Chattanooga Term, Oct, 4, 90  
To the Hon. County Court of Hamilton County  
Gentlemen

2  
County Court October Term 1890

The undersigned - The Bridge Commissioners - report for your information that the work on the Bridge is progressing very satisfactorily. All the piers are now finished, with the exception of "No. 2" and that is at this time at an elevation of about "70" feet, leaving practically "20" feet of masonry besides the coping and pedestals to go on this Pier. We expect this pier to be finished by the 15<sup>th</sup> of the present month. The iron work on spans 5'4" x 3' from the North side is all up and the trestle from Pier No. 3 to "No. 2" will be commenced this week.

We think if no accident occurs or no delay is caused by bad weather, that the bridge will be finished ready for occupation by the 20<sup>th</sup> of Dec. to the 1<sup>st</sup> of Jan. The floor is now being laid on that part of the Bridge where the iron work is up. The hand rails for the Bridge is on the ground and can be put up at almost any time.

The cost of the Bridge up to date has been as follows.

The Smith Bridge Co.	\$92115.94	
Nelly Smith & Co	81031.35	92115.94
Wages account	8504.66	81031.35
Expense account	1179.98	8504.66
Total	\$182831.93	11 -

There has been a balance of -15% held back on the estimates paid the Smith Bridge Co. and Nelly Smith & Co. according to terms of contract Nelly Smith & Co will have their work all done during the present month and upon the recommendation of the Chief Engineer and Resident Engineer, we will pay the balance due them, and will pursue the same course with the Smith Bridge Co, when their work is completed, unless otherwise ordered by the Court.

Engt's Report  
Bridge

Chattanooga Oct. 3, 1890

To the Bridge Commission, Hamilton County  
Gentlemen,

Below please find report of progress of work on Walnut St Bridge to date.

The masonry is all finished with the exception of the coping on Pier No. 1 and Pier No. 2 which is now at elevation 70 with 24 feet yet to be built.

This should be done with ease in ten (10) working days.

The viaduct and three spans are entirely erected, leaving 3 spans yet to be put up. One of these is 320 feet and the other two 210 ft. each. These spans can be erected in 30 days, so that in 40 days from this time the work should all be erected, leaving only the floor and car tracks to be put on after that time, so I think it safe to say that the Bridge can be opened to travel by Jan'y. 1, 1891. Herewith please find progress profile and photographs which will show plainly the condition of the work.

Respectfully

J. A. Fairleigh

Report on Ext. Improvements, extensions  
of the Court House

Chattanooga Term, Oct. 4/90

To the Hon. County Court of Hamilton County  
Gentlemen,

Your Court, having in charge the improvements and extensions on the Court House report, that work has commenced under contract awarded at the July Term to D. J. Chandler and has progressed as rapidly as circumstances would permit.

The Contractor has been delayed to some extent by the large amount of wet weather since beginning the work and has also been forced to suspend work a few

## County Court October Term 1890

days on account of the last session of the Circuit Court as the noise of the workmen interfered with the Court to that extent, that it was necessary to delay the work a little. But in this connection we desire to acknowledge the courtesy of Judge Moon in vacating the circuit Court room a few days in order that the work might not be retarded any more than possible.

At the July Term the Court authorized the Judge and Sheriff to secure other quarters for the County officers and rooms in which to hold the sessions of the Courts if found necessary during the progress of the improvements now being made.

Your Court House Committee in looking the matter over unanimously agreed that if we could keep the Court and all the County officers in the building, it would be economical and in the interest of the Public welfare to do so. With this in view we made contract with Mr. Chandler the contractor to temporarily close all openings with ceiled Partitions so as to enable the County officers to remain in their respective offices.

This will cost the County \$675.<sup>00</sup> Six Hundred and Seventy five dollars, but will be far less expensive than the cost of moving, not to say anything in regard to the inconvenience of finding other temporary quarters.

The Court may rest assured that the work will be prosecuted as rapidly as possible and in the absence of further instructions on the part of the Court, your Committee will go ahead and carry out the changes first contemplated as directed at the July Term of the Court all of which we respectfully submit for your information

Finance Court rept. on Judge's Rept.

The Finance Court reported on Po. Judge Whiteside's Quar. Report as follows  
to the Hon. County Court.

Your finance Court have examined the report of the Po. Judge as well as we could within the limited time in which we have had to investigate the same and we find nothing in the report except what appears to be legitimate Po. charges and the warrants issued are based on authority either given by the general law or County Court. In such matters

County Court October Term 1890

as Circuit Court expenses, your finance Court can not well pass upon the legality and liability of the County to pay the same but infer that your Co. Judge has scrutinized all this class of bills and before issuing warrants for same has been satisfied that they were correct charges against the County.

The report of miscellaneous expenses is itemized and we think in every instance the Court has fully authorized the Co. Judge to make the payments as reported we therefore recommend that his action be ratified and his report be made a matter of record, as a part of the proceedings of this term of Court.

Very Respectfully

Report of jury of view  
light mill to  
James Co. line

An motion of J. Ellis 2<sup>nd</sup> by W. H. Shelton the following Report of jury of view on road from near Lightfoots Mill to James County line was adopted, a quorum of the Justice being present and voting for the same, said Report is as follows.

