same unmailed without exception, bearing testimony
to the kind manner in which they are cared for, while the tests &
money of all and the appearance of the Insane indicate that the
latter (the Insane) are treated as kindly and humanely as is
possible under the circumstances - Your Committee here-
with report the bills of John Alford the Sup. of the Poor House
which they approve and recommend to be paid - They also
report the Bill of the Women's Christian Association, for the care
of children in their charge, showing the names and age of each
child & the time for which charge is made which your Committee
approve and recommend to be paid as heretofore

Report of
Poor House
Committee

The Poor House Committee presented and read to the Court their report for the 1st Quarter of 1884 which is in the words and figures following to wit -

To the County Court Hamilton County Tenn
the quarterly report ending April 1st 1884

Prisoners on hand first quarter	34
" " " " " " " "	34
Totals	<u>71</u>

Prisoners discharged during Quarter	25
Escaped	2
Dead	1
Leaving number on hand	<u>43</u>

We have had a terrible quarter to work and have been compelled to let the prisoner remain in work house on account of the rainy weather, consequently our work this quarter has not progressed as rapidly as previous quarters.

County Court April Quarterly Term 1884

We have had the road bed graded and nearly half ballasted. We have enough rock quarried to finish ballasting and have received the crusher but have been unable to get it to the works on account of the roads, both the crusher and engine are now "stuck" in the mud over 'cable' deep between the City and Work House

Expenditures for the Quarter -	
January	\$ 586. 85

The Jail Committee presented and read to the Court their report for the past quarter which report on Motion of Wth Field Esq seconded by A J Cahagan Esq was adopted and ordered spread of record and is in the words and figures following to wit:

Chattanooga April 8th 1884 -

To the Honorable Senate Court of Hamilton County -

Your Committee on Jail beg leave to report that they have examined the jail and find it in good condition, clean and the inmates in good health well fed and cared for We find that there is now confined in the jail: Fifty one Prisoners 48 Males and 4 Females

- 30 Charged with Felony -
- 4 " " Misdemeanors
- 17 " " Prisoners

We would recommend that your committee be authorized to have put in the jail a hot air furnace for use before next winter as the stoves are very inconvenient and dangerous - We also recommend that the Jail Building be painted inside and calced and the wood works

 County Judge

To the County Court
 From January 1st to April 1st 1884 I have issued County
 warrants as follows

For County purposes	\$21.02	12
" Expent Court	2545.	68
" Jail	271.	43
" Work House	1-35	65
" Bridges	1147	78

Total for all purposes	14,374	38

I have no recommendations to make to you about
 the roads, but would be glad the Court would visit
 the Work House - You can then see for yourselves a
 fair specimen of the roads of the County - You can
 also see the House for Colored Orphans which is now
 ready for use and is almost on the way to the Workhouse.

Report of
Finance Com^{tee}
on Tax Levy

To the County Court of Hamilton County Tenn.
Gentlemen

The undersigned Committee have investigated the matter of the proposed reduction of the rate of taxes for the year 1884 and report as follows
That there is now in the County Treasury about. \$50,000-
Of this amount there is due Schools \$3,000
" " " " " the State 500
Balance for County purposes 10,500
\$20,500 \$20,500-

There has been already appropriated by this term of Court about \$7,500⁰⁰ if this amount was paid out at once there would only be left in the Treasury for County purposes about \$3,000. The only income of any consequence the County will have from now until the year 1884 tax levy becomes available will be from balance of 1883 tax Levy Day \$3,000
from County Court Clerk's Collection 7,500
to which add unappropriated balance in Treasury 3,500

And you will have about \$14,000 out of which to pay your expenses from now until the 1st of next October with these facts before us we do not see how the Court could safely reduce the rate already levied, the 1884 Levy for all County purposes is 30¢ and while the cost of maintaining the County continues as it has been for several years past we cannot see how all your obligations can be met on a lower rate, than was levied at the January term for the present year

Chattanooga Tenn April 8th 1884

To the County Court of Hamilton County Tenn

The undersigned Committee appointed to take into consideration the matter of improving the roads and Bridges and to make appropriations to be expended under the work house Committee recommended the following ap-
=proprations =

To be expended on the road from the Chattanooga
Creek Bridge to the foot of Lookout Mountain } \$1,000⁰⁰

To be expended on the extension of Montgomery
Ave from the Corporation Line to the foot of
Mission Ridge } \$1,000⁰⁰

County Court April Quarterly Term 1884.

To be expended on the Extension of Market Street from the
 Incorporation line by way of the Old Cotton Factory to the road
 leading from the half way house to Rossville Road, provided
 the Owners of the property will donate the right of way 100 ft wide } \$1000⁰⁰
 but for the purpose of making this road available at once the
 road may be opened from the Section line or the Rossville &
 Half way house road north to near the Old Cotton Factory and
 then west to the Whitecreek Street extension near the residence
 of J M Duncan Esq, by opening this route access can be had
 to Lookout Mountain and Forest Hill Cemetery during all
 stages of high water that does not overflow Whitecreek Bridge.

Also for making the approaches to the Lookout Creek
 Bridge in the 4th dist — } \$125⁰⁰

All of said appropriations to be expended under the
 direction of the Work House Committee —

We also recommend that the County Engineer be directed
 to make a survey for a road from the vicinity of Citico Furnace
 to the foot of Missionary Ridge — To make an estimate of the
 cost of building Culverts across the road near North Chickamauga
 and to make an estimate of the cost of building three small bridges
 across Spring Creek on the Chattanooga and Cleveland road in
 the 15th District and make report of Estimated cost of work

The following Petition was presented to the Court
To the County Court of Hamilton County
The undersigned Petitioners do petition your Honorable Body to grant
the privilege and right of making a Public Road commencing
at James County Line near the residence of R. J. Moore 15th Dist-
of Hamilton County and running a Westwardly direction between
the lands of J. B. Johnson and D. L. E. Moreland and thence
between A. W. Mosely and G. W. Carnell's lands thence through
by Wm. Brown and P. S. Oriskany a direct Westwardly course, inter-
secting with the Chattanooga & Ostawaha Road at the Pond
1/2 mile east of Ab. Serchys, said Road to be of the 2nd class
For the information of your Hon. Body, we will say there
is a road already running along this route the whole way
and by making it a public road and working it out
it would be a benefit to the citizens in this portion of the
County making them a more direct route to Chattanooga
and a higher and drier route and a direct and better
route from Chattanooga to the County Poor House - The length
of the road will be near 4 miles - All of which is respect-
fully submitted

Report of
Judge McRee
on Expenditures
of Road appⁿ

Judge McRee presented and read to the Court his report on amount appropriated at last term of Court for road.
Which report on Motion was adopted, a majority of all the justices being present and voting - and is in the words and figures following to wit.

To the County Court.

I should respectfully report to you the part I have taken in the expenditure of the amount appropriated at the last term of the Court -

The advisory Committee and the Workhouse Committee failed to agree about how the money should be expended - The advisory Committee wanted the workhouse force to expend the money and the Workhouse Committee wanted to let out the work to the lowest bidder - By a compromise agreement we have Geo. L. Gillespie to Superintend the work on the Market Street extension and the Lookout Mountain road - The work on the Market Street Extension has been finished at a cost of \$954.⁰⁰ and there has been moved for this sum

County Court July Quarterly Term 1884

6-12 yards of dirt at a saving of \$250⁰⁰ over the lowest bid for this work. Mr. Gellie is now at work on the Look-out Mountain road and we have expended on this road up to Saturday last \$75⁰⁰

In the prosecution of the work in the Work House since on the Ballie Street, it was found that in running the crusher, we did not ~~use~~ ^{use} all the force and it was for a part of the time divided and used in part in grading the Montgomery Ave road and it was done in place of spending the \$1000⁰⁰ dollars appropriated to this road. This I learn this morning by conversation with one of the justices, is in violation of a former order of this Court, which I certainly did not intend to do and it was an oversight in me, caused by my not having more carefully examined the order I was governed in my action above with the law to get the most money out of the force & to save money.

I have been abused for working one road and not working another, and for wasting money on Market Street Extension and the Lookout Mountain road, until I am tired of it and I am altogether willing to be released from all work on roads, if you will release me from all responsibility of working roads and yet I am decidedly in favor of working roads and am perfectly willing to heartily co-operate in working roads in any manner you may determine.

R. C. W. Ree Judge -

Finance Report

To the Honorable County Court of Hamilton County -
Gentlemen

The undersigned members of the Finance Committee have examined the report of the County Judge and find the same correct as shown by the books in the Judge's Office -

We recommend the action of the Judge in issuing warrants to buy the several items embraced in said report established by the Court - We realize the necessity of better Roads throughout the county and favor such action by the Court as will result in the general improvement of the public Highways - We have examined the report of the County Engineer and have fully considered the matter of expenses involved in opening to the public the Long Street extension, and the completion of the Old road to the mountains as contemplated by the order of the Court at the April Term, in the 7th District - The road through the Lands of Frasier, Irons, & Beck's, and the improvement of the mountain Creek road in the 3rd District, also the cost of building three small Bridges over Spring Creek in the 15th District.

To do all this work will require an expenditure of about \$10,000. This includes the cost of an Iron Bridge over Chattanooga Creek on the line of the Long Street Extension -

This work cannot be done and paid for unless the Court increases the Tax Levy for Workhouse and Bridges each 5 cents or a total increase of ten cents on the Levy already made - We favor the increase in the Levy for purpose of meeting the expenses involved in the above work, and if the additional Levy is made, we are of the opinion that the work could be commenced at once provided the Court will authorize the County Judge and Trustee to use the credit of the County to raise the money in advance of the regular Tax collections to pay for the work as the same progresses

We find from the foregoing report that the Trustee is chargeable with \$114034 ²⁴/₁₀₀ and that he has paid out for all purposes \$95954 ⁵⁰/₁₀₀.

This leaves a balance of \$18070 ²⁸/₁₀₀ less Trustee's Commissions and other warrants not included herein, amounting to \$3570 ⁶⁹/₁₀₀. This leaves actual Cash in the Treasury \$14500 less the warrants paid since the 1st of July 1884.

The State has received about all that is due on 1883 Tax Levy from Hamilton County -

The County is indebted to the Road District \$101 ²⁸/₁₀₀ as you will see from the foregoing report less Trustee's Commission.

The Schools have a credit of \$15460 ⁹⁶/₁₀₀ less Trustee's Commissions, which will leave \$15100 ⁰⁰/₁₀₀. The County has over drawn, on the School Fund to the amount of about \$740 ⁰⁰/₁₀₀.

The Commissioner of the Poor appeared in open Court and presented
their report which is in the words and figures following to wit.
To the Honorable County Court of Davidson County
Gentlemen

Your Committee on Prs and Poor House have the
honor to report that they find the Poor farm & house well managed
and the inmates well cared for by the Superintendent - Since the last
meeting of the Court two of the inmates have died there are now 28
cared for at the Poor house - Your Committee find that the
old buildings (two cabins & one double frame house) must
be newly covered or the occupants will suffer from exposure
to the weather and recommend that the Superintendent be
authorized to see that the work is done and also put a floor in
the Log Cabin at the North end of that row of buildings

We here with present the bills of the Superintendent of
the Poor House, of the Women's Christian Association and also
of the Steel House all of which we approve & recommend to
be paid - Respectfully Submitted

Report of
Jury of view
to
Mountains
Creek
Road

To the Honorable County Court of Hamilton County Tenn -
The undersigned Committee or Jury appointed by your Judge
R. C. McRee, to view and locate the road in your County of
Hamilton known as the Mountain Creek road, and running
from Edwardsons Shop on the Old Sounger place to the
Anderson Turnpike at the foot of Waldens Ridge -

County Court July Quarterly Term 1887

Bea leave to report the following - After careful personal inspection we recommend that starting from the Turnpike, the road shall follow the present track south to Scudders Spring branch, then deflect to the westward about 25 feet, making a fill at the branch of about four feet, this deflection to continue around the hill, entering the old road again at the top near Wilsons Lane - Thence following the present line to within about one hundred & fifty feet of the top of the hill north of Wilsons house deflecting at that point to the east so as to throw the road down about twenty five feet eastward at the top of the grade and the road about two hundred feet south of said top grade, following then the present line to the cross between Wilsons house and Mill, continuing then straight forward instead of following the curvature, which will throw the line about fifty feet west of the present line, in the hollow, and entering the road again near a little Culvert a little north of the next house - At this house straighten the line by moving in the fence on the west side six or eight feet to the line of Cherry trees - Then following the present line straightening it a little on the west side to a tall pine on the east side at or near the next bend in the road, at this point leave the old or present road which curves westward, making this piece the East side or line of the road, running on a straight line southward through the lands of Barker & Mrs Brown and striking the old road again at the NW corner of Swoleys fence, making the east line to run direct from the said Pine to a White Oak standing in the fence about 100 yards south of the above named corner of Swoleys fence, & on the East line to run direct from the said Pine to a White Oak standing in the fence continuing thence southward with the old road to first bend or curvature south of Lafayette Swoleys house running thence from the center of the road at this curvature as a road center, to the center of the road in the mouth of Lane in front or a little south of the front of the Old Swoley residence, this line runs through Swoleys field to the center of the road in the fields of the Young Swoley & to the east of the present road thence south with the present road to the East bank of the Mountain Creek, thence straight forward on a line through Fausts field to the center of the road in front of his house following the present road through his Lane at the end of which continue on a direct line (the road now curving a little to the East) to the Cabin on the hill, an Oak tree standing at the corner of the Cabin, to be the East line of the road - turning then Eastward and running down the hill at an easy grade, keeping above high water mark to a point about fifty feet above the present ford on the Stranger Creek, and opposite a putting or projecting point

County Court July Quarterly Term 1884

from the hill on the opposite or South side of said Creek, bridge the Creek, ascend the hill at said point with a fall to a point above high water mark, thence thence eastward again following somewhat the contour of the hill through Stringers field, making pretty much a straight line to the corner of Carters fence near the Church making that corner the South line of the road, running thence Eastward through Carters field, and cut a few feet so as to carry the South line of the road to a little cedar bush in Carters yard. Thence still eastward. Descending enough to the South to put the road bed on the bank above a sweet gum tree standing just South of the old road where it enters the branch - thence follow the contour of the hill on that grade to the little Spring under the hill west of Edmundson's Shop making that Spring the South line of the road and also the mark of the grade at that point, running thence to enter the road at the point of the hill near the shop - This completes the line - It removes all or nearly all little curves and irregularities from the road, which two bridges, one of which is to raise or rebuild Mountain Creek bridge and two or three moderate falls and a few light cuts, it places the road on good ground with an easy grade and practically above all ordinary high water - To establish the line will require the payment of a little damage to one or two parties for land taken, probably to the amount of fifty or one hundred Dollars in all - It is in the judgment of your Committee a very important road, both to that section and to the section beyond it and indirectly to the whole County, while much money and labor have been spent on the roads in various parts of the County and we think wisely and judiciously spent - This road has had nothing - we believe one thousand Dollars will make the changes and improvements suggested we think it is due the road and the People interested in it - we think it will be a wise and eminently proper expenditure of public funds -

We beg to recommend to, retention and to earnestly urge your Honorable body to make that appropriation for the purposes set forth above all of which is respectfully
Submitted

Report of
Jury view
on Harrison
Ave road

To the Honorable County Court of Hamilton County Tennessee
The undersigned committee appointed to view and lay out a
road beginning at the corporation line of the City of Chattanooga
where Harrison Avenue intersects said line and running as
nearly as possible in a straight line to the New town at the
Tunnel on the E. T. V. & G. R. R. thence over Missionary Ridge to the
Iron Bridge over Chickamauga Creek on Harrison Road. Big leave
to report that they have viewed said proposed road and report
favorably upon it and recommend that the road run as follows
Beginning at a point on the corporation line of the City of Chattanooga
where Harrison Avenue strikes said line running thence in a
North Easterly direction through the lands of Cornen, Wth Gillespie
& P Long, then to L Whitesides reaching Mrs Whitesides land at a
hackberry tree, thence in a straight line to the Cincinnati Southern
& W. A. R. R. at the first culvert south of Citico Creek, and west
crossing lands of Mrs Whitesides & Mrs Lydia Redell, cross
said Rail Road track through the lands of McMillin to
Citico Creek at high water crossing said creek through
the lands of E. W. Dodson and thence to the front of Mrs
Welshs house, thence through the lands of McNeal, J. A. Evans
Burgess, lands of - to the Boyce Station road at or near
the S. E. corner of Lattin land, thence along said road to the
corner of the Glass farm, thence in a straight line through said
Glass farm to the end of Glass Street, thence along Glass Street
to the foot of Missionary Ridge thence up Missionary Ridge through
the lands of Werk & Bercharding in a South Easterly direction
to the lands of J. J. & W. Durand, thence in a North Easterly
direction through the lands of Durand and Strickles, E. Y.
Vinson, J. J. Durand, E. Y. Vinson, H. S. Chamberlaine & Boyce Estate
to at or near the Iron Bridge over Chickamauga on Harrison road
We find that said Road can and will be above the high water of
1884 if a slight fill is made at the commencement of the road
and by making a fill at Citico Creek,

Judges Report

To the County Court

From July 1st to Oct 1st 1884 I have issued county warrants as follows

For County Court purposes	\$ 497.60
" Circuit Court "	1849.97
" Jail "	686.97
" Work House "	10,177.40
" Bridges "	2,696.74
" Paupers & Poor "	1,948.27
" Schools "	125.00
" Misc "	1,358.47
Total	<u>\$19,340.42</u>

I request the Court to visit the roads & Work House this afternoon so that you can see what has been done in the way of improvements since last term. You will see from this Report that we are expending about \$2000 - each quarter for paupers. I think we ought to have the matter of relief to the destitute in a better state of organization before winter and would recommend that the Poor House Committee hire a suitable person to look into all cases of destitution and that aid be furnished upon the recommendation of the said person. This is a city of 25,000 and there are a great many poor people among us that will have to have aid or suffer and we cannot tell who to help without a personal examination & we cannot get that examination without paying for it. The worlds Cotton Exhibition comes off at New Orleans this winter & I want to urge upon the Court the importance of taking steps to have our County properly represented with as liberal an exhibit of our resources as possible at this exhibition.