We the undersigned a Committee appointed by the Hamilton County Court to view a route for a public road from near Lightfoots Mill by way of Tynes to James Co. line after having personally gone over and viewed several proposed routes, by leave to submit the following as the one most practical considering distance, grade and cost of building, Starting at a point on the East side of Chickamauga Creek, near Lightfoots Mill, and opposite the road surveyed from Sherman Knights to same point running from thence S. E. crossing the E. & W. R.R. about eight rods East of present Mill road crossing thence through the farm of W. Lightfoot at a distance of 20 or 25 rods South of said R.R. thence East through the Barwood & Hancock farms, at about the same distance from R.R. track, to S. W. Corner of O. N. Gibbons lot, thence through the Platted lands of Allen Curtis & Co running parallel with R.R. until it intersects 2<sup>nd</sup> street of said Cos Platt, thence South of East along said street to their East line, thence East across N. W. Cor of the Willingham farm, crossing to N. side of aforesaid R.R. near the Stone Quarry and running through the lands of L. S. Peak to a point just north of the old Johnson house, crossing the ridge on W. A. Woolsons farm at the lowest point, thence north of East along the face of the ridge through D. J. Ellis' land to the line of John Hancock and Ellis thence along said line to W. H. Vannell's lots thence with the line dividing the lots on N. side of R.R. owned by Vannell, Ellis and others to the original Cleveland and Chattahoochee road, and thence with said road to the James Co. line, at or near W. H. Beutons.

This Committee further recommends that in the event the Sherman Knights road approaches the creek below the Mill at the old bridge site on the Mathis place, said road shall follow the route viewed by us and known as the Mathis, Hilliard and Caswood route intersecting the original Cleveland & Chattahoochee road at N. W. Cor of J. A. Eastwoods farm

Report of Supt of Schools

County Superintendent submitted his report and on motion was received and ordered to be made a matter of record a quorum of the Justices being present and voting for the same said report is as follows

To the Hon. County Court

Gentlemen, Since my last report which was sent from Memphis and presented by Esq. Gehagan. It has been our privilege to attend one of the most interesting and profitable sessions of the State Teachers' Association ever held, and through the Co-operation of friends we induced that body to hold its next meeting on Lookout Mountain with a view of locating permanently there if suitable arrangements can be made. This is the most important educational organization in the State and would be a great stimulus to the County Schools if its annual meetings were held here, where our teachers could year after year, come in contact with the leading educators of the State. We also attended the meeting of the National Education Association held at St. Paul Minn July 8-11 where we gained many new ideas pertaining to our work which will aid us in superintending the Schools still more successfully than we have been able to do in the past.

The County Schools are all in session with a larger enrollment than ever before, and the monthly reports from the various teachers show that the average daily attendance has so far exceeded that of any previous year. During the quarter six schools have been supplied with improved desks, and we hope soon to see the few still without these improved facilities fully supplied, on account of inclement weather we are a little behind with our visitation of schools, but hope to complete the first round in a few weeks.

On the 23<sup>rd</sup> of August a joint session of Teachers and School directors was held at the Court House and some important business transacted, It was unanimously agreed that a County School expansion be held at the Court House in December. This will bring together for comparison the methods

# County Court October Term 1890

and actual class work of all the schools and will be a great stimulus both to teacher and pupils in becoming more systematic and thorough in their work

We desire to extend a most cordial invitation to the members of the Honorable County Court to visit the exposition and inspect the work. Our Teachers are not afraid to show what they are doing, and how they do it

The Scholastic population of the County is 16,591, an increase of 1480 over last year

Respectfully Submitted

being paupers their bodies were buried by the County  
The latter had a Bank Book containing a credit of  
two dollars which in due time will be placed in the  
hands of the proper official, The forces of Dory Ruth  
was placed in suitable vault and buried in Lookout  
Mtn. That of Martha Allen was buried by Supt. Poir  
of the Hospital, the remaining bodies were delivered  
either to relatives or the different undertakers who  
had them in charge for burial. On the 17<sup>th</sup> of February  
this year a post mortem examination was made on  
the body of James Skeles at Daisy by Drs. Ruffaker

Report of Work House  
Committee

The Work House Committee made their report and  
on motion of Allen Parker 2<sup>nd</sup> by Millsaps was received &  
ordered to be made a matter of record, and is as follows  
To the Hon Hugh Whiteside, Judge and the Justices  
Composing the County Court of Hamilton Co Tenn  
Gentlemen

The undersigned members  
composing the Work House Committee of the County take  
pleasure in submitting to you their report for the 3<sup>rd</sup> quarter  
of this year

In accordance with your orders, the forces of your Work  
House have been distributed and employed in 5 different  
squad; and considering the inclemency of the weather  
and great obstructions by repetition of time, and other causes  
have done a large amount of work. -

On the Morrison road a large culvert has been comple-  
ted by contract, and the old culvert near Citee is now  
being extended on the N. E. side by which means that  
the road bed at this place will be widened and straightened  
On Whiteside's extension a large arch culvert has been  
built and paid for, out of the funds placed at our  
disposal, and the force has been and is now engaged  
on the fill covering the same. - This force has also  
been used, to drain a large pond near Long Street  
which was endangering the health of the people living  
near; by which means threatened damage suits against  
the County were prevented. - A similar work had to  
be done near Citee on the Morrison road by which a

County Court Oct Term 1890

large and ill-smelling pond was drained, which work also was done by the St Elmo force. The Road Quarter force was put on the work of widening the shallow ford road, along the right of way leased to the County by J W Pickett as ordered by your honorable Court, but has not been fully finished according to the profiles of the County Engineer. The new Rock Crusher ordered by your Court has been received and placed near the Rock cut on Dosa avenue, but there is need of a shed to be built for the protection of this valuable machinery from the weather. The old crusher has not been turned over to the Company furnishing the new machine, because a better price can in all probability be obtained from other parties than that Company.

The gross cost of our operations during the last quarter has been \$8148.25 from which should be deducted the sum of \$1875.<sup>00</sup> which represents money recovered for fines, tools bought and one Culvert constructed by contract and paid for out of the Work House funds, and supplies left on hand; so that the net cost of the Work House for the quarter just closed will look up to the sum of \$6272.<sup>50</sup>. There have been great pains taken to lessen the expenses, by suspending guards when possible, and buying all supplies at the lowest prices possible for the particulars of all of which we respectfully refer to the report of the Superintendent and Engineer herewith submitted.

Very Respectfully

 Lupt W. H. report Report of Superintendent Work House

To

Hon Hugh Whiteside Judge & Justices of Hamilton  
 County Tenn  
 Gunttman

Here with please find my report of the  
 Hamilton County Work House, for the quarter ending Sept 30<sup>th</sup>  
 1890. The branches are located and working the same as at  
 the end of last quarter.

No 1<sup>st</sup> or Headquarters Branch is located on Dods Ave near  
 Mission Ridge Ballfield Station on the Belt Railway, there  
 is employed at this branch are Superintendent and Foreman  
 one Hiard, one Machinist, one Blacksmith, one Watchman  
 one Cook and an average of 22 men

Work done - Shallowford Road, grubbed & cleared Right of way

Ford road and the other half on Dodde ave in this quarter, We have received at this branch one new No 4 Rock Crusher which has been placed on its foundation, But the Engine will not turn it with the other attachments, Elevator and Screener the Capacity of the Engine is 25 Horse power

" " " " Rock Crusher 30 to 35 " "

Branch No 2<sup>d</sup> is located at Sh Elms has employed one Foreman, one Guard, one watchman, one Cook and an average of 12 prisoners, This force has done good work and paid their expenses

I was ordered by the Committee and the Justices in that District (17) to abate a nuisance near the city it was draining a large Pond, the cause of this Pond was the crushing of the tiling across Long street near Chattanooga Creek and closing the water way, Now the doing of this work was a big job. not in cubic yards but the intricacies of the work, It was cutting into a fill 20 feet high taking out the old tiling and putting new, which was done at a cost of \$485<sup>00</sup> including tiling.

This force also drained Citico Lake cutting a ditch 350 lineal ft. two feet deep also putting in 34 feet tiling, Now this force is at work on the fill extension of Whiteside street, at this place I am using wheel scrapers, loading waggons with scrapers, now the old way, working with picks & shovels is fast contractors are using improved Machinery this County is just as able to purchase such instruments as a poor Contractor, Six or eight waggons and a saving of 8 or 10 men per day, I also have an appliance for loading waggons with scrapers and this is a saving of 10 men in running 8 or 10 waggons, Now I have this thing in operation to day and I invite any member of the Court to go to the work at Sh Elms and inspect it I have built on the extension of Whiteside street one arch culvert 6' x 60' feet at the cost of \$583<sup>46</sup>. Now this culvert is the same size of the one on Citico Creek and that cost over \$1200 the earth moved to extension of Whiteside st 2400 cubic yds

Branch No 3<sup>d</sup> situated on the Washington road, There is employed at this branch one Foreman, two Guards one watchman, one Cook and when the force is gravelling there has been one Teamster and an average of 25 prisoners Work done by this force

The work done at this branch is hard to estimate, the earth moved on Frazier ave is hard pan and gravel, while that on Forest ave is between hard pan and rock or nearly rock. This force has completed the approaches east & west to the Bridge except graveling.

Now we have had 13 rainy days in this quarter that is 1/6 of the working days in the quarter, which wastes quite a lot in our work.

## Escaped Prisoners

During this quarter I have lost eleven prisoners all trucks, now under the present system we are compelled to cut the chains off the men virtually turning them loose to drive the teams and they escape. Now I have took the trouble to get some figures on this matter, I have gone back over the Records one year, in that time there has been employed three different Superintendents at the Work House, I have made an estimate of the No escapes and time lost to the County in \$ cents it is \$2080. Now I recommend the employment of drivers, you can get men at 50¢ per day, and not have any trusts, there would be money saved.