The National Conference of Charities and Correction meets in St. Louis Mo on the 13th inst. I have an official appointment from the Gov. as a delegate & will gladly go if the Court will give me \$100 - to pay my expenses.

The road coming around the mountain from the 4th District has been changed & now runs in the Lookout mt road on this side of Lees Evans. The road now made and used I would recommend for the road & the old road

County Court Quarterly Term October 1884

Should be discontinued. - This is the term at which the yearly Committees are appointed. I am still of the opinion that the Committees should have the management of the business for which it is appointed. That is the Work House Committee should make contracts for the management of the Work House. The Jail Committee for the management of the Jail & the Poor House Com for the management of the Poor House. For the past three months I have given the very closest attention to the money expended on the public roads through the work House and I think every man has faithfully earned his dollar before he got it. The work has heretofore been conducted on a fair business basis & I hope the Court will take such action as to continue on this basis

Chattanooga January 5th 1885

To the Honorable County Court
Hamilton County

Your Jail Committee report that the Jail is in good condition, the best that it has ever been. The prisoners are kept clean and warm, are well fed, and are in a healthy condition, the hot air furnace system by this Court has been completed and is proven a success, much better than the system of stoves, we have also put in an apparatus to heat water which is given satisfaction and this is the only means that we can adopt to induce the prisoners to wash and keep clean, your Committee have elected as Jail Physician W. C. S. Wright at the \$2 rate and contract, there are in Jail at this date 41 of these there are 32 men 9 women 2 U. S. prisoners Total 41 male prisoners 36 female prisoners 5, colored male 21 colored female 2 white male 15 female 3

Chattanooga Tenn, Jan. 3 '85
 To the Honorable County Court Hamilton Co. Tenn.
 Gentlemen,

Your Committee, appointed by your
 Honorable body for the purpose of having soundings
 and other necessary work done for the contemplated
 erection of the Bridge across the Tennessee River
 would most respectfully submit the following
 report. The Committee organized by the appointment
 of Mr. G. H. Jarnagin as Secty. after several
 meetings and consultations, and visiting the
 River at various points your Committee were of
 the opinion that on the account of a general desire
 on the part of our people, the cost and excellent
 character of the approach on both sides of the River
 and the character of the River bed its self, that the
 Bridge should be located at the foot of Market
 street. In this conclusion, we are upheld by the
 opinion of Engineer Whinery, who is well known
 as the Engineer in charge of the construction of
 the C. S. R. R. Bridge, crossing the Tennessee
 some few miles above this place. Mr. Whinery
 has completed the work assigned him and is now
 ready to make his report in detail, with profile
 and plan of same. The estimated cost is \$180,000
 which is believed ample for the entire construc-
 tion of said Bridge, and approaches. This con-
 template a Bridge, first class in all respects,
 in our opinion, there is but one way in which the
 contemplated Bridge can be erected, without its
 cost being felt as a burden by our people
 namely, by Bonds, running, say 20 years. The
 Tax value for Hamilton Co. is in round

County Court Quarterly Term January 1865

numbers, say, 10 Millions, to raise \$180,000 would require a levy of \$1.80 on the hundred dollars, or \$18.00 per \$1,000 to make this levy, so that the tax paid, could pay it, it would have to be divided by ten, in other words, make a levy, every year, for 10 years, of 18 cents on the hundred dollars. If we ever build a Bridge, it seems to us, that 10 years is too long to wait for a necessity, that, even now, is very apparent to all our people. so we discard the idea of paying for a Bridge by yearly levies, and say, the only way to build a Bridge, at once, or in the near future, so that its cost can be shifted over a number of years, and yet not be burdensome is by Bonds, we can issue Bonds at twenty years, raise a small levy, each year, for the interest on same and to create a sinking fund, year by year, the tax payer would not feel the amount required by this plan. In this way, we can have a Bridge in, say 2 years, from now, reap, year by year, the advantages of the same, and in 20 years, the Bond would be liquidated, the Co. out of debt and in possession of an improvement, which is a Public necessity, which would be a credit to the Co. as the taxable value of the Co. would largely increase in 10 years. our levies would be growing smaller and smaller, Of course, the amount of the yearly levy for Bonds, cannot be stated accurately without knowing the length of the time, they would run and the rate of interest to be paid. As it will take time to formulate some plan by which a Bridge can be built, we suggest the appointment of a committee, to bring forward at some time, in the near future the "modus operandi" by which this improvement can be best made, It will cost nothing, to appoint this committee and if the Co. is not ready to build this bridge, when said committee report, their work, will last for future use, whereupon, the Judge appointed A. J. Sahagan, F. J. Bennett, J. P. Smartt, F. E. Tyler, R. M. Barton Jr. and F. E. Tyler, on said Committee

Report of
Poor House
Commissioners

To the Worshipful County Court of Hamilton County

Your Poor House Commissioners beg leave to make the following report viz We have visited the Poor House of said it clean, comfortable & well kept, the inmates properly clothed warmed & fed. There are now thirty five inmates of whom eleven are insane idiotic & helpless. There have been three deaths during the quarter. We have contracted with Mr Alfred to take charge of the institutions for the ensuing year at the same rate as before viz For Insane idiotic & helpless \$120. per year for other adults \$84⁰⁰ per year and for Children under five years \$60 per year. But all Children are kept at the Orphan Homes in the City, and the above price paid to them. We have reduced the list of regular pensioners somewhat, and added Jerry Foster of the 8th Militia at \$4⁰⁰ per month, and increased the allowance of Mrs Manning of the 7th from \$4⁰⁰ to \$6⁰⁰ per mo. The large number of Paupers in the City made it a heavy burden for the Judges of the Court and as the Association Charities of the City have perfected an organization for the systematic relief of deserving poor and employed a Supt. to examine into all cases, your Commissioners decided to turn over to them the amount of money usually spent on the Paupers of the City viz about \$150⁰⁰ per month & to cross off the list all citizens of Chattanooga drawing a State allowance per month from the Poor funds to require a report from said Supt, which is hereto appended. We have visited the Orphan Homes & find them well kept & the inmates happy & contented, their health good except in case of measles in colored home

Work House
Report

On motion of C. B. Freeman Esq., seconded by Wm Fields Esq., the Workhouse Committee Report was adopted and ordered spread of record, a majority of the justices being present and voting for the same, and is in the words and figures following to wit:

To the Honorable County Court of Hamilton County,

Your Committee would beg leave to report that the Workhouse force, since the October Term has built about two miles of the Rossville road graded, widened, macadam, gravelled and rolled, with reasonable good weather, the Pike will be completed within the present month as we had a good blacksmith, in the force, a portable shop has been added which materially lessens the expense of repairing, sharpening tools, horse shoeing & etc, during the last quarter Mr. Thornbrough has been elected to take the place of Mr. Rawlston, and under Mr. Thornbrough's charge, the work has been well enough managed and actively pushed, the Sept. reports at the commencement of his term Dec. 1st 1864 he found on hand 43 prisoners 39 males and 4 females, received during the month 14 prisoners, 11 males and 3 females, there has been discharged this month 9 males and 2 females, leaving total in Work House 41 males and 5 females. it was thought best as the Quarry, on Montgomery Avenue, was located on low grounds and could not be worked after the wet season began, that a small force should be kept at work getting out stone for Metaling the road as the grading is not heavy and partly completed the work would otherwise have been lacking or have to be got at a greater distance and cost the expenses of feed and clothing for the time since Mr. Thornbrough has had charge of the Workhouse force as shown by his report is \$372.40

County Court Quarterly Term January 1885

For Miscellaneous 5396.52
 Total for the year 61,046.03

This is the term of the Court, at which you elect your Tax assessors for the year 1885. In view of the fact that the Legislature is now in session & likely to make some change in the rate of State taxation, I would recommend that our County levy be postponed until the April Term of the Court. I want to call your attention to the work done by the Work-House during the past year.

We have expended on the Frazier road North of the River	1077.65
Mountain Creek road	" 1031.06
Market & Long st. extension	2287.14
Cross roads road	1218.02
Rouden Springs, 4 th Dist.	313.05
Montgomery ave. road	1335.44
Chatta & Washington road 1 st Dist.	<u>307.10</u>
making a total of	\$ 7769.46

most of the above work has been dirt work and the money has in my opinion, been profitably expended & permanent in its character, the above sum of \$7,769.45 taken from the \$20,965.45 expended by the Work House, leaves a balance of \$13,196.00 with which we have thoroughly macadamized & gravelled the N & Calhoun st. road from the corporation line to the foot of Mission Ridge a distance of two & a quarter miles. We have widened the road bed, macadamized & gravelled three miles of the Rossville road & will have in thirty days time the entire road completed to the Ga. line, a distance of three & 1/4 miles from the corporation line, thus giving us two as fine roads & drives as can be found in the State and the cost is about \$2500.00 per mile, the money has been fairly well expended, it is possible with our past experience, to do better in the future & we might do worse.

In order to be fully abreast of the times in road building we yet need a Steam road roller and a drill, the drill will be a great saving of labor & the roller is indispensable in making a first class road & would be a great saving in the end.

I want to call your attention to the fact that our population is growing faster than we can build roads to them - with the Rossville road & the Montgomery ave. road finished we find a very pressing need for a road leading from Citico Furnace to King's bridge, we need a road around the point of Lookout Mountain into the 4th district on a grade of five feet to the hundred in place of the present road, which is about fifteen - so that somebody else can come to town besides Allen Parker, we want a road

County Court Quarterly Term January 1880

leading through the entire length of the County, on a good grade on the North Side of the river.

If we expect to maintain our present population, we must improve our present roads, if we want to increase our population, we must improve our present roads & build new ones. If we want our population to diminish all we have to do is to stop building roads, I want, in closing this paper to express my sincere thanks to the tax payers of Hamilton County for the prompt & kind manner in which they have paid their taxes, and the very hearty support I have, from time to time had, in our effort at road building, while I have been giving a great deal of attention to road building, yet I have not been inattentive to the charities of the County but have taken an active interest in all the enterprises on foot to relieve want & I would call your particular attention to the White & Colored Orphans Home in the City & would be glad the members of the Court would visit those institutions

Comt Report on
Ex officio Fees

The Committee appointed in the matter of Ex Officio fees to be allowed the County Court Clerk, Sheriff & Judge, came into open Court and made their report, which is in the words and figures following to wit:

To the Honorable County Court of Hamilton County Tennessee
 Gentlemen

The undersigned committee to whom you referred the matter of ex officio fees to be allowed the County Court Clerk Sheriff & C recommend the following.

1st That the bill, submitted by the County Court Clerk amounting to \$764.45 as shown in the itemized bill, hereto attached, be allowed and ordered paid, if on examination by the County Judge the charges are found to be in accordance to existing laws regulating Clerk fees.

2nd We find that the Sheriff has heretofore at the end or during each year been allowed such ex officio fees as in the opinion of the Court that officer was entitled, and in the case of the application of ex Sheriff H. J. Springfield, your committee after a careful and thorough investigation are of the opinion that there are many items which he was legally entitled to charge to the County for which no claim has ever heretofore been made, to arrive at an itemized list of all the unpaid fees due Mr. Springfield would require more time and labor than it is for any committee to give and arrive at any exact figures during the session of the present term of the Court and while we do not desire to appear disregarding of the interests of the County, we are satisfied to recommend that the Court order a warrant to be issued to Mr. Springfield for Six Hundred

County Court Quarterly Term January 1880

and fifty dollars, the same to be in full of all claims against the County for services rendered or fees for services rendered during his terms of office as Sheriff of this County to the present date and while the amount we recommend is not as much as the ex Sheriff thinks he is justly entitled your committee is satisfied that the same will be accepted in full of all demands and on such conditions we make the above recommendation.

3rd It requires no investigation on the part of anyone familiar with the work performed by the County Judge to arrive at the conclusion, that, that officer is inadequately paid for the services rendered, the Sheriff, Trustee, Register and Clerks of all the Courts of the County actually receive more than twice the compensation given the County Judge, the increase in the business of the County and the additional duties imposed by the attention given the work on roads, the better care of the destitute orphans and the distribution of charity and many other minor services performed now require all the time of a competent man, in consideration of these facts as well as other additional duties not herein mentioned we recommend that the County Judge be paid One Thousand dollars the same to be in full of all demands to the first of January 1880 and from that date forward the full compensation be fixed at Two hundred dollars per month and no other compensation be allowed while the salary remain at that amount.

4th The salary now paid the Superintendent of Public Schools is not in proportion to the labor performed, the duties of that office now require more attention than at any previous time in the history of the County, the position is becoming an important one, no class or profession is so poorly paid for the actual services rendered as those whose time and talents are given to our educational interests, we recommend that from January 1st 1880 be fixed at six hundred dollars per year

 for Flag Staff

On motion of F. J. Bennett Esq., seconded by W. P. Hale Esq., the following resolution was adopted, a majority of the Justices being present and voting for the same. Said resolution is in the words following to-wit:

Thereupon, resolved, that the Judge of the County Court be authorized and directed to have erected at the expense of the County a suitable flag staff on the highest and best point on the Court House & if practicable, on the steeple & have the same properly rigged up with billiards

Whereas, the Lookout Mountain and Missionary Ridge Horticultural Society and the Missionary Ridge Fruit Growers Association, have obtained from the Government the establishment of Cold wave signals and Frost Signals at Chattanooga, upon the condition that the necessary flag staffs are erected, and whereas, the flag staff erected on the Court House, is not high enough and both of said Associations & other citizens seek permission to locate the Signal Flag on the highest point of the Court House

Report of Maj. Whinnery
on Tenn. River
Bridge

Report on Surveys and Estimates, for a Highway Bridge,
at the Foot of Market Street, Chattanooga.

Survey

The survey was made in the simplest and most rapid manner that would give reliable results, and embraced the shore lines and their topography, cross sections and soundings, observations on the direction and velocity of the current and borings through the gravel and sand along the line of the proposed Bridge. The very low stage of the river, offered the most favorable conditions for the work.

I was ably assisted in the work by Mr. J. H. Fairleigh C. E. and his assistants. The results of the survey are embodied in a map and profile, submitted herewith showing all the features of the river and its shores, within the distance surveyed necessary, for an intelligent discussion of the location and place of the contemplated Bridge. The profile also shows a general elevation of the plan of bridge, which, after careful consideration of the whole subject, I respectfully recommend for your adoption.

Location and
General Plan

The bridge is designed to occupy the site of the old Military Bridge, at the foot of Market street. As the line of that Bridge made an angle of $8^{\circ}-14'$ with the center line of Market street there will be a slight curve in the South approach as shown on the map.

The bridge structure consists of the South approach of iron viaduct, or trestle, 210 feet in length: then follows a truss span of 210 feet: then the channel span of 300 feet then two spans of 200 feet each, then the draw span of 270 feet. each opening of which is 120 feet in the clear. The north pier for this span stands nearly at the top of the bank on the north side of the river. Then follows the north approach of 400 feet of iron viaduct; making the total length of the iron structure 1940 feet. The North approach of iron trestle curves to the right, or eastward with a radius of 574 feet, in order to reach more suitable ground for the approaching road, and connects with an embankment extending to the high ground to the right of the present road!

County Court Quarterly Term January 1885

The main or river part of the bridge, is placed at such an elevation, that the lowest part of the iron work is 63 feet above extreme low water (which is assumed to be zero, of the present Gov't Gauge above the landing) or about five feet above the high water line of 1867. The line of the bridge will be very nearly at right angles, with the line of the current, or speaking more accurately, the center line of the bridge makes an angle of 83° with the line of the current, when the survey was made, and owing to the deflection of the current, by the bluff above the bridge, it is probable that this angle will be very nearly 90° at higher stages of the water,

As will be seen from the map and profile, the south abutment, with the south end of the iron structure, is located about 20 feet south of the south line of Water street.

The floor of the bridge at this point will be about seven feet above the present surface of the street, or slightly above the high water line of 1870.

Earth work
approaches
and Grades

To reach this elevation the grade of Market street at the crossing of Second street should be carried northward, level, for about 300 feet, and thence should rise one foot in thirty, to the end of the bridge. It will be seen that this change of grades on Market street involves a comparatively small amount of work, and will improve, rather than injure the abutting property. Should it thought desirable, however, to make the approach with the least possible work and change in present grade of Market street the descending grade of one foot in 30 from the end of the bridge, can be continued until it meets the present surface of the street, which it will be before reaching First street, and the embankment may be only sufficiently wide to accommodate the bridge travel, leaving ample room for travel on the present surface of the street on each side of the bridgeway.

From the south abutment the floor of the iron viaduct, rises for its whole length of 210 feet on a grade of one in thirty. The succeeding span of 210 feet has an ascending grade of one in seventy, rising three feet in its whole length. From the north end of this span, the grade of the roadway is level to the north end of the draw, from whence it descends one in thirty over the iron viaduct to the north abutment, where the floor of the bridge will be five feet below the high water line of 1870. From this point an embankment averaging about twelve feet high, 28 feet wide on top, with side slopes of $1\frac{1}{2}$ to 1 should be carried level to the high ground, as indicated on the map and profile.

This embankment will be about 600 feet long and will contain about 11000 cu. yds. of earth-work. It should

County Court Quarterly Term January 1885

Length and
arrangement
of Spans

have a guard of posts and railings along both sides, to prevent accidents. If this embankment can not be built immediately, a temporary wooden approach can be built to carry the roadway from the floor at the north abutment down to the present surface of the ground. The length and arrangement of the several spans, was adopted after a careful study of all the requirements of the situation. A number of prominent steamboat Captains and pilots, familiar with the navigation of the river and the manouering of boats and tows at the Chattanooga wharf were consulted and while they did not all agree on some points, I think the arrangement adopted will be found satisfactory to them, in the main.