Recapitulation of work done in 3 <sup>rd</sup> Qr

Now in last quarter I run my work into dollars and cents showing after carefully estimating its value and you can see too in this quarter that the work house run in a business way is self sustaining

mine. Court's report on Trustees report.

The Finance Committee Reported upon the settlement of to the Peabody Trustee on tax levy for 1889 and in motion of Mr Converse 2<sup>nd</sup> by C B Chapman was adopted and ordered to be made a matter of record, a quorum of the Justices being present and voting for the same, said report is as follows to wit

Chattanooga Tenn Oct 4/90

To the Hon County Court of Hamilton County  
Gentlemen:-

The undersigned Committee on Finance have examined the reports of to the Peabody Trustee for final settlement on tax levy for 1889 and collections from other sources from September 1<sup>st</sup> 1889 to August 31<sup>st</sup> 1890 and find same correct as shown by the books in his Office all items of receipts and disbursements having been

separately checked off by us, we so need the  
 said auditor or account and made a matter of record as  
 a part of the proceedings. The board of the Court  
 and that all balances shown to the credit of any of the  
 several funds of the County, be charged to said Gebody  
 on 1890 account as follows:-

County Fund,	\$19,463.99
Trust Fund & not acc'd	\$ 5,265.27
Schools Fund,	\$37,916.37
Public Roads,	\$ 3,615.23
Making a total on hand for all purposes	\$66,260.86

and that said Gebody and his bondsmen be released  
 from all liability on account of his services as Trustee  
 for Tax levy of 1889 and all other collections to August 31, 1890  
 Your Committee take pleasure in calling your attention  
 to the large amounts to the credit of the several funds of  
 the County, all of which shows an improvement in your  
 financial condition, and with means in hand to  
 continue improvements of Roads, Schools - Public  
 Buildings, but with the large number of appropriations  
 for various purposes already made, it  
 would not be wise policy on the part of the Court to  
 create any other large indebtedness for the year  
 as the Court House improvements will to a large  
 extent consume all the funds now in the hands for  
 County purposes, and require a large slice of the  
 levy for 1890, which is now being collected, this  
 expenditure was not contemplated when the 1890 levy  
 was made, consequently the proceeds of that levy  
 will not meet this expenditure unless the Court  
 should practice a system of the strictest economy  
 during the remainder of the year

The Tennessee River Bridge Commission  
unto whom was referred the petitions  
of the Chattanooga & North Side Street R. R. Co.  
and the North Chattanooga Street Car Co. to  
operate their cars across the Bridge over  
the Tennessee River with electricity  
as a motive power through their  
Chairman A. J. Gabagan Esq. reported as  
follows,

Chattanooga, Tennessee, October 27<sup>th</sup> 1890  
To the Hon. Judge <sup>and</sup> County Court of Hamilton Co. &

The undersigned Bridge Commission,  
to whom was referred the petition of the Chatta-  
nooga & North Side Street Railroad Company,  
and the North Chattanooga Street Car Company  
for permission to use electricity as a motive  
power, and operate their cars across the  
Bridge at Walnut St. by the means of electricity;  
beg leave to report, that it is our opinion, that,  
for the present, said petition should not be  
granted. We think that the bridge should  
be opened to, and used by the public, before  
we risk any experiments.

We recommend that said companies  
be restricted to use of horse or mule power  
for the present at least.

B. R. Thomas, F. B. Thomson Respectfully vs  
W. C. Javner W. Converse A. J. Gabagan

Special Session October 27<sup>th</sup> 1890

The petition of said companies are as follows to the worshipful County Court of the County of Hamilton State of Tennessee.

Your petitioners the Chattanooga North Side Street R. R. Co and the North Chattanooga Street Car Co respectfully ask your Hon. body for permission to operate their cars across the bridge over the Tennessee river with Electricity as a motive power, and for this purpose petitioners as permission to place necessary wires on and along said Bridge.

Petitioners ask leave to do this under and upon such conditions as to the running of said cars over said bridge and as to the regulations of the wires as your Hon. body may see fit to impose, said wires will be strung or placed on said bridge by these Companies under the direction of such experts as your Hon. body may see fit to employ at the expense of these Companies so that no danger whatever shall be incurred by the public in crossing said bridge, Electricity is fast becoming the exclusive power for the operation of all street car lines and is destined at an early day to succeed and supplant all other motive power; that it is perfectly safe to operate street cars with electricity across bridges has already been demonstrated not only by the testimony of numerous experts but by the actual operation of electric lines over many bridges in this Country, One is now being in actual operation in the City of Nashville for some time, and no objection at all is found to it.

Petitioners apply for this permission at this term of the Court because they are anxious to have their lines opened and in operation simultaneously with the opening of the Bridge for public traffic, and desire now to have the action of the Court on this matter in order that they may make their contracts for the Electric power to be used, and have the same in operation by the time said bridge is completed; petitioners therefore request action on this application at the present time of the Court.

To the Hon County Court of Hamilton County  
with respect to the report and

Obeman  
of County  
Attorneys

Special session of County Court Oct 27, 1890

recommendations of the Bridge Commission with reference to the use of the Bridge and tracks by street car companies we beg to say that we have not sought to interfere with the Commission, or to shake its policy as to what it would or would not do and recommend as to the use of the bridge

As to the recommendation against the use of electricity as a motive power, we understand that the street car companies claim that, under their charter, they have the right to use this power, across the bridge whether this court grants or with-holds its permission as to the report recommending a charge of \$1000<sup>00</sup> per annum, for the use of the bridge &c, and in consideration of the grants bestowed, we understand that the companies claim that the County has no legal right to make any charge; and has no legal jurisdiction over the matter and to sustain them in this view, they rely upon certain action had heretofore, between the County and a company known as the Chattanooga Bridge Company; and also upon an act of Congress passed for the benefit of this Chattanooga Bridge Company they claim as we understand, that the Bridge is as free, legally to them, as to foot passengers, for instance without going into detail as to these several claims we are of opinion that the matters involved in the reports of the Commission, are purely local and not national in their character and nature; and whether the Bridge is being built by virtue of this act of Congress and the arrangement between this Chattanooga Bridge Company and the County, or whether it is being built by virtue, alone, of the State Legislature, is not important now

We have given these respective claims such attention and consideration as the time and opportunity have afforded, and without giving an argument in sustenance of our opinion, we beg to say, as a conclusion of our opinion, that while the questions are not all easy of solution, yet the weight and inclination of our mind is against the positions taken by the street car companies; and we recommend that you adopt the report as presented

While it is a fact, that the Tennessee River is a national highway of commerce, and recognized as such by the Federal Government; yet we are of opinion, that if your action in noway interferes with, or obstructs navigation of that river but simply

Special Session Circuit Court Oct 27 1890

seeks to regulate and control the use of the bridge, that, in such event, Congress or the Government has no jurisdiction over the matter

As before stated, we are of opinion that the questions are local, and that you have the right to regulate them in your sound discretion. Of course, we cannot foresee the results of litigation, or fore shadow what the future may develop; but our inclination is, that, as between the Federal and State Governments the local power of the State is superior. Outside of any legal rights which you may have, we think it highly important that you should exercise and maintain, if you can, the charge control and management of this bridge, and its use and character of use; and to do so, it is highly necessary that you protect yourselves and public by the passage of needful and reasonable conditions and provisions with respect to its use

Yours very truly

To The Hon. Judge and  
County Court of Hamilton Co

We, the undersigned Bridge Commissioners, beg to submit herewith, a resolution and order, which we recommend for passage by your body. In it, we have attempted, and it has been our desire, to protect the public and County, and, at the same time, to treat fairly the interests of the Street car companies. It is our opinion that the paper herewith submitted, does both

Respectfully

} Bridge Commissioners

Whereas, at the January Term 1890 of the Quarterly Court, various orders were made and placed on record, prescribing the terms, conditions &c by and under which Street Railroads Companies should cross the Bridge over the Tennessee River at Chattanooga at the foot of Walnut Street, and whereas Section 1<sup>st</sup> of the report of the Committee and order of the Court is as follows,

1<sup>st</sup> That the Bridge Commissioners be and they are hereby instructed to cause to be laid on the County Bridge across

Special Session of County Court Oct 27<sup>th</sup> 1890

the river at Walnut street, double tracks for street cars with such rails as are of the best approved pattern and whereas, sections 2<sup>nd</sup> and 3<sup>rd</sup> are as follows:-

2<sup>nd</sup> That each and every street railroad Company, or Company, individuals or firms operating cars on said bridge, shall pay to Hamilton County, the sum of Three thousand (\$3000<sup>00</sup>) Dollars per annum for the term of five (5) years from this date, payable annually in advance, and at the end of said term of five years said Company, Companies, individuals or firms shall pay such sum per annum as may be fixed by the County Court of Hamilton County, and the Company, Companies, individuals or firms first using said track as a part of its or their lines, shall before entering upon said track, pay to the trustee of Hamilton County the amount such track have cost with interest.

3<sup>rd</sup> That any other Company, Companies, individuals or firms wishing to use said track, shall have the right to do so, but shall pay to the operating Company, Company, individuals, or firms the proper proportion of cost with interest, which proportion shall be fixed by the number of Companies operating and proposing to operate on said track, and the said Company, Companies, individuals, or firms shall keep in repair, at its or their own expense the floor and joint on the roadway of said bridge.