In deciding on the length of spans for this bridge, its location on or near the steamboat landing must be considered. It is obvious that more room should be allowed for the handling and landing of steamboats, tows and barges, in such a situation, there would be necessary if the bridge were on the open river, some distance from the City.

It must be borne in mind too, that the Government is making rapid progress in the improvement of the Tennessee River and that at no very distant day, it will be made navigable for large steamboats from its mouth to a point far above Chattanooga, and that the requirements of navigation when that period arrives must be considered and provided for.

The stipulations of the Government and the demands of the river men in regard to the bridging of navigable streams have constantly grown more favorable to the river interests, and more exacting of bridge builders. Channel spans that were considered ample 20 years since are now condemned as insufficient, and there is no reason to believe that the limit of these demands has yet been reached. There is no doubt but that in the near future the Government will insist on material changes in nearly all the existing bridges over the Tennessee.

It is manifestly to the interest of Chattanooga and the surrounding country to foster and encourage the steamboat interest, and to carefully avoid placing any serious obstacles in its way.

I have therefore made the spans, as long, and the number of piers in the river as few, as a reasonable regard for economy of construction will allow.

The channel span, has been made 300 feet from center to center of piers and it is followed by two spans of

County Court Quarterly Term January 1885

200 feet each. The south pier for the channel span, will stand about fifty feet from the south edge of the river at lowest water, and it will reach, to the first old pier, of the Military Bridge. This location for the channel span was recommended by all the river men consulted, and my own opinion supports the correctness of their judgment.

In order to obstruct the landing as little as possible, I have designed a span of 210 feet next south of the channel span, which extends, well up the bank and will allow boats to moor directly under the bridge at stages of the river from ten to fifteen feet above low water.

The draw span, has been located, at the North bank of the river for the following reasons:

- 1st The draw will not be used, except at high stages of the river, and as the pivot and rest piers and the short spans used, form a cluster of obstructions to navigation, it is desirable to remove them as far from the main water course and channel as possible, as the clear space under the bridge at extreme low water is 63 feet and as the smoke stacks of steamboats of the size used on the Tennessee river, do not reach more than 45 feet above the water (The smoke stacks of the steamer J. N. Warner, without load, reach about 42 feet above the water) and are generally much under that height, the draw will seldom be used, except when the water reads 20 feet, and over on the Chattanooga Gauge.
- 2nd At high stages of the water, the current is almost entirely on the south side of the river and the water at the north bank is almost without current, offering the most favorable conditions for the passage of boats through the draw.
- 3rd Should anything happen to prevent the prompt opening of the draw on the approach of a boat and it became necessary to tie up, its position near the shore would be very favorable for putting out lines to the trees along the bank.

The draw is designed with a clear opening of 120 feet which it is believed will be ample under the very favorable conditions of its location.

It may be stated here, that the channel span of the Cin. Sou. R. R. Bridge, above Chattanooga is 260 feet long from center to center of piers. The draw 120 feet in the clear, and the other spans 210 feet from center to center of piers.

Borings were made into the bed of the river along the center line of the bridge, to determine the depth of the sand and gravel overlaying the bed rock, but the results were not very satisfactory. To thoroughly examine into this matter would require an outlay for apparatus and labor that I did not think the value of the information to be obtained.

County Court Quarterly Term January 1885

nor the instructions, of your committee, would warrant. The conditions of the bed rock, in the Tennessee is different from most other rivers.

The convulsion, which at some time past, broke up, folded, and distorted the geological strata, throughout East Tennessee extended over what is now the bed of the river, and instead of a regular formation of level or regularly inclined strata, hollowed out perhaps, by the water. We find the layers of rock, broken up tilted more or less on edge, with deep and irregular fissures extending to an unknown depth. so that while the boring rod may strike solid rock, in one place at a depth of a few feet, it may fail to reach the rock at all a few yards away. A knowledge of these conditions, gained by troublesome experience at the R. R. bridge above Chattanooga leads me to be very cautious about relying, on the results of boring by any ordinary means.

I have indicated the probable general level of the solid rock, in the bed of the river. on the profile, placing the line for safety, below the deepest borings, obtained at each point. These borings indicate that there is from two to seven feet of gravel and sand overlying the bed rock on the line of the bridge. under ordinary circumstances it is always best to sink the shaft of the piers to the solid rock, but the great difficulties encountered in carrying out this plan at the Cin. Sou. R.R. Bridge, above the City and the high probability that the same difficulties would be met with here. leads me, to advise that foundations either of broken stone or rip rap, enclosed if thought best in a timber crib or a timber platform, sunk to the bed of the river, be used of mixed gravel and sand, overlaying the bed rock, is very compact and appears to be cemented together and is scarcely affected at all by the current of the river. This is proved by an examination of the old piers, of the Military Bridge, which although composed of wooden cribs and small broken stone have kept their place and form remarkably well and the effect of the current, washing around them has only been to excavate the gravel about a foot deep at their base.

I am satisfied, that with large and heavy stones properly placed in the river, making a foundation considerably larger than the base of the pier and reaching up to about the low water line, perfectly secure foundations can be made at a comparatively small cost. It is not necessary to go into the details of their construction, which would be provided for in the specification.

County Court Quarterly Term January 1885

There are many large bridges on such foundations, and they have failed, only where the conditions, were unfavorable for this kind of foundation, or where the work was improperly done. The Bridgeport Bridge on the N. C. & St. L. R. R. is built on such foundations, and it has never shown signs of failure or weakness. one of the old piers of the Military Bridge, can be utilized by leveling off its top and protecting its sides with heavy rip rap.

If, however, it is thought best to carry the shafts of the piers to the solid bed rock. the estimate here presented should be increased by \$1,000⁰⁰, to cover the additional cost of such foundations. In that case, the north pier of the channel span, should be placed 40 feet further northward, to avoid the old pier, which should be removed, to a depth of six feet below extreme low water, and the location and lengths of the other spans, modified accordingly.

The two piers which stand on shore near the top of the river bank will probably rest on a foundation of firm clay. but if the material should be found not sufficiently firm, for that purpose, pile foundations would be used. The latter have been provided for in the estimates.

The two abutments, and the pillars for the iron viaduct, would rest on earth foundations. though, as there may be some doubt as to the north abutment, a pile foundation has been provided for in the estimate.

A drawing showing the general plan of the piles, to be used accompanies this report.

The masonry should be of the best kind, such as is designated as "First Class Bridge Masonry" in the specifications of Railroads of the better class.

The plan and estimate contemplates, a wrought Iron bridge of first rate material, built in the best manner.

There will be a wagon way, in the middle, of 18 feet clear width, which is ample for two roadways, and will fully accommodate all the travel, that is likely to pass over the bridge. Street railway tracks may be laid, in each of these roadways when desired. There would be no advantage in making the bridge roadway wider, unless four roadways were provided.

There will be a sidewalk four feet wide on each side of the bridge. One of these side walks, will easily accommodate all the foot passengers, that are likely, to use the bridge for many years to come, and the second one may be omitted at present but should be provided for in the design of the bridge, so that, it can be added when required.

The estimates are based on the following outline specifications: all parts of the bridge, to be wrought iron, except the floor, which will be true rich oak or pine plank; The load to be provided for is 60 lbs. per square foot of floor surface, of both

General Plan
and Character
of the Superstructure

County Court Quarterly Term January 1885

roadway and sidewalks, exclusive of the weight of the structure itself, and the parts of the trusses are to be so proportioned that the tensile strains will not exceed 10000 lbs. per square inch of section, in any member. All members in compression, are to have a factor of safety of five. The iron used, must be of first-rate quality. It must have a tensile strength of not less than 50000 lbs. per sq. inch, with an elastic limit not under 22000 lbs. per sq. inch, and must stretch, or elongate, not less than 13% before final rupture. The workmanship must be first rate in every respect. While these requirements are very moderate, they are much above the ordinary practice in highway bridges and if complied with, will secure to the County, a superior Bridge.

The actual design or style of bridge, should be left to the Company building it, so long as it complies, with the specifications; but other things being equal, preference should be given to what is called the single triangular, or "Warren truss" which has the advantage of being self adjusting.

It is scarcely necessary to say, that before the contract for the bridge is let, detailed specifications should be prepared by a competent engineer.

The following estimate of the cost of the bridge is submitted. It is based on present prices of labor and material and payment in cash, or its equivalent. It embraces every item of cost than can be foreseen except, the raising of the grade of Market street, and right of way and property damages and is believed to be liberal and ample.

Time required
to build

The time required for the completion, of the bridge, will depend on the weather, the stage of the river, and more than all on the energy and business capacity of the contractor, but should not exceed two years.

Other locations
considered

The instructions of your committee only contemplated surveys and estimates, for a bridge at the foot of Market street, but since the surveys necessary for that purpose extended for a considerable distance above and below Market street, the information thus obtained furnishes data, for roughly estimating the comparative advantages and disadvantages of other locations, between the foot of Georgia Avenue and the foot of Pine street, and it may not be out of place for me to briefly consider the matter.

Beyond the cost of the earthwork approaches, into which I did not examine, the bridge may be built equally well and cheaply at any point between Market street and Pine street.

Above Market street, several locations have been spoken of, among which the following may be mentioned 1st a point about half way between Market street and Cherry street, those who favor this location, do so, I believe, solely because it affords a cheaper and higher approach from the Chittanooga side, which would be above the high water line of 1867. In answer to this it may be said that the plan submitted provides a very good and inexpensive approach on Market street, which can be used whenever Market street itself is not submerged. If the bridge landed at the point named and above the high water mark of 1867 it would be difficult to obtain a suitable grade down to Market street, since it would have to be carried through private property, and would require the removal of at least one valuable building.

2nd A location at the foot of Walnut and Lookout streets has also been spoken of but it possesses no advantages whatever over the Market street location and would involve expensive work on the streets for the approach.

3rd The location that has been most strongly urged in competition with Market street, is that at the foot of High street. It is claimed for this, that the south end of the bridge, would be high enough to allow boats to pass under it at all stages of the river, and that by building the bridge on a descending grade, the north end could land on the north bank of the river about high water mark, and that the distance from the river to high ground is shorter than at any other point. I have given this location enough attention to

County Court Quarterly Term January 1885

arrive at the following conclusions, though they are offered as rough approximations only. The elevation of the foot of High street is about 125 feet above extreme low water. If the south end of the bridge, were placed at that height and thence carried down to an elevation of five feet above high water of 1867 at the north bank of the river, the descent in that distance, which is about 1400 feet, would be 67 feet or about one foot in twenty one, which is nearly a 5% grade, a grade which would be decidedly objectionable on such a bridge, no grade exceeding 1 in 30 should be used on bridges, unless it can not be avoided.

The clear space under the bridge, near the south shore with the water at the flood line of 1867 would be over 60 feet, which would be ample for any steamboats.

The cost of such a bridge, at this point, would be at least \$20,000⁰⁰ more than the estimated cost of the Market Street bridge given above.

The great advantage of a bridge, without a draw, is, however, one not to be lightly overlooked, aside from the direct advantages, that it would offer to navigation the expenses of attending and opening and closing the draw, would be saved.

Just what this expense would amount to each year I am unable to say, but we can approximate it pretty closely. The bottom of the bridge being 63 feet above low water and the stacks of steamboats likely to be used, not being over 48 feet, the draw would not have to be opened, for boats, when the water, is at stages, of 14 feet and under.

I have only at hand the complete record of the Chattanooga gauge, for the year of 1875 and 1876 as published in the reports of Maj. W. R. King, for those years, from which, I find that the water was over 14 feet for about 75 days in 1875 - the year of the great flood, and for about 40 days in 1876. The average for the two years is about 60 days and this is perhaps, somewhat above the general average. During that time the proper attendance of the draw would require the constant service of two men, at say \$150 per day or \$180⁰⁰ for the labor, now \$180⁰⁰ is the interest at 6% of \$3000.⁰⁰ which is the amount of capital that the attendance of the draw would represent.

Of the relative advantages of the various locations named as regards the accommodation of the Public, who would use the bridge, I need not speak. Your committee being better able, than I am, to form a correct opinion.

Noah Huddle, R. Hunter, W. J. Rodds, G. M. Sherwood and
C. E. Stanley, are appointed a Jury of Review, to go upon the
road running from Chattanooga to Ringgold, on what is known
as the extension of Montgomery Avenue, by way of Scruggs
bridge. They will be accompanied by the County Engineer
and will examine, all the routes, that have been surveyed.
They will determine and locate the road that appears to them
the most practical and that accommodates the local and
general travel best, and with least damage to the land owners,
through which said road passes - They will take into con-
sideration, the advantages of the proposed road, as well as
the damages to the land owners. They will assess the dam-
ages if any are to be paid for right of way - and report their
action to the County Court at the April Term. The Sheriff
will be furnished with a Copy of this Order and he will
summon and swear the Jury and give notice to C. J. Dunlap,
F. J. Bennett and any other person over whose land said
road is located also the County Engineer. The Jury
will be summoned to meet on Friday the 6th day of March

and surveyed for said road. They will locate the road,
on the best road bed and so as to best accommodate the
local and General travel and be of the least damage to
the land owners. They will assess the damages, if any
are to be paid to the land owners and in doing so
will take into consideration, the advantages to the
land owners as well as the incidental damages.
They will be accompanied on the Review, by the County
Surveyor and the County Engineer - They will report
their action to the County Court at the April Term
1885, together with the damages if any are to be paid
and to whom. A copy of this Order, will be issued

Report of Jury
of Review
King's Bridge Road

Majority Report:

To the County Court, Hamilton County, Tenn.
The Jury of Review, to lay off first class road, from near Citico Furnace to King Bridge, both in 6th District, of said County, met at Citico Furnace on the 23rd March 1885 Present: Deputy Sheriff, of Hamilton County, J. M. Poe, the Surveyor of Hamilton County, A. K. Rogers, the County Engineer G. A. Gillespie, and Commissioners, J. T. Wilder, C. B. Champion, W. J. Ellis, J. A. Eastwood and Thom. Fort, all freeholders citizens and qualified voters of said County, and absent Commissioner H. D. Chamberlain after having been lawfully sworn, said Commissioners as a Jury of Review, went upon the ground and not being satisfied, because of want of necessary information, we directed the said County Surveyor and Engineer to make or cause to be made additional surveys of said proposed Road and adjourned to meet again for final action on April 4th 1885

On April 4th 1885 said Commissioners again met present, C. B. Champion, W. J. Ellis, J. A. Eastwood and Thom. Fort and absent Commissioner J. T. Wilder, and H. D. Chamberlain, and again went over the ground, on which the survey proposed routes were laid out, after a careful re-survey of almost the entire route by said County Engineer, from the information they obtained, the undersigned, neither of whom has any personal interest at stake, submit the foregoing following recommendations to the Court.

County Court Quarterly Term April 1885

- 1st We adopted King Bridge and the Court House as being the objective points, the one being the lowest Bridge on Whicamunga Creek, built by the County and the Court House, because it has been selected by the County as the most convenient location for the business of the County and is near the center of business in Chattanooga, Tennessee.
- 2nd We adopted a high water route, the grade at no point to be below the high water of 1884, say $4\frac{3}{4}$ feet
- 3rd We adopted that route, where from the nature of the County the best material and drainage could be obtained at the least cost.
- 4th We adopted a route as short as any other
- 5th We adopted a route which would utilize as much of County Roads already built as practicable,
- 6th We adopted a route much cheaper than any other route.
- 7th We adopted the route, where the Missionary Ridge can be crossed at a grade better and lower than any other route.

We have in all instances acted on the maps, facts and figures given us by the County Engineer, and our personal examination of every proposed route. We have not attempted to condemn property because we had given no notice to the property holders. We file herewith, a map, with the lines, proposed and adopted marked on it.

We are, including Gen. J. T. Wilder, and Capt. W. S. Chamberlain, as we understand agree, that the route from Harrison Avenue, to Missionary Ridge M. E. Church, on the Annicola Road, in the North-East corner of what is called the Lattner Tract, is impracticable and unnecessarily expensive, because it is no shorter than the present road and no shorter than the route we have adopted, or than any other route proposed. We also think all concur in recommending the use of McCallie Avenue to the Annicola Road to said Church.

We have agreed on the route beyond said Church along Annicola Road, to what is called Glass Street on the farm known by the Glass farm, at that point, we have agreed that the Engineer, ought to give the best, cheapest, and most feasible route to King's Bridge, but at no point to exceed a grade of five feet in the hundred.

We recommend also before final location of the

County Court Quarterly Term April 1880

South end of the Annicola Road, that the Engineer survey a line from McCallie Avenue, running through a Gap past North West of Orchard Knob

We did not have time to have this surveyed, but if practicable, it can be so located as to shorten either of the proposed routes.

We are informed that the right of way, will be directed to a width of fifty feet, on the route, we recommend, if the County will bind her herself, to make a good, first class ^{Telford} macadam road on it within Eighteen months. this April 2^d 1880

Minority Report

To the Honorable County Court of Hamilton County Tenn. The undersigned Committee, appointed to Review, and locate the road from Chattanooga, from a point on the corporation line at the East end of Harrison Avenue and running as nearly as possible in a straight line to the new Town at the Tunnel, on the E. T. & Ga Rail Road, thence over Missionary Ridge, to the Iron Bridge over Chickamunga Creek on the Harrison Road as asked by petition, heretofore by your Hon. body and reported upon by a Committee of View, beg leave to report, that they have reviewed said proposed road and report very favorably upon it and recommend that the road run as follows, Beginning at a point on the McCallie Street Road, running thence East along the McCallie street road 1 1/4 miles, to the intersection of the said McCallie street road with the Annicola road, thence to the N. E. corner, of the Lattie land near Mission Ridge Church, running thence in a North Eastwardly direction, through the lands of Henderson, Ashley, and the Glass land, crossing the E. T. & Ga road over the Tunnel, thence through the lands of J. J. Murand, Murand and Vinson, Chamberlain, and the Boyce property, to the Iron Bridge over Chickamunga Creek on the Harrison Road, we find that said road, will if made, be above high water, and will be of great advantage, to the people as a thorough fare to the city of Chattanooga and we find according to the Report of the Engineer appointed to survey said road, that this will be the cheapest road built and is practically as short as any other route.

Poor House Comr. Report The Commissioners of the Poor House, appeared in open Court and submitted their Report for the quarter ending April 1885 and on motion of J. E. Tyler, seconded by J. F. McFarland said report was adopted and is in the words and figures following to-wit:

To the Worshipful County Court of Hamilton Co. Your Poor House Commissioners, beg leave to make the following report for the quarter ending March 31 1885. There have been in the Poor House, during the past quarter, forty three inmates, of whom ten are insane, six are helpless, twenty two adult sane, five children. Each member of this Committee, has visited the House and find the inmates, as well cared for as could be expected. We believe that all reports of cruelty and ill treatment are entirely without foundation and that uniform kind treatment is the rule in the institution. We have made some suggestions as to the care of the insane and have insisted on more and better bedding for all inmates.

As for the fare, we consider it fully up to the average of the working people and as good as can be afforded.

As there has been considerable public criticism as to the amount paid by the County per capita, we wish to say that the sum paid \$7.⁰⁰ per month is more than the entire income for each member of the average workman's family, and ought to be sufficient for a comfortable living.

We recommend the purchase, by the County of twenty iron bedsteads.

We find that the inmates, are without exception, paupers in the fullest sense of the word and that a farm for their employment is, in our opinion, a superfluity and takes the time and attention of the Supt. that should be devoted to the inmates, and we expect to recommend at the July Term, the removal of the paupers to a point somewhere within five miles of Chattanooga and we invite a full discussion of this question as well as all suggestions as to the care of all cruelty charges.

We have examined the books of the Associated Charity of the City and find that the money has been judiciously expended, but the necessities of the poor having been mitigated by the coming of Spring, we have reduced the appropriation from \$150.⁰⁰ per month to \$60.⁰⁰

County Court Quarterly Term April 1885

We have decided to abolish the regular monthly pay roll of paupers, and have divided the County into Districts, to be in charge of members of the Committee as follows and to whom all applications for aid shall be referred

Judge's report is in the words and figures following
To the County Court

From January 1st 1885 to April 1st 1885 I have issued County Warrants, for the following purposes

County Court	\$ 3188.80.
Sheriff Court	3177.94
Jail	2160.99
Work House	5461.60
Bridges	3700.12
Paupers & Poor House	2745.71
County Hospital	145.08
Schools	125.00
Mis.	1026.69
Total.	<u>21631.99.</u>

The Legislature is still in session and have not yet agreed upon a Privilege Tax Law and it will be impossible for us to make, an intelligent Privilege Levy until we get the proceedings of the present Legislature, I would therefore recommend that you postpone making a Tax levy until the July Term I have a proposition from W. G. Oastler to sell the County a steam Road Roller, which I am very anxious for the County to accept.

For the past six years, I have given road construction the very closest study and I have come to the conclusion that the only way, we can build roads faster, than we wear them out, is by the purchase of a Roller, we have now, McCallie Street and, Rossville Roads, that are respectable roads and a credit to our County and we are now at work

County Court Quarterly Term April 1885

on the Montgomery avenue road, and we need badly a road South around Look Out Mountain and on in the direction of Trenton Ga, we need a road to James County, by way of King's Bridge, we need a road on the North Side of the River all the way through the County and we need a better road up Walden Ridge, all these roads are in very great demand and the road to the half way house built two years ago, needing repairs, so with our present system of Road building, we cannot get around until we have to go back and repair, and we never will get done while the World stands and we will always have bad roads, the only way to remedy the matter, is to buy a Roller, a road properly built and rolled, will stand for a period of twenty years, without repairs, and will not wear into ruts and holes and in the course of Twenty years with crusher, roller and our present work house force, we can have a rolled, Telford McAdam road, leading to the limits of the County in every direction, without this we will have a great many bad roads in every direction.

Now I think it economy to buy a roller, and it is the only thing, that will ever give us, good, permanent roads in all directions and a failure to act in this matter, will greatly retard our County developments and our prosperity.

The Colored Orphan's Home, is now deeded to the Steele Home Association and is in condition to receive the promised aid from the County.

There are now, in the white Home, thirty two children and in the Colored Home, in all forty seven, these institutions certainly are entitled to material aid from the County and should be encouraged and liberally supported all the children in these institutions are without parents to care for them, and left to themselves would grow up neglected and fall into lives of ruin and crime. or if they have parents they neglect them and are unfit to have them in these institutions they have careful training and when let out they are placed where they can have an opportunity to make a living in the world, equally, with more favored children and some will succeed.

The "Committee on Finance" into whom was referred the Report of County Trustee Shelton, appeared in open Court and submitted the following report to the County Court of Hamilton County Tenn.

Gentlemen:

On account of the present low state of the County Treasury, we recommend that the strictest possible economy be observed in the several departments of the County and we further recommend that in order to meet all obligations promptly that the County Judge and Trustee be authorized to use the credit of the County to borrow such funds as may be absolutely necessary to meet expenses until the 1885 Tax levy becomes available provided that a greater rate of interest than 6% per annum shall not be paid on the money borrowed.

The figures above show, the County, to be in debt about Thirteen Hundred dollars, owing to this fact, I would recommend that the County Suspend all hired Labor and use as little money as will take to run the Work house, at least until the County has money enough to pay the laborer when the work is done. The amount estimated will not be enough to pay the necessary expenses of the County if the hire of private labor were cut off.

The estimate I think is about correct and if so, it would not be advisable to lay out too many

County Court Quarterly Term April 1886

roads or put to many hands on those that are laid out
What to do with the Public Roads and how to do it
is the question before your honorable body.

With the limited means, it is impossible to buy the
material to build the roads so greatly needed in our
county.

In regard to Public Schools, I think it safe to say
they were never in better condition financially
We want better school houses, better paid teachers,
and in a short time, the people would be willing
to pay a greater tax to support the Schools.

Your Honorable body, is aware that 40¢ on the \$100. is
not sufficient, to raise enough money to make the im-
provements on Public Roads and meet the necessary
expenses of the County. In 1883 the County went in
debt over \$8000. on a 30¢ levy. In 1884 the County went
in debt over \$10900. on a 45¢ levy, at the same rate for
1884 levy of 40¢, by the time the 1885 Taxes will be due,
1st Monday, in Oct. will be in debt \$20,000.

To meet the necessary expenses at the present system
will require a 55¢ levy for County purposes, during
the current year, I mean from Sept. 1 1885 to Sept. 1
1886 and not be in debt, less money will not be
sufficient to meet the demands after cutting off
all extra appropriation for private labor or Public

Count on Assessments
Reductions

On motion of A. J. Gahagan Esq. seconded by G. W. Sewell Esq. the Committee of five appointed by this Court at its session of April 1885 to act upon petitions for reduction and erroneous assessments for the year 1885 appeared in open Court and made a report of their actions, and on motion of A. J. Gahagan Esq. seconded by G. W. Sewell Esq. was received and accepted by the following vote. Ayes J. K. Ford, J. H. Light, Allen Barker, Wm. Rogers, J. S. Morgan, J. L. Smith, C. H. Villman, J. M. Williams, J. J. Smith, G. J. Morgan, P. C. Bolton, J. J. Aft, A. J. Gahagan, J. H. Buchanan, G. W. Sewell, Wm. F. Fink, J. M. Anderson, J. M. White, J. M. Halford, J. T. Rogers, A. W. Pele, J. C. Fadd which report was in the words and figures following to-wit:

The Committee on Equalization met pursuant at the Court House pursuant to call June the 29th 1885 a majority of the Committee being present.

J. H. Lewis a Deputy County Clerk of Hamilton County was appointed Clerk to keep a correct record of the action of the Committee, the following petitions were presented and acted upon as follows

4th Dist
Jno. Charlton

1 1/2 Acres in Fourth Dist. assessed to John Charlton at \$50.⁰⁰ was reduced to \$75.⁰⁰ this reduction is made on the recommendation of the assessor of said Dist.

4th Ward
Trust Nat Bank

Lots 17 & 18 Market st. Hudson's addition assessed to the First National Bank is reduced to \$40.⁰⁰ each \$800.⁰⁰ for the whole, this reduction is made for the reason that the improvements on the lots belong to A. Wagner and not to the owners of the lots.

16 Dist
Excelsior Coal Co

The petition of Danville Mining, President of the Excelsior Coal Company shows that the Company owns 2000 acres of land in the 3rd and 16th Districts that the whole was assessed for \$800 in the 3rd Dist. and 100 acres also assessed in the 16th Dist. that by mistake the taxes were paid on 3600 acres, we

County Court Quarterly Term July 1883

recommend that the County Judge be directed to issue his warrant to the said Excelsior Coal Company for \$20.⁰⁰ being the amount overpaid by reason of the double assessment of the land.

4th Ward
Jno. Trindal
Petition of John Trindal, asking for correction of assessment of lots on Frank & Johnson's streets in the 4th Ward we recommend that the assessment on this property be reduced from \$750.⁰⁰ to \$1200.⁰⁰

1st 4th Ward
Rosalie Andrews
Petition of Farnett Andrews, asking that the South 3 feet of West 140 feet of Lot 50 and North 26 feet of West 140 feet of Lot 52 Market St, and the North half of Lot 2 Georgia Avenue, be assessed to Mrs. Rosalie C. Andrews as she is the owner of and that the books be corrected to show such changes.

5th Ward
Wason Car works
Petition of the Wason Car works property for 1884 from \$40,000 to \$25,000 this petition shows the embarrassed condition of the Company and the excessive valuation on the property. we recommend that the assessed valuation be reduced to \$25,000.⁰⁰ and that the Trustee be instructed to receive the taxes on the basis of said reduced assessment.

2nd 3rd Ward
J.M. Winchester
Petition of J.M. Winchester, asking the reduction of assessment on Lot 47 Market street from \$33,000.⁰⁰ to \$25,000.⁰⁰ for the year 1884 we recommend that the petition be granted.

6th Dist
Citico Furnace
Petition of Citico Furnace Co. pray reduce to have the assessment for 1883 reduced to \$60,000.⁰⁰ for good reasons stated in the petition we recommend that the reduction be granted.

3rd Ward
Mrs. M.A. Carlisle
Petition of Mrs. M.A. Carlisle, asking for reduction of assessment on Lot on James street from \$13,375.⁰⁰ to \$11,250.⁰⁰ we recommend that the petition be granted, the petition states that a similar request had been favorably acted upon by the City.

4th Ward
J.C. Griffie
John C. Griffie's petition to have assessment on Lot 10 Primer street assessed to D.L. Camden as he has owned the lot for 2 years. we recommend that the correction be made.

County Court Quarterly Term July 1885

- 2nd Ward J. P. Muller, petitions to have assessment on Lot on
 J. P. Muller corner of Fifth and Poplar streets be changed so
 as to assess $\frac{1}{4}$ to him and $\frac{3}{4}$ to Charley McCallough
 we find that the decree of the Chancery Court ordering
 a division of the Lot was entered at the April Term
 subsequent to the date of the assessment As your
 Committee knows your law that will justify them to
 make the change asked for we recommend that no
 action be taken on said petition
- 9th Dist. Petition of Geo. P. H. Wilkins to have assessment on 150
 P. H. Wilkins acres reduced from \$5500⁰⁰ to \$4500⁰⁰ granted.
- 4th Ward Petition of Bridget Hughes to have assessment on 'B'
 Bridget Hughes street reduced, from We find that this Lot is assessed
 about equally with the adjacent property we recommend
 that petition be rejected.
- 2nd Ward Petition of C. Sindenman to have Lot corner of Broad
 C. Sindenman and Seventh streets reduced from \$4500⁰⁰ to \$3500⁰⁰
 we recommend that the petition be granted
- 4th Ward Petition of Anna Eckard to have Lot corner of 4th
 Anna Eckard and South street assessed at a lower rate, the lot
 is assessed at \$5500⁰⁰ we recommend that the
 assessment be reduced to \$3500⁰⁰
- 3rd Ward Petition of W. H. Hackney shows that he is assessed
 W. H. Hackney on Lot 4th block 1 & 2 in addition at a valuation of
 \$2,100⁰⁰ he shows that he sold to M. C. & J. L. Sutherens
 the South 40 feet of said Lot in 1883 we recommend
 that the Record be changed so as to assess to Hackney
 the North 35 feet at \$900⁰⁰ to Sutherens the South 40
 feet at \$1200⁰⁰
- 3rd Ward The petition of Geo. M. Gillespie surviving partner
 Geo. M. Gillespie of Gillespie & Co. asking that the assessment on Lots
 22, 23, 25, 26, 27 and fraction of Lot 28, block 5
 Stanton addition be reduced from \$9500⁰⁰ to \$8500⁰⁰
 the reduced valuation is the price fixed by the Court
 for the year 1884 we see no good reason for an in-
 crease in value over 1884 and recommend that the
 reduction be granted.

County Court Quarterly Term July 1855

2nd Ward
J. G. Brown
Petition of Mrs J. G. Brown, by her Attorney Mr. Souleiman Fort, asking that the assessment on Lot 7 Fort's addition to 3 be reduced from \$500⁰⁰ to \$450⁰⁰ we found the adjoining lots assessed at \$450⁰⁰ and recommend that the petition be granted.

3rd Ward
U. Jassnacht
U. Jassnacht, petition to have assessment on part of Lot 3 Carter st. reduced from \$4000⁰⁰ to \$2500⁰⁰ and on Personal property from \$3500⁰⁰ to \$1000⁰⁰ we have considered this application carefully and recommend that the valuation on the Real Estate be fixed at \$3500⁰⁰ and the assessment on Personal property be reduced to \$2000⁰⁰

4th Ward
Larkin Hair
Petition of Larkin Hair, showing that part of Lot 14 & 16 Oak street assessed to him should be assessed to Mrs. F. Hair at a valuation of \$500⁰⁰ and his assessment reduced a little amount we recommend that the petition be granted.

The above were all of the Petitions coming before the Committee and we respectfully submit our action as reported above for the consideration of the Court

V. J. Mahagan
J. J. Bennett
Allen Parker
W. P. Dale

While concurring with the balance of the Committee, in the above report in every thing except the reduction of the assessment of the Cilico Furnace Co from \$70,000 to \$50,000, I wish to explain that while fully sympathizing with the Company and as desirous as any one to lessen their burdens, I oppose this action on the ground of public policy. If we allow the reduction for the reason alleged viz that the plant is unfortunate in making no money we might with consistency abate a great share of the tax levy

W P Dale

6th Dist.
W. W. Anderson
On motion of Allen Parker Esq. seconded by G. W. Jewell Esq. the petition of W. W. Anderson for a reduction Assessment on his property in the 6th Dist. for the year 1855 was reduced from \$4500⁰⁰ to \$3500⁰⁰ a majority of the Justice being present and voting for the same.

Report of County
Physician

C. O. Wright County Physician appeared in open Court and ~~made~~ submitted his Report and on motion of A. J. Sabagan Esq. seconded by W. J. Walker Esq. was received and ordered spread of Record a majority of the Justices being present and voting for the same. Said Report is in the words and figures following to wit:

Chattanooga July 6 1885

To the Honorable Work House Committee
Gentlemen:

Below please find my Report as Physician to the Work House for the Quarter ending July 1st 1885. During the last three months there has been less ^{sickness} considering the number confined than any three months previous, this is largely due to the more commodious quarters and to better sanitary regulations, while our sanitation is better than at any other time to my knowledge, yet it is far from being perfect. The Supt. has taken great care to enforce as far as possible cleanliness. The occupants are required to change the entire clothing once a week and to wash the person thoroughly, the laid off clothing is washed, mended and well sunned out to be ready for another change etc. also is the bedding. Great care has been taken to the quarters to be as clean as possible by scrubbing, with hot suds and whitewashing the walls as often as necessary to insure good health, also during the last few weeks of this warm weather a disinfectant called the "Red Cross" has been used very successfully. The building has been enlarged to a more comfortable size and the food for the prisoners has been wholesome plenty of it and of a character such as to avoid as far as possible those articles of food like green vegetables that might produce bowel troubles, a fact worthy of note is this, in the last few weeks there has been a general complaint of bowel troubles amongst the people at large in this community, we have had amongst the prisoners hardly any, if at all of bowel troubles this I think is due to the fact that the green vegetables have not been used. The general line of feeding is as follows. Irish Potatoes, Beans, Peas, Sider meat, Pork, and Beef Soup occasionally and Corn.