And whereas, we deem the provisions of said sections 2<sup>nd</sup> and 3<sup>rd</sup>, not to the best interests of either the public or the County, or street car Companies; and whereas said bridge is not yet complete, and there has as yet been no use of the same by any Company, and no acceptance of the provisions of said sections by any Company; and, therefore, no rights have become vested, Therefore

It is ordered that said sections 2<sup>nd</sup> and 3<sup>rd</sup> heretofore set out be, and they are hereby repealed and annulled and in lieu of said sections, It is ordered that each and every street railroad Company, Companies, individuals or firms, operating cars on said Bridge shall pay to Hamilton County the sum of One thousand (\$1000<sup>00</sup>) Dollars per annum, for the term of five (5) years from the date of occupation, said sum to be payable quarterly in advance, and at the end of said term of five (5) years said Company, Companies, individuals or firms, shall pay such sum per annum as may then be fixed by the County Court of Hamilton County, all

Special Session County Court Oct 27<sup>th</sup> 1893

for and in consideration of the privileges of occupying and crossing said bridge and using said tracks, erected and owned by the County; and in consideration of what hereinafter appears on behalf of the County

And further, for the same consideration, said Company, Companies, individuals, or firms shall be exclusively liable and not the County for all accidents or damages caused by the occupation or use of said bridge or tracks, for such street car bermbases. Be it further ordered, that the ownership of said tracks shall be in the County, and that any occupation or use of said tracks by any street car Company, shall be only as a rental and no further, and said use and occupation of the tracks and bridge may be terminated by the County, upon thirty (30) days written notice to said Company, Companies, individuals, or firms, when it is found to be, in the opinion of the Court, a detriment to the interests of the public, to public travel, or as endangering the lives or property of the public. And be it further ordered that no street car Company, individuals or firms, using or occupying said tracks and bridge for street car bermbases, shall be permitted to use said tracks or cross said Bridge with its or their cars by use or means of Electricity or steam or the car's own momentum by the force of attraction of gravity, unless hereafter specially permitted by the Court. It being the intention of this instrument to prohibit, for the present, at least, the use of any other motive power horse or mule power.

Should any street car company, wish to use electricity as a motive power, on its lines on both sides of said bridge it may be allowed to cross said bridge with its "feed" wire but no further, and upon the conditions appearing in this paper, and further, that it will have such "feed" wire thoroughly insulated, with K.K. or Okeite insulation, and will place, maintain and protect it with all the care and caution known to the present state of the art, and also subject to the superintendence of the County Engineer.

The meaning of this paper, in its entirety is, that the County will build and maintain, at its own cost said bridge and tracks, and floor of said Bridge and tracks and street car companies may use the same, upon condition

- 1<sup>st</sup> That each Company pays to the County \$1000<sup>00</sup> per annum
- 2<sup>nd</sup> That electricity shall not be used, for the present, as a motive power, in the use of said bridge tracks
- 3<sup>rd</sup> That each Company using said bridge or track, shall not use a greater speed thereon than four miles per hour and the animals used as a motive power shall not go out of a walk, and every means possible, such as

Special Session County Court Oct 27<sup>th</sup> 1890

stopping, lessening speed &c shall be used, in order in any way or degree to avoid and prevent accidents or injury to persons or property

4<sup>th</sup> All accidents or injuries occasioned by the use of said bridge or tracks by Street Car Companies, shall be paid for by such Companies, causing the same

5<sup>th</sup> Any damage or injury to the bridge or tracks, by reason of its or their use by street car Companies, except ordinary wear and tear shall be paid for by the Company or Companies causing the same

6<sup>th</sup> That each Company using said bridge and tracks shall keep, maintain and make at all times, the space between its rails, and to the distance of one foot on each outer side of said rail, in the same, and as good condition and repair as the highway now are, or may be hereafter made, kept and maintained on or long which it may have now or may hereafter at any time, lay tracks--and this means wherever in the County said Companies may have already laid tracks, or wherever they may hereafter do so

All of the foregoing provisions, conditions, stipulations and restrictions as to street car Companies crossing the bridge and using the tracks of the County, laid on said bridge, are substantiated by the consideration of the rights and privileges granted to such Companies with respect to the permission to cross and use the same; and further that the County lays and maintains without expense to street car Companies, double tracks and roadway for the same, the entire length of said bridge

Be it further ordered, that any street car Company which enters upon said bridge or tracks, for purposes of operations in its line of business shall be construed as having accepted the terms and conditions of this order; but such entry or use shall not be allowed and is prohibited until after the said Company or Companies, shall have filed with the County Judge a written acceptance of this action of the Court the right to modify, amend or repeal this action or order is hereby expressly reserved to the County, The grant herein conferred, and restrictions imposed are to the Street Car Co., and their assigns and successors and are to bear binding upon and as the other

Moved by Gehagan 2<sup>nd</sup> by H H Lee that the foregoing Petition of Street Rail Roads, The Opinion of the

Special Session of County Court Oct 27<sup>th</sup> 1890

County Attorney and the Report of the Bridge Commission together with their recommendations be received and that the opinion of attys and recommendations of the Commissioners be adopted and made a matter of record. Motion carried a quorum of the justices being present and voting for the same

The Committee appointed on the matter of Index for the Registers Office appeared in open Court and reported and on motion of J D Beaulieu 2<sup>nd</sup> by H B Lee was received and adopted and ordered to be spread on record, motion carried a quorum of the justices present and voting for the same, said report is in the words and figures following to wit

To the Honorable County Court of Hamilton County

Your Committee appointed at the last term, to take into consideration the question of indexing the County records, beg leave to report