County Court Quarterly Term July 1880

Bread, Coffee is given in the morning, whenever a prisoner gets sick he gets immediate attention, is kept in the shade, and not worked until they are convinced of his recovery, the class of people that find their way into the Work House as convicted prisoners more or less of them are affected with Blood diseases, Syphilis being the evil. By giving them the proper medical treatment as a general rule they can be kept at work at least they get no worse until set free again, whenever any prisoner gets too sick to be kept about the works and is liable to be that way sometime he or she upon my recommendation to the Superintendent and an order from Judge M. C. A. C. transferred to the County Hospital, and there given treatment seven persons have been treated there during the last quarter, one died, 3 were discharged, (time had expired) 2 were returned to the work House and 1 is still in the Hospital, they are always kindly treated here and not one prisoner ever attempted to desert the work house while at the Hospital. (The Hospital in connection with the work House is indispensable) There has been late far more female prisoners than before there now being 17 confined there, they are a class of women that never have any thing at any time and as a rule the only clothing they possess is on them when they are arrested. a stout cheap dress made of some material that will wash well would add greatly to their appearance as well as to their comfort, and I most earnestly recommend you to first instruct the Superintendent to purchase them at once, some of them have long terms to work out and they are in all but a wretched condition as far as their cells are concerned with a good deal of threatening and scolding they are kept almost fit for hogs to stay in. They seem to love dirt their sleeping room has been enlarged, sufficient for the 17 there now but if more should come, more room would be required, The entire force at present are in good health and all seem to be contented with their fare and treatment, Hoping Gentlemen that this will meet of your approval, I remain
Yours Truly

Report of County
Engineer

J A Gillespie County Engineer appeared in open Court and read his report and on motion of W^m Meade Esq. seconded by A. S. Mahagan was received and entered spread on the records. A majority of the Justices being present and voting for the same, and is in the words and figures following, to wit:

Chautauoga Term July 11 1885.
To the Work House Committee

I have the honor to make the following brief report of work done by the Work House force during the last quarter. The grading of Montgomery Ave extension was completed and work of unloading the same began. 5000 cubic yards of earth and 200 cubic yards of stone were moved, and 1200 yards of unloading laid. The culvert road is well drained, with suitable side ditches and tile cross drains. About 6 weeks was lost to this road by the work house force through heavy rains, during a portion of this wet season the force was transferred to the ridge road where it worked until Montgomery Ave became sufficient to return to it. During this stay on the ridge the force built 1 1/4 miles of 12 foot road through the lands of Wesson, Braudage, Stewart & P. Bennett, about one 1/3 of the force is now engaged on the valley road north of the river near Melville Station. The work on this valley road consists of grading some very heavy grades and improving about the roughest cobbles stone road way that nature could construct. The Steam Roller is doing excellent work as is also the Robroy screen the latter being the gift of W. C. Castle of New York City. Hamilton County is now supplied with a full and first class road building outfit, and our roads in the future can be justly charged to good management and in competency. It is hoped the Honorable County Court will visit the Montgomery Ave work when the steam machinery will be in operation and predict that the merits of heavy rollers will be acknowledged by all. The finest cement gravel I have ever seen for road covering is found in the ridge farm of Chas. M. Bennett which he generously donates to the County for use on Montgomery extension.

In re of the white school of 6th Dist

The petition of W P Ford others filed at the April Term 1885 of this Court praying the Court to reconsider so much of its action at the January Term 1885 of the same as divides the white school of that part of the 6th School District lying south west of the South Chickamauga Creek into two parts, and dividing the school money of said District between the same having been referred to John Fort Brown & J Bennett as a Committee to investigate & report with recommendations, said Committee through its Chairman made a unanimous verbal report to effect that in the judgment of said Committee it was manifestly against the interest of that part of the white school of the 6th School District south and west of the South Chickamauga Creek that the same be divided, and that the County Court had no legal authority to divide the same, as was attempted to be done by its action at the January Term 1885 of this Court because if done at all the law prescribes that it be done only on the recommendation of the Commissioners of Schools for that District which was not the case, and that it was manifestly to the interest of the 6th School District that the action or attempt to action of this Court at the January Term 1885 in dividing said 6th School District be vacated & set aside, reconsidered and that said District be left as it was before the action of this Court at the January Term 1885 and in motion the report of said Committee was received & adopted and so much of the record of this Court at its January Term 1885 as divides or attempts to divide the 6th School District of Hamilton County was set aside vacated and reconsidered.

Judge McRee's Report

Judge McRee Report for Quarter ending June 30 1885 To the County Court

From April 1st 1885 to July 1st 1885

I have issued county warrants, as follows:

For County purposes	\$889.05
" Circuit Court "	3476.21
" Jail "	1107.50
" Work House "	4838.12
" Bridge "	74.50
" Poor House & Paupers "	2723.05
" Schools "	1500.00
" Assessments 1885 "	1746.50
" On Steam Road Rollen "	2238.78
" Miscellaneous "	1118.96
Total	\$20,342.67

The only important measure for your consideration at this term is the Tax Levy - It must be made at this time, and will be necessary in my opinion to make it the same as last year - with this report I furnish a Tax on Privileges for your consideration. I am happy to inform you that I do not want to buy anything more for the roads in the way of machinery. We now have a cylinder screen attached to our Rock crusher, which separates the material into four sizes and we can use the larger stone for the bottom

County Court Quarterly Term July 1883

of the road bed, the second size next + on up to a finishing covering with the smaller size + three dust on top giving us a complete + finished road, so far as the stone can make it, and to finish the road, and make it up to the latest and most approved methods of road building, we have our Steam Road Roller weighing 15 Tons, with which we roll the roads bed thoroughly + the different layers, of rock up to the finishing surface, I want the Court to make the Tax levy, pass the appropriation and the P.M., go out to the workhouse and see the work we are doing

Henderson, G. A. Wood, J. J. Priar, W. P. Wain, J. M. Walfield, & A. W. Poy. Now None said Report is in the words and figures following, to wit:

To the County Court of Hamilton County Tennessee - Guilleman

The present financial condition of the County is such as demands absolute economy in the administration of the affairs of the County, the depressed condition of trade, the low prices now prevailing for all the products of the farm and manufactory, and the large amount of unemployed labor throughout the County all indicate hard times for several months in the immediate future. These indications for the coming year will not warrant the Court in materially increasing taxes

County Court Quarterly Term July 1885

over the present rate, the two most expensive departments in the County are now the Work House and the Circuit Court, the expenses of the last named is mainly beyond the control of the County Court. The expenses of maintaining the Work House can be materially increased or diminished as the Court may elect, the cost of maintaining the work house as at present conducted cannot be maintained without increasing the rate of taxation or involving the County in debt, we are opposed to either at least until we experience a revival in the business interests of the County we favor public improvements, such as building roads, school houses &c. but we oppose incurring indebtedness for either of these purposes beyond the ability of the County to pay for us the work progresses, having all these facts before us we cannot recommend a greater rate of taxation on Real Estate and Personal property for the year 1885 than was assessed for the year 1884 which was

making in all for State, County and School purposes 90^o on each \$100⁰⁰ and for Road tax we recommend a levy of 15^o on each \$100⁰⁰ of real & personal property and six days labor for each person liable to road duty under the present law and a Poll Tax of \$1⁰⁰ on each person liable to pay a Poll Tax as the law now provides, and we further recommend that one half of the road tax may be worked out as the law authorizes provided the tax payer elects, to do so instead of paying the whole of said road tax in cash

Chattanooga Tenn. Sept. 3, 1885

To the Hon. Work House Committee

Gentlemen:

I have the honor to submit the following report of operations by the County Work House force for the quarter ending Oct. 5, 1885

The principal work done was confined to Montgomery Ave extension, where an average of three fifths ($\frac{3}{5}$) of the force has been engaged. The remaining two fifths ($\frac{2}{5}$) of the force has been employed on the Valley road near Melville. On the avenue extension $1\frac{1}{4}$ miles of rubble stone foundation has been laid and covered with sufficient quarry spawls to fill all interstices. These spawls were used in order to economize in the use of crushed stone, and which, under pressure from the steam roller, give an almost solid masonry foundation, no more satisfactory work with the steam could be expected than has been accomplished both on Montgomery Ave extension and on the streets of the City. One fourth ($\frac{1}{4}$) of a mile of Macadam has been crushed and spread; one six foot open drain built and earth embankment thrown up on each side of the rubble foundation. The entire length of the road, with numerous lateral drains which are to be filled with rubble stone just before withdrawing the force in completion.

The crusher has been improved by the substitution of a large pulley or band wheel of the engine, which increases the speed 30 percent.

Thus far the actual work done on Montgomery Ave. extension from beginning to present time, is as follows.

Earth excavations	27100	cu. Yards
" Embankments	29000	" "
rock excavations	160	" "
Rubble foundation	5300	" "
Crushed stone	825	" "

County Court Quarterly Term October 1885

Crusher screenings	100	Cu. yards
ubble Masonry	40	"
Drain Paving	25	"
18" Tile Drain	210	Lineal Feet
24" " "	240	"
Small " "	260	"

The two principal causes of slow progress and non completion of this road during the last quarter was bad weather and a constantly dwindling force, which at times reached as low as twenty (20) able bodied men. Fully four weeks have been lost through rainy weather which at times caused the quarry to be flooded. no one can fully appreciate the difficulty of working in wet weather without attempting to do so, in the bottomless marshy flat between Mission Ridge and the corporation line. There only remains 1600 lineal feet of road bed to be covered with crushed stone, barring accidents and unavoidable delay this can be done in 33 working days. The gravel can and will keep pace with crushed stone. It is safe to say that by Nov. 20th the entire work will be completed, when completed this road will stand without an equal in the entire south, and will require no general overhauling for fifteen years, in construction, only the established principals of road building are employed. Its expense appears glaring, simply because its building has consumed only a few months, when completed its cost will be less than that of McCallie avenue, which is now only half a road on which loaded wagons can hardly pass; the work done on the valley road near Millville is in extent about 1 1/2 miles, and consisted in reducing grades deflecting water courses and substituting a mixture of sand and clay in road bed for sand and boulders. Gus Kullman deserves great credit for the efficient and intelligent way in which he did this last mentioned work. In closing this report, permit me to offer a few suggestions, or rather state a few conclusions. The work house is an expensive institution to the County and it is presumed that all desire it to be maintained on the wisest and most economical basis. Though desired and accepted in the past, at least since my connection with it, I am satisfied that no fair return has been made to the county for money expended through it, our convicts are human, and if it is required of

County Court Quarterly Term Oct 1885

them to do good work they must be treated as well as good laboring men treat themselves. If they are not treated so as to sustain their physical force, then their keeping and working is and will continue to be, a source of waste of County funds. To make the work house a source of profit to the County requires only an application of such business principles, such as private individuals of sense and judgment insist upon in the conduct of their own affairs. The system of responsibility and accountability on the part of every work house officer is far from explicit. An intelligent, experienced hand, our County convict, can and will do fully one fourth more work in the future than in the past. The class of good roads now inaugurated will be built faster than any one dreamed of, if the force is only properly and wisely directed, our present superintendent, Mr. Stanley, fully accords with me in the above, and is now introducing much needed reforms and hopes soon to inaugurate a more perfect system throughout. In this he has my most cordial support and assistance.

Very Respectfully
Your obd servant

Gentlemen:

I beg leave to report submit the following report of collection and disbursements on the Tax Lists for the year 1884 and collections from all other sources from Sept. 1st 1884 to Sept. 1st '85 and the disbursements of the same - results showing the financial standing of the various departments for which said revenue was collected,

I can say that the largest amount of money ever collected in one year in Hamilton County was collected

County Court October Quarterly Term 1885

Last year; some of which has been used building the best Roads that have been built in this part of the State. another portion of it has been so used as to make all earnest workers in the Public education of the people feel has not been thrown away; another large amount has been spent in taking care of the orphan and helpless ones of our County, none of which, I think, could have been expended for a better purpose. of the number applying for certificates about 80 per. cent have been licensed. We have a good body of Teachers even though the compensation paid is not high. The Teachers Institute is efficient and prosperous We need something better in the way of houses and their appointments, public sentiment is leaning some-what in that direction however and the end is not yet. That interest in our common school is increasing is evidenced by the demand for special information touching their progress.

Poor-House
Committee Report

J. M. Stivers, Esq. Chairman of the Poor House Committee presented and read his Report for the Quarter ending December 31 1885 and on motion, said Report was received and is in the words and figures following to-wit:

Chattanooga Jan'y. 4 1886

To the Hon. County Court of Hamilton County, Tenn.

Your Committee on Poor-House beg to make their Report for the quarter ending Dec. 31 1885, owing to the death of Mr. John Alford, Supt. of the Poor House, before the expiration of his contract, your Committee appointed Mrs. Alford, to complete the year on the same terms as heretofore which has been done to the entire satisfaction of your Committee, There have been 26 Paupers, cared for during the Quarter of whom 14 are Insane or helpless, the entire expense for conducting the Institution for the past Quarter is \$614.25. Your Committee has placed the sum of \$150.⁰⁰ per month, for the month of November & December in the hands of the Associated Charities of the City who attend to the necessities of the County charges within the City limits, the Colored Orphan's Home, was burned down, during the Quarter, undoubtedly by the torch of an incendiary, as no less than 4 attempts have been discovered, to burn the building on Georgia Avenue, which is temporarily occupied by them, pending the erection of the new building to which we are glad to say, the Citizens are lending a generous hand, as this Institution will be one for the White Children take and care for a large number who would otherwise fill our Poor House we think it a matter of business economy as well as Philanthropy for the County to take every opportunity to promote their welfare, and we commend Judge McRee's industry, in their behalf there is now a total of about 75 children in both Homes, receiving from the County \$5.⁰⁰ per month for each inmate. It was the intention of your Committee at the October Term to recommend some radical changes in the administration of the Poor House and their Report was so worded but the Court adjourned so suddenly, that no action was taken, believing however that the contemplated changes were for the welfare of the County and having the sanction and the approval

of the Judge and a number of Justices and with the change of Supt. made necessary by the death of Mr. Alford, we have made the preliminary steps for the changes, for which we now ask the approval of the Court.

We have authorized the erection of three Cottages on the grounds belonging to the County on the extension of Vine Street said Cottages costing about \$900.⁰⁰ Dollars We have engaged Mr. J. M. Poe and Wife, as joint Supts at a salary of \$36.⁰⁰ per month, and allowed \$15.⁰⁰ per month for the hire of two servants, this contract to terminate at any time, if the Committee are dissatisfied with the arrangements. It is proper that the County furnish all supplies and to combine the Hospital with the Poor House and have one competent medical attendant for both of these institutions.

John M. Stevens J. P.
 W. D. Posey
 H. H. Dillman
 W. J. Walker.

We recommend that the Paupers be removed to the new buildings on the Hospital Grounds near the City.

Whereupon, speeches were made by several of the Squires, deprecating the action of the Poor House Committee & Judge on their erecting buildings on the County Hospital Grounds near the City, without the consent of the Court and also the recommendation of said Committee to remove the Paupers to the new buildings, pending discussion, it was moved by F. J. Bennett Esq. seconded by C. H. Dyer, Esq. that the action of the County Judge & Poor House Committee be in the erection of the buildings on the Hospital Grounds, be approved. motion in lieu by G. A. Wood, Esq. seconded by C. Snyder, that the motion of Esq. Bennett be laid on the Table, Ayes & noes were called for and said motion in lieu, was lost by the following vote. Ayes, J. C. Rogers, J. Gentlemen

Your Jail Committee beg leave to report that there are confined in the Jail -42- of these

31 are Felonies
6 " Misdemeanors
⁵ " U. S. Prisoners
42 Total.

We report the Jail in good condition and the inmates have good food and are in very good health - but so far, our Jailor has not been able to keep them clean from vermin. We have corresponded with the Secretary of the Cincinnati City Work House as to the best method used there and find that they use a part of the time a steam vermin destroyer which requires a pressure of 150 lbs. per sq. inch as the temperature of 220 to 250 ° of heat is required to destroy the lives as well as the unhatched insects. They also use a strong hot brine first - then washing - now in order to accomplish something in this direction, we recommend that this Committee be authorized to purchase a number of suits of clothes to be used in exchange when the prisoners come into the Jail, that they may be stripped washed and a clean suit of clothes put on each and these clothes may be cleaned by being put through a brine and put by until they come out. We do not think the cost will exceed seventy five dollars with this arrangement the Prisoners and the Jail can be kept clean. We have examined the roof of the Court House and in our judgment the part that is covered with tin should be repainted this Spring to protect it from injury.

In re 8th Dist. School petition

On motion of G. Alwood Esq. seconded by J. J. M. Jarland the paper in the matter of the 8th District School was received and ordered spread of Record, said papers are in the words and figures following to wit: In re petition of J. W. Jenkins & others citizens of the 8th School District for the establishment of a new school district, & the report of the County Supt. This petition being before the Court for consideration on motion of J. J. M. Jarland and seconded by J. E. Dyer it is ordered by the Court that said report be received and adopted and that

Quarterly Court April Term 1876

the following resolution be adopted and spread of Record

Resolved, 1st that it is the sense of the Court that the consideration of the petition of J. M. Jenkins & others citizens of the 8th District school for the establishment of a new school district out of part of said 8th school district be postponed.

2nd That it is not advisable that the school districts of the County should be divided into districts when it is possible to avoid such divisions, but this Court will, when necessary to do so, in order to have justice done to the various portions of the several school districts, divide said school districts & establish new and smaller districts.

3rd. That it is the sense of the Court the district school Commissioners of said 8th school district should establish a new school at the school house in the west end of the district in the settlement known as Hot water town & that they assign to this to this new school the children of the parents & Guardians signing said petition of J. M. Jenkins & others & such other children as are in the boundaries embraced in said petition & that they appropriate to said new school the prorata of the school money of said 8th District according to the number of children of scholastic age in the boundaries embraced in said petition. That the Court is of the opinion that this course is necessary in order to avoid a division of said 8th District & the establishment of a new school district out of the boundaries in said petition.

By the Hon. R. C. McRee Judge and to the Worshipful County Court of Hamilton County Term.

The undersigned citizens of 8th Dist. of said County respectfully ask your worshipful body to lay off and establish a school district out of the following portions of said 8th District

Quarterly Court April Term 1886

Beginning at the Dist. line in the Gulf of Big Soddy Creek, thence up the Creek to Walter Welch's trail and thence to the top of the mountain above Jerry Hatfields thence with the top of the mountain to John Reddins thence east to the district line and thence with the dist. line to the beginning

Your petitioners represent & show that they are remotely situated from the house now used as a school house being about two miles from said house for those nearest it, and more than two miles for others, that said house is small and not sufficient to accommodate the largest school population in the entire district, and even if your petitioners were conveniently situated in reference to said school house they could not receive the benefit to which they are entitled on account of said house not being sufficient to accommodate the united school.