- 1<sup>st</sup> they find that the second, third and fourth volumes of the Office have now the indexes provided by law.
- 2<sup>nd</sup> That the index of the first volume is irregular, except in Books E-N-O-N. We recommend: - 1<sup>st</sup> That the remaining books in the first volume be corrected and properly indexed
- 2<sup>nd</sup> - That a book for each volume of the Office be obtained to be known as the General Index of Volume --- in which the index of each volume, as they now are and corrected as above, shall be copied in alphabetical order, so that all the "A" in the Volume will appear under the letter -A- in the general index and in like manner to the end of the alphabet in each volume
- 3<sup>rd</sup> That said general index shall be ruled and printed throughout as follows -- see exhibit attached

Exhibit

Page	Grantor	Grantee	Page	Grantee	Grantor

- 4<sup>th</sup> That as said work will approximately cost from \$900<sup>00</sup> to \$1000<sup>00</sup> we recommend that the sum of \$1000<sup>00</sup> or so much thereof as may be necessary, be appropriated to pay for same
- 5<sup>th</sup> That the Register be authorized to employ such assistance as may be necessary to have said work properly done the correctness of which shall be certified to by said

Special Session County Court Oct 27 1890

Register and the County Judge be authorized to draw the warrant of the County to pay such assessments as the same may be certified to by the Register at the end of each month

That for keeping up said General Index in the future the Register be allowed \$5<sup>00</sup> Dollars for Record Book

We make these recommendations in view of the fact that the indexes we recommend will save the record Books from very great wear from the constant handling they are subjected to as they are now indexed

Bridge Commissioners

The Bridge Commissioners submitted their report, and on motion of Esq. Gahagan & Co by Esq. Henderson was read and ordered to be made a matter of record and is as follows

Chattanooga  
 Tennessee  
 January 3/1891

To the Hon bounty Court.

Gentlemen

The undersigned, the bridge Commission report as follows. That the work on the bridge has been nearly <sup>Completed</sup> but the date of opening has been delayed by reason of the failure to arrive of a portion of the cross-tied lumber. This has in a measure delayed the progress of the work. The painting however of the iron work is going forward and will be finished by the time the other work is done. The delay above referred to is the result of no fault whatever on the part of the Representatives of the County. It is simply one of those unfortunate things that occurs occasionally in filling large orders. And the fault certainly rests either on the Contractors or Mills who were to furnish the lumber. The payments made up to the 1st of Jan. on account of the work has been as follows.

January Term 1891

Bridge  
Com.  
Report.

Neely Smith & Co For Stone work	\$ 95944.50
Smith Bridge, Co " Iron "	109379.75
W. G. Ferris & Co	1078.67
Wages account.	10053.66
Expense "	1280.78
McCaughey & Morse	6449.44
making a total of	<u>\$ 2274188.80</u>

The amount paid to McCaughey & Morse is on account of costs of putting down Street Rail Road track. This is an extra expense that was ordered by the Court and not originally contemplated in the first order of the Court. And the funds for this work have never been provided by the County.

The receipts for bridge purposes to date has been as follows

Proceeds for sale of Bonds	\$ 208697.00
Donations from Citizens	\$ 25000.00
making a Total when all of the donation notes have been paid of	<u>\$ 233697.00</u>

One fourth of the donation notes will not be due until after the completion of the bridge. But as we have reason to believe they will be paid quite promptly. We anticipate no trouble on this account. If the balance of these notes are paid promptly as we have reason to believe they will be. The proceeds of same and from the sale of bonds will meet the original cost of bridge and all expenses outside of cost of Street Rail Road track. And we believe will have a small balance to be returned to the County. This of course we can only estimate now by approximation. We have assurance from the bridge Contractors that the balance of the lumber will arrive during the next two weeks when it comes the work can be pushed to completion with very little delay. And we certainly hope to announce the date of opening not later than the 10th of Feb'y. And we assure the Court and the Citizens of the County that there shall be no delay longer than it is possible to complete the work and to provide for the payment of the cost of Street Car Track. And recommends that the Court

January Term 1891

make an appropriation for that purpose. There will be a certain amount of care necessary in regulating the travel over the bridge, at least until the public become accustomed to the requirements and regulations heretofore ordered by the Court. We therefore recommend that as the Commission have given this matter their care and attention from the inception of the work up to the present time that the matter of appointing watchman and fixing their duties regulating their pay &c. be left at least for the present with the Commission. In the absence of such authority no one will be particularly responsible for the care and management of the bridge, and we believe such an action on the part of the Court will insure the regulations of travel &c. in a better way than it can be done under any other instructions by the Court.