Your petitioners further show that they have a good comfortable house already completed conveniently situated to the great bulk of population in the bound of proposed new school dist. which they tender for public school use, free of charge in the event said dist. is established, they further represent and show that they are numerically strong enough to sustain a good school within themselves and should not be burdened to sustain a school for others of which they derive but little or no benefit. they further show that a school was accorded them in the house they are seeking to have established last summer but the Director's refuse them this right in the future for these and various other good reasons and sufficient reasons your petitioners respectfully pray the establishing of said Sunday into an independent and separate school district that an election be ordered for the election of School Directors and for all necessary and general relief in its premises

Quarterly Court April Term 1886

- and your petitioners will ever pray
- Recapitulation of reasons for granting request
- 1st Remoteness from established school,
 - 2nd Want of capacity of present house to accommodate united school,
 - 3rd Numerical strength sufficient to maintain a school within ourselves,
 - 4th The tender of a good & sufficient house for proposed Dist. free of charge

In the matter of the petition of citizens of the 8th dist. asking for a new district and board of directors I beg to report as follows:

This action is asked for the following stated reasons.

- 1st Distance from district school house.
- 2nd Capacity of said house.
- 3rd Enumeration ample for a separate school
- 4th The offer of a house free.

For 1st reason it can only be said that children all over the County travel a like or greater distance.

For 2nd reason the petition declares what is and has been a just cause of complaint and if continued must result in conceding what petitioners ask for.

Reasons 3 & 4 are not material to the merits of the case. The fact that there are children enough in one end of a district

Quarterly Court April Term 1886

to sustain a one room school, where the district can, under reasonable conditions have a two room school is no reason for the division, the statute provides otherwise. The offer of a house is not material, unless it be conclusively shown that distance or causes not disclosed would seem to make the step necessary. There is another reason petitioners have for complaint. The road for $\frac{1}{4}$ mile east of the school house and over which many of their pass is almost impassable for small children but this and capacity of house both can be made to accommodate petitioners and on the whole.

It is suggested that the Hon. Court take no action in this case at present but await the action of the local school board, of the 8th Dist. in the matter of granting petitioners a separate school this year which course the Supt. will recommend to said local board.

Respectfully
H B Heywood

Report on Judge's Report

The Finance Committee unto whom the Judge's Report was referred to examine and report upon appeared & filed their report & on motion of C. H. Dyer seconded by J. Bennett was adopted and ordered spread of record. Said report together with the County Judge's report is in the words & figures following to wit:

To the County Court
From Jan'y 1st to Apr. 1st 1886 I have issued County warrants as follows.

For County Court purposes	\$ 1836.55
" Cir. " "	4371.51
" Jail " "	1086.13
" Work House " "	5390.45
" Bridge " "	490.50
" Poor House " "	1106.78

For Out Door Relief to poor	\$ 742.89
" Steel Home	825.58
" Nise st. home	265.
" Pauper burials	138.
" Schools	150.
" Miscellaneous	3297.21
Total for all purposes.	\$20486.57

It is proper to state that the bills for the Work House in Dec. 1885 are included in this report and they amount to the sum of \$1509.84 and were paid on Jan. 1st before the Court met - since the Court met we have paid on Work House account the sum of 3880.61

I recommend the appointment of a Committee of five on the equalization of taxes - The Committee to report to the July term.

I recommend that the tax levy be postponed until the July term of the Court so that we can get a chance to see the amount of damages sustained by the flood & thereby be the better able to provide for the wants of the County.

I again urge the Court to remove the Poor now at the Poor House to the hospital quarter near town and if necessary put the Poor farm on the Market & sell it.

It will be seen from my Jan. report that I had up to that time paid on the County Hospital buildings the sum of \$396.50 to which add 582.19 the amount of this report & it will be seen that the entire work cost the sum of \$978.69. The work consists in the payment for the entire material & the building of three new houses.

18' x 36' & ceiling the two old houses. and we now have ample accommodations for the entire poor of the County. for some years to come. I recommend that the Court pay to the Comr. of the Poor, the sum of Twenty Five dollars each per. quarter which I consider a small compensation for the services rendered.

We find that the within report is correct so far as we have investigated & recommend that the Court take some action in reference to the removal of the Poor House & authorize the Judge to appoint a special Committee on tax equalization. We also recommend that the Court allow the Poor house Com. the amount suggested in this report.

Chattanooga Term, April 3rd 1886

To the Hon. Work House Committee:

Gentlemen:

I have the honor to submit the following report of operation during the past quarter.

Lookout Valley Road

The east valley section from corporation line to north end of cross roads fill, has been surfaced and covered to a depth of six (6) inches with crushed furnace slag. This work was done out of season and is therefore not satisfactory. The slag used was the best that could be procured and though cheaper than limestone will not prove so durable and satisfactory. I earnestly recommend that you finish the section of the road with finely crushed limestone instead of the so called "crushed gravel" which is but little superior to common earth. Sometime since a part of the tile drain under the cross roads fill gave away, causing a break midway of the fill, at the beginning

Quarterly Court April Term 1886

of the present rise the remainder of the tile we gave way, carrying the other half of fill above it. You have already authorized a permanent double stone box enclosed of thrice the discharging capacity to take the place of the washed out tiling. The fill can be made in about two weeks work of the present convict force engaged on the west grade. On the west grade more or less work has been done from the summit to Lookout bridge, a distance of $1\frac{1}{4}$ miles. The work is scattering owing to changes in the weather, but it is fair to estimate $\frac{3}{4}$ of a mile as graded and ready for metalling.

Birds Mile Road

The work on this road has progressed favorably but is but is not of a permanent character. The force has worked over a distance of 2 miles and have finished about $1\frac{1}{2}$ miles. at present the ridge ascent is being worked through the lands of Mr. Sherwood. The heaviest grade will be some (7) feet in 100, while the greater portion is only $4\frac{1}{4}$ feet in 100 feet thus overcoming former grades as high as 13 feet in 100 feet.

Stringer's Ridge Road.

The force engaged on Stringer's ridge has done the best work of any division of the work house. This work has suffered less from March heavy rains and presents the best appearance, due to proper care and attention to side ditches and surfacing about $\frac{1}{2}$ a mile is completed and the remainder well under way. This force was driven th from their quarters by the present high waters but secured other housing and are now working as usual.

Whiteside Street Bridge

The iron girders and pine timber have arrived but the oak flooring has not as soon as the oak reaches here the bridge will be repaired. The appropriation made by last County Court is sufficient. The present high water has done great damage to our County roads and bridges how great it is impossible to estimate until the flood water has recedes. The washouts can be repaired by the Work House squads, and much of the labor required for other repairs derived from

Quarterly Court April Term 1886

sources

From personal observation and report I believe the damage to roads and bridges will fall but little short of \$6000.⁰⁰ two thirds of which will be required for bridge removals and repairs. The damage occurs on our principal roads and ought to receive immediate attention

Conclusion

A careful estimate of the work accomplished during the past quarter by the work house force leads to the conclusion that the policy of dividing the force results unfortunately for the County in two ways

1st Greatly increased cost and 2^d A gradual return to the old system of poor construction

Poor House Commission Report

The Poor House Commissioners appeared in open Court and read their report for the quarter ending March 31 and on motion of C. H. Eyer Esq. the same was received adopted and ordered spread of Record said Report is in the word and figures following to wit:

Chattanooga Tenn. April 1 1886

To the Hon. County Court & Hon. Co.
 Gentlemen:

The Commissioners of the Poor, beg leave to submit to your Hon. body, our report, for the quarter, ending March 31 1886. Immediately after our appointment, the Commissioners had a meeting at which the whole matter of caring for the County Poor was discussed and your Commissioners decided that the plan of feeding the inmates of the Poor House by contract could be bettered. It was believed by us at that time, that by appointing a Supt. & hiring the proper help and

Quarterly Court April Term 1886

supplying all necessary supplies as they were needed, that the inmates could be better fed, better satisfied & at less expense than under the contract system. As a matter of humanity if for nothing else, it was right & proper to give this new mode a trial, human nature is pretty much the same, the world over, and though a man may suffer, to feed & make comfortable his mother-in-law, Poor House Contractors are not as a rule so tender hearted, no matter how low the price may be, they will feed accordingly, so as to make a profit. The following figures will show that the belief of your Commissioners was well founded as we have saved the County during the past quarter \$300²⁸ have fed the inmates of the Poor House more & better food & have we believe given them entire satisfaction. Under the Contract System the County paid for maintaining the Poor 10:00 per month for the helpless or insane & 7:00 per month for the balance this would average \$8:50 per month per inmate, under the new system inaugurated by your present Commission the cost has \$5.00 per month for each inmate both sane & insane.

while not helpless many are unfit for

We have expended during the past quarter
 for out door relief the sum of \$649, this
 includes \$350. given to associated Charities
 and is a saving on last quarter of about
 250 to the County.

This matter of out
 door relief is one that causes more
 anxiety than any other department
 pertaining to the work of caring for Poor
 We are constantly confronted by par-
 ties who on investigation we believe are
 not entitled to relief from the Co.

On investigation we find that applicants
 apply for relief who own considerable
 property, others whose near blood relations
 are well off, others again whose imme-
 diate families are well able to care for
 them, but who believe that the County
 is bound to give them a 'draw' as they
 call it, if one of the family is sick, or
 aged, or feeble many demand relief
 as their right & when denied bitterly
 complain, no doubt believing that the
 Commissioners steal much of the relief funds.
 They are not content with submitting
 their cases and allowing the Commission
 to judge as to the amount to be given
 but demand \$5 or \$6 or even \$8 per month -
 Many don't want to accept anything
 but cash, which in all cases where
 we have any reason to doubt the sobriety
 or judiciousness of the applicant we deny
 giving relief in order to the merchants
 nearest applicants' residence to give on

Quarterly Court April Term 1876.

our order so much goods + of such a kind as we believe will best suit their several cases in all cases & notifying the merchants to give nothing but goods. Your Commissioners were of the opinion that if that blessed haven of rest of which we read in the good book & for which we all sigh, was located anywhere in Tenn. its peaceful shades might be found in the Jurisdiction presided over by our highly venerable Justices Parker & Bright, but even in that haven of rest we find the Scripture corroborated & exemplified in the saying "The Poor ye have always with you" we have always tried to grant relief to every worthy applicant & at the same time protect the interests of the Tax payer.

The County Poor House is located at Harrison some 14 or 15 miles from Chattanooga "over the hills & far away" reached by bad roads & requiring a "Native to the manner born" as a guide to reach the same. It is located on a farm owned by the County, so poor, sterile & bleak, that Dietlen's when he wrote his Book "Hell House" must have been an inmate of our Poor House. We are told in Holy writ, that by the sweat of his brow man must earn his bread, but if man has to earn his bread off the Poorhouse farm it would take the sweat of at least two or more men. While the buildings are fairly comfortable they are not valuable. Your Commissioners are unanimously of the opinion, that the Poor House is not in the right place, it is now practically inaccessible so far away at the end of the County it is costly to take parties there & in case of sickness, dangerous to life. The Poor House should be located within easy reach of Chattanooga, one objection which some citizens raise to the bringing of the Poor House near Chattanooga is, that it would soon be filled up by persons who had no business there. We think on full consideration of this point that it is not well founded. It is a fact well known to many of you & honorable body that the poor both white & black have the greatest aversion to going

Quarterly Court April Term 1886

to the Poor house, the vast majority cannot be driven there at the point of the bayonet. Instances have come under our own observation where parties, poor, sick, relying on the humanity of their neighbors for the very necessities of life, could not by any means be induced to go to the Poor house, the very name, had a horror for them, they saying they would sooner die than go. We are firmly convinced that the Poor House should be located within from 1 to 2 miles of Chattanooga for the easy & inexpensive transportation of the poor, for the ease with which they can receive medical treatment for the money saved in purchasing supplies in the City in quarters, saving freight to Harrison. The County is now the owner of 10 acres of land on the continuation of Wine St., The land is well located, well watered has sufficient buildings on it & in good shape to accommodate the Poor House inmates. Another point connected with this matter should be taken into consideration: We have always had always under the care of the Co. persons who are hurt on Railroads or in other ways who having been residents of the County over one year are entitled to by law to be taken care of by the County this class, which for years has averaged say 5 persons cannot be transported 15 miles over bad roads almost impossible to the present Poor house. With the Poor house located on the County land near the ridge, the whole matter of Poor House & County Hospital could be combined, at a greatly lessened cost. The work done much better & more to the satisfaction of the worthy poor. We therefore ask your Hon. body to authorize the Commissioners to move the Poor House to the land indicated which is in our opinion the proper place, or to such other place near Chattanooga as in your wisdom you deem best and now gentlemen we submit this our report trusting

Quarterly Court April Term 1886

that if all have not done as well as you expected you will with your well known goodness of heart overlook our short comings and now we close with malice toward none & with charity to all & at peace with all the world except our creditors we are

11 "Dist. school
petition report of
Co. subd.

On motion of G. W. Sewell Esq. The report of the Co. Supt. on Schools unto whom was referred the petition

County Quarterly Court July Term 1886

of the 11th District "in re" of dividing school district was adopted by the Court a majority of the Justices - being present and voting for the same, said Supt's report is as follows

This petition is respectfully returned to the Hon. County Court with the recommendation that it be disallowed for.

1st It would encumber the school system with another Board of Directors 2nd The number of children in no. 5 concerned is only 55 by last census. 3rd If it take children from no 1

it will disarrange a section of 4 schools all believed to be now as well situated in this respect as the present distribution of the population can make them.

4th From a careful study of the system, and comparison with others the writer is of the opinion that the erection of new districts in the manner herein set out encumbers the system and tends to obstruct the usefulness of the schools.

Respectfully submitted

H. B. Heywood's ✓ H. B. Heywood County Supt. of Public Schools
report on schools appeared in open Court and made his report
on schools for the quarter ending June 30/86
said report is as follows.
To the Hon. the County Court of Hamilton Co. Term.
A report of 49 schools for 1885-6 is here submitted
Schools reported 49 schools not reported 11.

County Court Quarterly July Term 1886

Total to schools taught.

Enumerated in 49 schools	4223
Enrollment " 49 "	3056
Average attendance "	1687
Enrollment per ct. on enumeration	.72
Average attendance on enrollment	.55
" " " Enumeration	.40

A very much larger number of children were provided with schools than ever before. There were 5396 children by last census and only 337 were without a school. Attendance should be somewhat more than it is and would be if in some schools having a large enumeration, two teachers ^{were} employed, instead of one, in such cases the more persistent attend while the timid and retiring children may perhaps leave the school where the over-taxed instructor finds not sufficient time for the work before him.

Respectfully submitted

 Co. Supt.

A. Shelton, Trustee, Hamilton County Tennessee, appeared in open Court and made his report for the Quarter ending June 30/1886 said report is in the words and figures following

Report of A. Shelton, Trustee July Term County Court of the County Court of Hamilton County Tenn.

Gentlemen,

I herewith submit report showing receipts and expenditures for all departments for which revenue is collected in Hamilton County during the year beginning Sept 1st 1885 and up to July, 1st 1886

The figures show that the County has paid Warrants to the amount of \$64,76.80 per month during the last ten months; they also show at the same rate of expense for July, August, and Sept, that it will require \$7430.40 to meet all necessary expenses, to Oct, 1st 1886. The taxable property, is about \$10,000,000. This will give the County \$40000.00 at the present rate, We receive from Clerks & other sources \$20000, making a total for County purposes 60000. Our indebtedness will be about \$36000 by 1st Oct 1886, This will leave a balance of \$24000 to be expended for all purposes during the next twelve months from Oct, 1st 86 to Sept. 30' 87. The County Work House cost about \$2000, per month with the present arrangement; it is divided into three departments which necessitates at least twice the number of guards and much other expense that cannot be dispensed with. I think the cheaper plan of working convicts is to have

County Court July Quarterly Term 1886

them altogether but think many more roads can be built with them divided

Then the question is whether make less amount of roads or pay a little more taxes. There is nothing lost that is put on the Public Roads judicially. The public schools have plenty money on hand, enough to run five months this fall. Our school system is getting better and the people are better satisfied with it because teachers are taking more interest than heretofore, the pay is better. Our roads have a small amount to their credit enough to keep them repaired during the winter & spring months after which all men subject to road work put in six days. I think it would be doing the people justice to make the time four days instead of six. Then I would recommend a Tax Levy as follows.

30¢ for State, 40¢ for County 20¢ for Schools and 10¢ for Roads making 1.00 of course this would not meet all expenses without curtailing them, which is with you. The receipts and disbursements are as follows.

County Court July Quarterly Term 1886

To the County Court of Hamilton County. Gentlemen
 The undersigned Committee on Finance to whom was referred
 The application of F. Shelton Trustee for Releasements on
 account of Errors delinquents &c on Tax Levy for 1885
 Report that we have examined the Trustee accounts so
 far as the same applies to the tax levy for the year 1885
 and recommend that he be allowed the following credits
 on a/c of State Tax County Tax School Tax Road Tax
 Errors & releasements 323.50 443.32 221.66 50.75
 Delinquent Real Estate 597.78 797.04 398.52 121.50
 " " Polls _____ 2104.17 4208.33 _____
 Total \$ 921.28 \$ 3344.53 \$ 4828.51 \$ 172.25

We recommend that the Trustee be allowed credit on
 Settlements for 1885 Tax levy for the amounts named above and
 That he be charged with the uncollected Delinquents Tax on
 Real Estate as follows State Tax \$597.78 County Tax \$797.04
 School Tax \$398.52 Road Tax \$121.50 the same to be carried
 on his Books as a Liability to be accounted for when he
 makes Settlements for the 1886 tax levy we find that on
 Settlements for 1884 Tax levy that the Trustee was allowed
 credit for Delinquent Tax which was charged to him on
 1885 Books as follows

	State Tax	County Tax	School Tax	Road Tax
	\$ 714.09	\$ 952.12	476.06	46.99
Out of which he has collected	<u>366.12</u>	<u>488.16</u>	<u>244.08</u>	<u>18.94</u>
Balance uncollected	\$ 347.97	\$ 473.96	\$ 231.98	\$ 28.05

The uncollected Delinquent taxes on Real Estate on Tax
 Levy for 1884 should be charged also as a Liability on
 1886 Levy as follows the same to be accounted for in
 1886 Settlement - State Tax County Tax School Tax Road Tax
 \$ 347.97 \$ 473.96 \$ 231.98 \$ 28.05

We find that By an error in in the list of Delinquents
 on tax levy for 1884 the Trustee failed to get credit for the
 Taxes on Personal Property assessed to Powell & Littleton
 the same proved to be uncollectable and as a matter of
 Justice to the Trustee we Recommend that he be allowed
 credit for same as follows State Tax \$450 County Tax
 \$600 and school Tax \$300 after giving the Trustee credit
 for these amounts the net Balance on Levy for 1884
 for which he should be charged on delinquent Book
 would be State Tax \$343.47 County Tax \$477.96 and
 School Tax \$238.98 and Road Tax \$28.05 We also recommend
 That the Itemized Report of Delinquent Collections on Tax
 Levy for 1884 be made a matter of Record as a Part of
 the Proceedings of the Court at the July 1886 term
 the same in our Opinion Being necessary in

County Court July Quarterly Term 1886

Order to keep the Records of Delinquent Taxes complete

Sewell Esq the same was received and entered spread of record a majority of the Justices being present and voting for the same. Said report is in the words and figures following to wit

To the Honorable County Court Guillemont - your work house committee wish to make the following report. The expenditures of the work house have been reported on in the judges report. We therefore refer the Court to his report on the expenditures of the work house committee. The force on the Stringer Ridge road have graded and graded nearly one mile of road, making the road bed 20 feet wide. This force has varied from 6 to 12 men and has averaged about 9 men during the quarter. We have had two teams with this force, on Lookout Valley road, about 1/2 mile of the heaviest grading has been done. This includes the heavy fill on the west side of the bridge, and the cut through the hill, which is nearly completed. The number of able bodied hands have averaged 30 males, women about 10. The force on hand now consists of 18 men - on String Ridge road. Lookout Valley - the crusher has been located on the side of the mountain with the view of utilizing the road. The committee has 15 head of mules, 8 wagons, 3 carts, 6 scrapers on hand and a good supply of other tools on hand, such as Picks shovels, Chisels &c. The committee is the responsibility of consolidating the Birds Mill force with Lookout Valley force. This was the cause the force became reduced to small for practically working but the committee in this transfer agreed that when the force was increased, the force should be sent back and complete the work as offered by the Court.

Oct 5 ' 1876

To the Hon. Co. Est. of Hamilton Co.
Gentlemen,

The Commissioners of the Poor would respectfully submit their report which is as follows and we have expended for C. & R. \$189.00 for maintaining the Poor House \$574.⁰⁰ for fencing Poor House grounds and painting Bldgs. and part pay on well now being dug \$229.²² making a total of \$992.⁸² average number in P.H. during the quarter 28 There should be deducted for the amount spent maintaining P.H. \$574.⁰⁰ the price of two cows \$65.⁰⁰ provisions on hand \$50.⁰⁰ ~~200~~ leaving the amount actual spent during the quarter \$459.⁰⁰ showing cost of each inmate per. quarter for food and clothing during the past quarter.

We have had an unusual number of sick who had to be provided with such delicacies as the Physician ordered, and our medicine Bill was unusually large this shows a saving over the old system of \$3.03⁰⁰ per quarter for each inmate the number of inmates July 1 '86 21 - admitted during the quarter 17 Total 38, discharged during quarter 14. Died 6 - number now in P.H. 18. — 38 —

of the deaths one was white, 4 colored, three were males and 3 were females, discharged 10 whites & 4 colored, Deaths 1 from Dropsy 2 from Consumption 1 abscess, 1 Syphilis, 1 old age & debility Total 6 of the present inmates 5 Whites and 13 colored, 7 males & 11 females, of the above 18 five are Insane 3 Constitutional Syphilis, 2 are blind, 3 are infirm from old age 1 has Scrofula 1 has Intermittent fever, 1 Ulcer on foot. — 18 —

From the report of the Physician, ^{Dr. Sims} we quote "The inmates are well cared for, the buildings, & bedding are comfortably and clean, we are now getting matters into good shape, and we believe that during the coming, we without

during any injustice to the worthy Poor, run the P. H. for less money all of which is respectfully submitted.

Moved by A. J. Gahagan seconded by J. E. Tyler that the County Judge be authorized to draw his warrant on the Trustee for \$125.⁰⁰ per month in favor of the "Associated Charities" until April 1st 1887 motion carried a majority of the justices being present and voting for the same.

The citizens of what is known as the Hot Water neighborhood of the Eighth Dist. presented the following petition

To the Hon. Hugh Whiteside Judge and the Worshipful County Court of Hamilton County Tennessee

The undersigned would respectfully represent to your Honors that they are citizens of the eighth and twelfth district of said County and State, mainly of the Eighth and that as such citizens are and have been interested in the building up and maintaining of good schools and to this end have entrusted and importuned Directors of said Eighth District to provide for them a School having tendered for said purpose, a good and suitable house for use for as a School House, eligibly and conveniently situated and that said Directors persistently refused to provide a school in said house or any where else so that Petitioners can have the benefit of it. Petitioners further show that efforts were made for a school until they despaired of justice at the hands of said Directors and appeal to your worshipful body for redress of grievances that at your April Term of the Court said matter was considered by your worshipful body and you directed that the said District be divided into two separate and distinct schools but under the control of one set of Directors and directing the use of just and equitable proportion of the public funds for the new school District known as Hot Water school. your

Petitioners were well satisfied with the adjustment made in their behalf and expected and urged the carrying out of said arrangement on the part of said Directors but they have failed and do still fail and refuse to carry out said just and equitable arrangement. Your petitioners represent that since the agitation of this question and the order passed by your worship and enumeration of the Scholastic population of said District has been made and is now on file with your County Supt. of Public Schools, to which reference is made if necessary showing an enrollment of 204 scholars in the District to accommodate these 204 scholars ~~there is~~ There is one school room 36' x 16' capable of accommodating about 60 scholars or less than one third the number enrolled. Your Petitioners when they came before you, for redress last Spring showed it was inconvenient for them to attend the house now being used as a School House for said District by reason of its great distance from them, even if it were large enough which it is not to accommodate them they further represent that out of the whole number enrolled they have within their bound and in close proximity to their house 86 scholars entitled to the School fund or nearly half of the entire enrollment. They have a good and suitable house for school purposes furnished at their own cost which they do and have tendered to said Directors for use of Public Schools but they would not allow a school at said House they failed to provide school house accommodations anywhere for the benefit of Petitioners. Your Petitioners further shows that there is a large surplus of school fund on hand in said District being about \$806.⁰⁰ including levy for 1876 in view of the premises and of the failure of your Petitioners to get justice in said District they respectfully ask your worship's body to cut them Petitioners off from said 8th District and attach them to the 12th District of said County by the following changes.

In line of said 12 District town, commencing at point where district line intersects Clift & Parks Southern Compromise line, thence with said compromise line, westwardly to the Mowbray or Mc Cleary Bluff, thence with said bluff northwardly to Big Soddy Creek, thence down said Creek to line of 12 District your Petitioners further show that aside from the matter of Public School it is greatly to their interest to and to our convenience to be attached to said 12 District that their place of trade is there and near the voting ground of the same that there Post office is also in the 12 District and altogether it would be much more convenient for them to belong said District and in matter of Schools it is of paramount importance being as they are entirely cut off from any benefit of the Public School, they ask a transfer of their proportion of School fund & they re-iterate the following points 1" Refusal to comply with your orders, 2 Entire want of capacity of house, to accommodate scholars in the District, 3 Distance, to said house were ^{it} sufficient, 4 Sufficiency of own enrollment, 5 House ready for use, free of any public cost. 6 Convenience and interest in a civil aspect.

Petitioners respectfully ~~rest~~ submit their claim into your hands

J. J. M^c Farland Esq. presented the following petition
 Chattanooga Oct. 4/86
 To the Honorable County Court of Hamilton Co. Gentlemen!

The Rossville & Chicamunga Street Rail Road Co. has obtained a Charter from the State of Tennessee to build a Street Rail Road from Rossville to market & other streets in the City & said Street R. R. Co. would respectfully request your honorable body to extend them the right and authority to

to build said road on the east side of the Rossville pike from the Corporation line to the State line & said Company will agree not to interfere with the Macadam on said turnpike will not lay their track within ten feet of the center of said Road Pike which will not interfere with the Macadam on said pike - said Street R.R. Co. desires to run their Road along the side of said pike in order to accommodate the citizens living on each side of said pike said Company could select a more direct route for their line but said line would be inconvenient & too far to accommodate the citizens living on the east side of the Rossville ^{turn} Pike said Street R.R. Co. would not make the request herein stated - if they did not believe it would greatly benefit the citizens in that section and the public at large. It would enable the citizens living in the City & especially the laboring class - to reach a cheaper locality for residence & provide a cheap transportation to & from their place of work. said Street R.R. Co. begs your careful consideration regarding their request & trust you will act favorable on the same.

This ends my term of office & I want to say that I quit the office with the kindest of feeling for every member of the Court and many of you are the very best friends I have in the world - I thank you one & all for the many kindnesses you have shown me during the last eight years with but one exception the majority has always been with me, & I feel that the administration with all its mistakes has been largely mine.

During the month of Sept. I have been Supt of the Work House. I look upon the work House as a house of correction as well as a place of punishment & that the inmates should be dealt with, with a view to their

reformation - If this view of the matter meets the approval of the Court I would like to be retained at the Work House for one year.
R. C. Mc Kee.

On the foregoing report the Finance Court reported as follows.

We recommend that the action of the County Judge in issuing warrants for the purpose named herein be confirmed by this Court and that said report be made a matter of record.

Tax Levy for 1887

A. J. Gahagan, Esq. Chairman of the Finance Committee, submitted the following report and Tax Levy, for the year 1887 which is in the words and figures following to wit:

Chattanooga Tenn. Jan. 3rd 1887

To the Hon. Hugh Whiteside; and to the County Court of Hamilton County Tennessee,
Gentlemen;

Your Committee on Finance, have made a careful examination of the expenses of the County, during the year 1886, and have approximated the demands that will be made, on the County, during the year 1887, We recommend to the Court that we regard it as being bad policy for the County to incur indebtedness, during any year, that will exceed her income, during the same period, we do not favor an increase in the rate of taxation but if the rate of expenses, now existing, continues, it is evident, that, the rate of taxes, must increase or the income of the County, will not be sufficient to meet her liabilities, we favor an

Work House Comt. Report.

J. H. Slight Chairman of the Work House Committee appeared in open Court and submitted their Report for the quarter ending December 31, 1886 said report is in the words and figures following:

To the Honorable County Court:

The Committee on Work House desire to submit the following report for the quarter ending December 31, 1886.

The total expenses of this department has been \$4049. ²/₅₀ dollar, as is shown by itemized statement hereto attached, of this amount \$1006.18. was paid in settlement of old accounts made before the beginning of this quarter, which leaves \$3043. ³/₅₀ dollar as the actual expense of the past three months, the Work House force as you know, has been divided, an average of 12 men and 2 guards, have been at work, grading the lower Ferry road on the North side of the River

Quarterly County Court January Term 1887

and this grading has been completed, from Stringer's Ridge to the River and the stone culvert under this road have been extended or lengthened as required by the widening of the road. The remainder of the Work House force have been at work on the Foothold Valley road and have completed the grading of this road from Parker's Spring to Foothold Mountain. This force has with the aid of one hired mason, built the two stone abutments, for the new spans, of Foothold Bridge and have quarried and broken ready for the Crusher 350 cubic yards of stone and have crushed and laid 400 lineal feet of macadam, the total amount of earth fill, made during the quarter, as estimated by the engineer is 9100 cubic yards on the Mountain road and 4600 cubic yards on the Lower Ferry road one of the mules belonging to the County, died during this quarter. The other stock owned by the County is in good condition and all of the machinery, is in good working order. The prisoners that we now have in the Work House 66 in number are in good healthy condition the statement following of the number of prisoners in the Work House, each month, with the cost for feeding them, given separately, will enable the Court, to see that under the present system we are feeding the prisoners, for about one half the sum, heretofore paid by the County, there was 58 prisoners in the Work House October 1st. 48 men and ten Women, there were 57 prisoners in the Work House Nov. 1st 44 men and 13 Women making an average of 57 1/2 prisoners during the month of Oct. the cost of feeding the 57 1/2 prisoners and their guards for one month was \$424.96/100 dollars during the month of Nov. there was an average of 57 prisoners and during the month of December an average of 61 1/2 prisoners and the total cost of feeding these prisoners and the guards for these two months, has been \$382.⁵⁰/₁₀₀ dollars or less than half as much as it has cost the County heretofore. and this report includes a good Christmas dinner of Turkey &c and about one weeks supply of provisions that are still on hand. It is the feeling of the Committee that the prisoners should not be separated, as the cost of

Quarterly County Court January Term 1886

Guards and feeding in separation is about one third more in a body than working them in a body where more can be done, the difference in small bodies of men, it necessitates us to buy goods and food at retail prices.

We have during the past quarter moved the buildings from the low ground to the high. They are now above high water. We found the buildings when we took charge of the place on the low ground near a small branch. The prospect of 1886 was in 4 of the houses and almost in the other. We found we had to move these buildings to higher ground as they were damp and unhealthy or build new ones so we moved them, put in pavilion, built flues and provided each building with two stoves we have also had a well dug as there was no water to be had except along ways off from a spring on adjoining land from which we might be cut off at any time. Having four insane persons we were compelled to build a mad house, where each insane person has a large cell clean well bedded and comfortably warmed in connection with this mad house we have a large yard with high fence so that the insane may in good weather have the benefit of light

Quarterly County Court January Term 1887

and air we also built a good substantial fence were around the line across owned by the County, built a coal house, cleaned up the grounds, and now your Poor farm is well fenced, well watered sufficient good buildings for our present wants, and the unfortunate Poor are well fed and comfortably clad, the permanent improvements mentioned above were absolutely necessary but they cost money which in our opinion is well laid out, the Commissioners have spent for the past quarter as per itemized report herewith submitted \$1602.⁰³ divided as follows, for the maintenance of Poor farm \$750.⁶⁹ permanent improvements \$649.⁸⁴ out door relief \$201.⁵⁰ Total \$1602.⁰³

of the amount as shown above for maintaining the Poor farm we spent for Blankets and Bedding \$74.⁹⁸ Provision on hand \$125.⁰⁰ (~~\$199.⁹⁸~~)

This deducted from 750.⁶⁹

Net Cost of maintaining Poor farm \$550.⁷¹ showing a cost per quarter of each inmate of \$25.⁰², this may seem a large amount as compared with previous quarters but the Hon Court must remember that the past three winters are the worst easily of the 12 as fires have to be kept night and day also lights, the good marsh of such a nature as will give both strength and heat and consequently cost more than food in the warmer months, every thing is running nicely, and we would be pleased if the members of the Court would at their convenience visit the Poor farm and see how we are getting along, all of which is respectfully submitted

The Committee appointed by the Judge on ex-officio
 fees appeared in open Court and submitted the
 following report.

To the Hon. County Court of Hamilton County Tenn.
 Gentlemen:

In compliance with your directions
 we have considered the question of Ex-officio fees

Quarterly County Court January Term 1867

we find that the Sheriff is the only officer who has been getting such fees, since the salary of the County Judge has been definitely fixed by the Court. The amount heretofore voted by to the Sheriff in full for such fees has been Five Hundred Dollars per annum, and in accordance with past precedents we recommend the payment of this amount to ex-Sheriff Pyott, on the condition that he accepts the same in full satisfaction of all claims he has against the County, respectfully submitted

A. J. Gahagan 3
 J. E. Tyler 3
 W. J. Walker 3

Moved by J. E. Tyler Esq. seconded by J. Bennett that Ex Sheriff Pyott be allowed the sum of Five Hundred Dollars Ex officio fees for his last year in office, conditioned that he accepts the same in full of all claims against Hamilton County Term as Sheriff. motion carried by the following vote

The Judge submitted the following written opinion of the County attys Dewitt & Thomas, in the matter of the change of 8th District School, the same was ordered read of Record
Chattanooga Dec. 18 1886

Mr. A. Shelton, City.

Dear Sir,

Our opinion in the School District matter is that the change in the district line is valid, except, in so far as it may effect the office of the Justice of the Peace

Quarterly County Court January Term 1887

To the Honorable County Court,
Gentlemen;

I submit the following report of warrants issued by me, as County Judge for the quarter ending Dec. 31, 1886

For Circuit Court Costs ^{2nd} Judgment	\$ 6525.24
" County Court Expenses	\$ 2719.90
" Work House	\$ 4049.21
" Poor House & Charity (per D.C. Warrants)	\$ 1826.91
" Jail Expenses	\$ 431.95
" Bridges	\$ 416.71
" Inquests	\$ 122.00
" Roads	\$ 51.00
" State Orphan Home	\$ 837.15
" Vine St. " "	\$ 445.00
" Miscellaneous Items as per itemized list attd.	\$ 1066.76
Total expenses for quarter	\$ 18486.83

You will notice that under the head of Circuit Court costs and judgments the expenses have been heavier than usual this is due to the fact, first that we have had two terms of the Circuit Court in the past quarter at both of which Jones a large number of cases were disposed of, 2nd Mr. Jones the outgoing Circuit Court Clerk in winding up his affairs brought in ^{all} the old bills that it was possible to get in proper shape to be paid and third the judgment of H. H. Slayton & Co. for \$947.80 was an unusual expense you will also observe that the expense for the Poor House and paupers had exceeded the income of this department, this is partly due to the fact that the Poor House and Hospital buildings have been moved to higher ground and a good well dug and other extraordinary expenses of a permanent character made I want to recommend in this connection that the system of pensioning paupers outside of the Poor House, which has grown to large proportion be abandoned and that all paupers who are proper subjects for County Charity be sent to the Poor House where the expense of maintaining them will be less per head and where they will receive such medical attendance as will relieve a no of many of them and lessen the expense of this department I am pleased to be able to call your attention to the

Quarterly County Court January Term 1887

fact which will be more fully shown in your Work-House report, that of the abandonment of the old system of pay to the Work House Superintendent so much per head for feeding prisoners has so far proved a decided success your work House Committee are now feeding the prisoners for less than half of the cost heretofore paid by the County to the Supt. of Work-House, but this department needs other reforms the work for the last quarter has been dragging along very slowly and while some allowance must be made for the very unfavorable season I am thoroughly convinced that at least one third more work could of been done if you had, had in charge of the work a good, practical Civil Engineer, a man whose education and training fits him to direct the building of your roads, Bridges, Culverts, and other work that comes under this department the present Supt. while he has endeavored to do his whole duty is in my opinion entirely unfit for the place, you would hardly employ a clever, well meaning black smith to attend to the legal business of the County neither will a clever merchant Lawyer or farmer make a good Work House Superintendent, give me a good, practical, Engineer to Superintend your Work House and it will at once, save a Hundred dollars per month in the salary account and in my opinion will get at least a third more work for the money you are spending with the assurance when the work is completed is properly done. Gentlemen, I urge this matter upon you strongly for the reason that in the ensuing year your income has been almost anticipated and spent, in other words for several years past we have been going steadily in debt and borrowing money from the banks on demand notes to Bridge over until a new Tax levy was available, this has continued until now when we find ourselves with about ~~over~~ \$18000.⁰⁰ after the entire Revenue will have been collected for this year to meet probable expenses of from Seventy Five to Eighty Thousand Dollars, Eighty Thousand won't go into Eighteen Thousand and the only way I can see out of this difficulty is to cut down our expenses, so that our income will

Quarterly County Court January Term 1887

meet our current expenses and lay up a small sinking fund, to pay off this debt. I trust you will help me in this matter, by giving me a proper sort of a Work House Superintendent for this is the channel through which most of the County Revenue goes, the Privilege Tax levied at the July Term 1886 fixed a privilege for the County upon litigation, as yet none of the Justices of this County have made their reports as required by law and I have been unable to see whether they report the collection of this tax or not but hope of the Justice whom I have had an opportunity to talk about the matter with seem to know nothing of the existence of the law, now it is my duty, to make the financial settlements for the County, and I will have to insist that every Justice file his report as soon after the adjournment of this Court as is possible and further to insist that they pay this tax whether they have collected it or not unless some relief is given them by this Court all of which is respectfully

 H. B. Heywood, Superintendent

To the Hon. the County Court of Hamilton County:

In submitting my fourth annual report, I note that the progress of the Schools has been in nearly all cases satisfactory. The recent standard of attendance has been maintained and the body of teachers has improved a few good teachers are lost annually but the vacancies have generally been filled with those who have proved to be equally well or better prepared for the work. Such system of grading as is applicable and useful in the district school has been introduced and where the machinery has existed for it good work has been done. The schools are now at a point in their history and progress where further advancement will be natural and easy and should be secured. In parting leave I express the hope that future success may be realized. The welfare of nearly seven thousand children appeals for it.

 Chattanooga April 4/1887
 To the Hon. County Court of Hamilton County, Tenn.

Quarterly County Court April Term 1887

Gentlemen;

Your Work House Committee beg leave to submit to your Honorable body their report for the quarter ending April 1st 1887. We took charge of the Workhouse on the 7 day of January 1887 and found it in bad working condition, without system, or discipline. The tools Wagons and materials in poor condition - without At the first Meeting of the Committee we contracted with P. W. Rawlston, to take charge of the Workhouse as Superintendent at a salary of one hundred dollars per month, and from that time to this the work has moved along smoothly, without any undue friction. There were 48 Prisoners in the workhouse, at January 7th 1887

Received during the Quarter 78
Discharged 53, escaped 7, died 1, leaving on hand at this date 74. We have had about 8 females on the average through this quarter, the total expense for the last quarter was in figures \$37 34⁵⁰ -

For a detail statement, we refer to the Record. For this expenditure, we can show that we have excavated, crushed and laid 5790 lineal feet of M^cadam, on the Mountain road as against 400 lineal feet of M^cadam laid for the last quarter being about fifteen times as much as was laid the last quarter. There has been 2020 cubic yards of earth excavated. 745 cubic yards of Rock, 225 yds Rip Rap, 35 yds Rubble. There masonry for culvert and 2250 lineal feet of surface grading averaging 12 inches deep cut & fill 3/4 of this was Rock and 1/4 earth.

On the North side from the River to the top of the Stringers Ridge there has been done 1800 ft of ditching 1600 feet of Ballasting and 5000 feet of Graveling or about 1 1/4 mile of good road. This much has been accomplished in the three winter months and you all know what kind of weather we have had to contend with.

We think that twice as much has been accomplished than was done

Quarterly Court April Term 1887

the last Quarter. We would like to have this Honorable body as a whole, visit our Work House and see for themselves just what has been done.

There are 16 hands at work on the Bird Mill Road.

We would recommend that a separate department be established for our female prisoners as the Poor House Committee agree to take charge of them - if a suitable building is provided for them.

We would recommend that they be turned over to them.

Moved by J. E. Tyler Esq. seconded by A. C. Paylor that the Chair appoint a Committee of five, three of whom shall be members of this Court, and two citizens of the County at large to whom shall be referred the assessment for the year 1887, with power to correct errors and equalize same, and that said Committee shall be required to take the same oath as that taken by the assessor. The Judge of the County Court to be Chairman of said Committee and that the assessor of each district be requested to attend when his Book is under consideration. Motion carried a majority of the Justices being present and voting for the same.

On motion the following named parties were elected Notaries Publics for Hamilton County for the term prescribed by law. N. L. Shumate, T. B. Barnell, M. L. Chapman, Ismar, Noa, Thos. Cowark, Thos. Hill, Wm. Street, W. C. Sharon, R. N. Phillips, Wm. Rogers, J. H. M. Crath, R. H. Gates, A. R. M. Kinsey.

To the Honorable County Court, Chattanooga, Tenn. Feb. 23, 87
of Hamilton County
3 in Quarterly Session
April Term 1887.

Gentlemen - I respectfully submit this report covering all reports and settlements of all the Revenue officers of the County up to January 1st 1887. Myself and H. W. Dunsand examiners checked and approved the settlements of R. C. Mc Ree County Judge with A. Shelton Trustee for the years of 1874 and 1875 - said reports and settlements had been previously examined and approved by His Honor Hugh Whitesides County Judge and A. J. Sabogar Chairman Finance Committee.

We found said reports absolutely correct and every way entirely satisfactory. Myself and J. P. Williamson examined checked

Quarterly Court April Term 1887

and approved the reports and settlements of Sil Clark, County Court Clerk, and J. M. M. Cornell Clerk and Master for the two last quarters, of the year 1886 and found them correct and altogether satisfactory to us - myself and H. J. Seagle, examined checked and approved the final settlement and report of A. R. Jones Ex Circuit Court Clerk finding everything correct and satisfactory. The outgoing administration of R. D. M. Ree, County Judge and the incoming administration of Hugh Whiteside present County Judge necessarily delayed the examination of the October reports, and early in January I tried to get the regular Committee to meet and dispose of the business of 1886 but failing to get even a quorum, reported the facts to His Honor Hugh Whiteside County Judge who supplied a quorum early in Feb. by making temporary appointment but the session of the Circuit Court delayed a full and final examination on the report of Ex-Circuit Clerk Jones - His Honor can explain to your Honorable body all the causes of delay and assure you that no blame attaches to me on that account.

Respectfully J. W. Seigh, Chairman
Examining Committee.

Moved by F. E. Dyer seconded by Peter Bolton that the Sheriff uses his own discretion in allowing ^{Public} meetings to be held in the Court house, motion carried a majority of the Justices being present and voting for the same.

The "Committee on Assessments",
namely, Judge H. Whiteside, member ex-officio
A. J. Gahagan, A. C. Saylor, J. W. Seigh, J. J. Bennett,
and H. G. McLeod Jr, heretofore appointed
at the April Term 1887 of this Court by
authority granted Judge H. Whiteside, to name
the members of said Committee, which order
of Court is of record on Page 503, Quarterly
Court Record No. 2, appeared in open Court
and submitted their report, which is in the
words and figures following to wit:
To the County Court of Hamilton County Tennessee
Gentlemen:

The undersigned Committee ap-
pointed at the April Term of the Court for
the purpose of examining and equalizing
the Tax Assessment of Hamilton County for
the year 1887 submit the following report for
your consideration to wit:

We have carefully examined the valuation
placed by the assessor on every tract of land
town or City lot, located in the County. We have
used every reasonable means at our disposal
to arrive at a fair and equitable valuation
of each piece of taxable property in the County

Called Term Quarterly County Court May 16th 1887

for taxation, we have carefully compared the assessed valuation for the present year as returned by the assessors with like valuations for 1886, and have also taken into consideration local influences that have effected values in particular localities in the County and after nearly four weeks, careful and patient considerations of the matters before us we find that the valuation fixed by the assessors on the taxable property in the County for the year 1886, not including assessments by the State on the property of Rail Roads amounts approximately to \$8,800,000, and for the year 1887 to \$17,250,000, an increase of about \$8,450,000, being nearly double that of 1886, we further find that there is a considerable difference in the valuation fixed by the assessors on property of apparently the same value, but located in different sections of the County this is not caused by a disposition to tax one piece of property higher than an other piece of the same value but is the necessary consequence of a multitude of opinions each acting separately from the others and cannot result otherwise until the law in relation to assessments is changed.

The assessed valuation of property in the 1st 2^d 4th 7th 8th 11th 12th 15th & 16th districts is very little over that of 1886, the increase is principally in the 3rd 5th 6th 9th 14th City & 17th districts one cause is the great increase in the Country districts above named has been the cutting up of large bodies of land into town lots, necessitated by the location of several suburban towns near the City of Chattanooga. The time allotted your Committee since the completion of their work has been too short to permit us to make a detailed report of what we have done to the Court, a correct record however of all our actions have been kept on the district and ward assessment books to which reference is made for any particular information not embodied in this report.

Your Committee recognize the fact that in the administration of the financial affairs of the County that the same system of prudence and economy should be observed that insures success in the conduct of private business enterprises

Called Term Quarterly County Court May 16 1887

Having in view a fair and equitable adjustment of values so that all sections of the County will share alike and that our citizens may not have to pay more taxes than are necessary to meet the current expenses of the County and our fair share of state taxes we have made changes on the books of the assessors in the several districts of the County that will approximate as follows

1 st District	Raise	Reduce
2 "	1400. ⁷⁰⁰	
3 "	12000.	
4 "	4600.	
5 "	65000.	
6 "		64000.
7 "	5000.	
8 "	6000	
9 "	10000.	
11 "	600.	
12 "	500.	
15 "		300.
16 "	800.	
17 "	2100.	
14 1 st Ward		415000.
" 2 "		275000.
" 3 "		1275000.
" 4 "		90000.
" 5 "		25000.
	<u>108700.</u>	<u>2,144,300.</u>

Net Increase \$2,016,700.
 Owing to the fact that there has been during the past year an unusual large number of transfers of real estate it is quite probable that there are on the assessor's books a considerable number of double assessments and for the same reason there are no doubt a good many omissions that will have to be picked up by the Trustee, how these two discrepancies will adjust themselves your Committee cannot now form any correct estimate. We are of the opinion that if the Court should ratify our action the net valuation allowing liberally for all errors and omissions will exceed \$15,000,000. This added to the assessments on Rail Road will make the tax aggregate for the County \$17,000,000 - a 40th County tax on the above valuation added to

Called Term Quarterly County Court May 16' 1887

the income of the County from the County for the coming year and Circuit Court Clerk's office and other sources, will be ample to meet all legitimate demands of the County for the coming year

Your Committee recognizes the difficult task of doing absolute justice to every tax payer and while our intentions in every instance have been to treat all alike we have no doubt repeatedly erred in our conclusions but if we have made mistakes they have been for want of information that would justify us in forming different conclusions. We are satisfied that our labors have resulted in at least approximating justice, and submit the same with our recommendation that our action be adopted.

Respectfully submitted

To the Hon. County Court
Your Work House Committee submit
the following report for the quarter ending
July 1 1887

The total expenses of the first
quarter have been \$4514.27 We now have
in the Work House seventy three prisoners
& during the quarter have had an average
of about seventy prisoners.

With this force we have completed the
grading of the Bird's Hill road from the
top of Missionary Ridge to Bird's Hill &

County Court July Term 1887

have gravelled this road from the ridge to within about a mile of the mill, and have put in good open stone water ways from the top to the foot of the ridge on the eastern side. The larger part of the Work House force have been at work on the Forkout Valley road, & this road has been gravelled & macadamized to the eastern base of the mountain except about four hundred & fifty yards. This force has also made the heavy fill at the St. Elms Culvert on the eastern side of the mountain & on the Western side have completed the grading of the Valley road from Parker's station to Rowden's Spring. During the past quarter there has been five escapes. The general health of the prisoners has been good & they cost per yard head for feeding there has been about 15 1/3 cents per head per day. During the past quarter the crusher had to be entirely overhauled & for about forty five days we could do no work with it, the stock, tools, & machinery of the Work House department - are now in good condition.

dimensions as will meet the approval of the County Engineer and keep said bridge in repair, and at all times, safe, secure and of sufficient strength to permit safe passage over it of such weights movables as stone crushers, road rollers, and the like, so as to allow the convenient passage of vehicles and travellers, either on foot or on horse back. This privilege and grant shall continue so long only as said Ry. Co. shall be in operation as such; and

and wherever now, or hereafter, said Ry. Co. may cross, said road, or any other County road, said Ry. Co. shall keep the crossing or crossings, in good repair, and safe, so as not to, in any way, impede, or injure the public travel, and should said Ry. Co. at any time fail to comply with the foregoing, said County of Hamilton, may take any steps necessary to vacate the grants therein mentioned or any other steps deemed necessary.

This privilege and grant shall continue so long only as said Ry. Co. shall be in operation as such; and should it at any time, cease to use its franchise, or abandon operations, then this permission shall likewise determine, and said County of Hamilton may take such steps as may be necessary to restore to itself the right granted herein.

The petition of the City Water Co. of Hamilton Co. Term, asking permission to lay water pipes in and along certain county roads hereinafter named was on motion of Gallwood seconded by F. E. Zyles, granted a quorum being present and voting for the same, and said petition is restricted as follows: Provided the City Water Co. of Hamilton Co. Term, complies with the following requirements, permission is ^{hereby} given, by Hamilton County Term, to said Water Co. to dig and to lay main pipes in and along County roads hereinafter mentioned.

From the shaft on the side of Sookout Mt. on the old Federal road, down to the foot

Fin. Court.

To the H. County Court of Hamilton County Gentlemen!

The undersigned Committee on Finance to whom was referred the report of the County Trustee have examined said report particularly as to his application for release on account of errors, release-ments, insolvencies, &c on account of the tax levy for 1886. We find the same apparently correct, and recommend that on settlement for said tax levy for 1886 he be allowed credit for the following amounts

Errors

State Tax		\$ 602.24
County "		802.99
School "		401.49

Your Committee has tried faithfully to carry out the orders of this Court but has been deterred some what from doing so.

In locating the road through the sixth district we thought it not wise to move the force until we had obtained the entire right of way but after securing that and getting the Workhouse built we were enjoined by parties in the fourth district from moving the force. Claiming that the County had not finished the road according to contract. Steps were taken immediately to dissolve the injunction which was done and the

County Court October Term 1887

force removed to the Harrison road with the exception of 15 hands which were placed over the River.

Respectfully submitted

Chairman of WorkHouse Committee

Moved by A. J. Gahagan seconded by H. N. Willis that the report of the County engineer be received and spread of record a Quorum being present and voting for the same, and is as follows.

Chattanooga Term, Oct. 3rd 1887

Hon. Chmn. WorkHouse Committee and County Judge H. Whiteside,

Gentlemen,

I have the honor to make the following report of work done by the WorkHouse force during the past quarter.

Birds Mill road,

The work on this road consisted in widening the east and west crest of Mission Ridge graveling a portion of roadway between Birds Mill and the ridge and the construction & graveling of our mile of new road from Birds Mill road to the W. & A. RR. crossing. The actual work done, if constructed would be equivalent to constructing and graveling $2\frac{1}{4}$ miles of new road. This carries the work to the ridges beyond Chickamauga Creek, having $2\frac{1}{2}$ miles to be built which will not require more than forty (40) actual working days. The commendable action of citizens along this road in furnishing 100 days teaming or \$250. worth of assistance should not pass without recognition. This road is properly cross-drained and side ditched throughout & is a good 2" class road.

— Lookout Valley Road —

The work on this road consisted in placing macadam & gravel on $\frac{4}{5}$ of a mile, from the corporation line to foot of mountain; the construction of $2\frac{1}{4}$ miles earth road-bed from the Georgia State line towards Chattanooga thus connecting the grading, except a strip

County Court October Term 1867

which the A. & S. R.R. proposes to build, a new tile drain 2 feet in diameter was placed under Rowdens fill.

For the past (10) days a portion of the force has assisted in the construction of a masonry retaining wall at Jonas Bluff which will contain about 125 cu. yds. when completed, it being now three fourths completed. The work ordered to be done near the St. Elmo school house on the Foster road is completed.

— Recapitulation —

Total road bed graded during quarter	4 1/2 miles
" " " macadamized "	45 "
" " " Gravelled "	2 1/4 "
" Masonry constructed "	95 cu. yds.
" Tile drain laid "	30 feet

Very Respectfully

J. A. Gillespie