Resolutions

To the County Court of Hamilton County Tennessee  
Gentleman

Your Committee to prepare and present resolutions of respect to the memory of our former associates Ad Stone and A Kirklin. Submit the following

In the death of Esq. Stone & Kirklin two kind hearted and worthy and honored Citizens have been called from earthly labors and associations to that great unknown where they rest with the countless millions who have gone before them. in response to the irrevocable mandates of the Almighty Creator. In the death of these two men we are again reminded of the rapid disappearance from the ranks of our Community of the former Settlers of this Country each of these Old Honored and respected Citizens having lived in this vicinity through nearly all their long and useful lives and have been fitting representations of the generations that is rapidly passing away. who in their earlier days had to confront and battle with hardships and toil incident to the first settlement of this Country which we of latter years have but little conception each of them leave behind a large circle of warm friends and relatives none of whom can speak of them in any other way than in language of good will and respect. their lives were devoted to labors the fruits of which we now enjoy. We hold their names in recollections of friendship and Esteem. And tender to their respective families that sympathy that goes out from our hearts in consequence of their death

We also tender our associate H. J. Springfield Esq. our deepest sympathy in his sorrow that comes in consequence of the death of his aged and affectionate Mother. a pure true and good woman one in whose heart was treasured the noblest and best traits of human nature. As a Mother and Grand Mother she was all that honored distinction implies her life was one characterized by acts of unselfish kindness. To help others and bring them happiness was one of her many commendable traits. Her numerous surviving friends and relations will long keep her in fond and loving remembrance

January Term 1891

She died ripe in years and was an illustrious example of that noble womanhood who shared in the hardships that fell to the lot of those who helped to lay the foundation of that exalted civilization that has been handed down to us by the settlers of earlier days therefore resolved by this Court that this tribute to each of those above named be ordered of record by this Court with that impulse of our better natures that go out in sympathy for those upon whose sorrow has come. We tender our aged and honored associate B R Thomas Esq our sympathies in consequence of the death of his Daughter who was so suddenly called from earth by the grim hands of death while he loses the pleasure of her association we unite with him in the hope and belief that she now enjoys the rich reward that is promised little children by him who yielded his life on the Cross that they might enjoy and eternal hereafter

Following Resolution was offered by Esq. H. J. Springfield  
Whereas the boundary lines locating and establishing School districts No 20 situated in the first civil district in its present condition and arrangements leaves the first school district without a voting precinct. And whereas great inconvenience and confusion is produced in the election of school officers which results to the injury of the educational interests of the children and whereas under the provisions of the late double ballot box election law it is both expensive and troublesome to establish and maintain more than one voting precinct in a civil district

Therefore Resolved  
That said 20th School district be and <sup>the same is</sup> ~~is~~ hereby abolished and the former order passed by this Court establishing and increasing the territory of said School District be and the same is hereby repealed. And the boundary line of the first School District be the same as the first civil dist. and the School Board of Directors of the first Dist. are hereby directed to carry out all former contracts made with Teachers &c by the School Board of Directors of the said 20th School District

Be it further resolved that the voting precinct for the first civil district be moved from Daisy to Mrs Mary Millans Residence which shall hereafter be the voting precinct for the first civil district

Dec 1890.

To the Hon County Court, Hamilton Co Tennessee.  
We the undersigned Citizens of Hamilton County Tennessee do hereby most respectfully petition your Hon Body to change the public Road leading from the Gap in Springers Ridge opposite the Hughes Lumber Co Mill to Browns Ferry. It now runs diagonally across the River bottom and we desire it changed so as to run from said Gap in said Ridge south with the Moccasin Bend Road till it reaches a point almost directly opposite Browns Ferry Ldg. and thence westwardly almost in a direct line to Browns Ferry Landing. so as the approach to the River of Landing will be about the same as it has formerly been, and that the Currier on the Moccasin Bend Road and his hands belonging to said Road be required to work said Road from Browns Ferry to where Browns Ferry Road intersects Bend Road - Let the Road as it now runs from Gap in Ridge to Browns Ferry be annulled and the Road established from said Gap to said Ferry as asked for above - Let the Road from where it intersects the Bend Road be fifty feet wide and thence extended of uniform width to the River at Browns Ferry Landing.

Finance Committee Report

The Finance Committee appeared in open Court and submitted their report and recommendations as to Tax levy for year 1891. And on motion of Esq Gohagan Ado. & Esq Henderson said report was received and adopted as the Tax levy for 1891 by the following rate. Esq. Rogers Hixson Jackson Thompson Cowart Parker Light<sup>son</sup> Geespie Converse. Bragg Taylor Johnson. Champion Millsaps Lewis Pinnell Dabbs Thomas Kirk Gray Bolton Tolman<sup>son</sup> McNeil Gahagan Lee Adams J. Guvnerier (Vaudent) Stone Gispantaw Walter Cullipia Conner Saddle Henderson Shellen Ellis Hope Nos: White & White etc. Said Tax levy is as follows. Chullanozagao<sup>Cent</sup>. Dec 31/90.

To the County Court of  
Hamilton County Tennessee  
Gentlemen

Your Finance Committee submit the following Tax levy for the year 1891. to be assessed on all property in the County subject to taxation for State and County purposes as follows

Finance Committee Report

State Tax	30.
County "	30
School "	15 For State
" "	10 " County
For County Hospital "	05 Special Tax
Interest and Sinking	05
Poor House and Paupers	03.
For Improvement of Court House	05 Special Tax
To building and Repairing Bridges	07
For Road Tax	10
Total.	<u>120</u>

Total ONE and 20/100 dollars on each ONE hundred dollars. It will be observed that the tax levy is 10% higher than has been levied since 1880. The necessity of this increase grows out of the fact that the cost of improvements on Court House, which you have deemed necessary to order, is a special demand upon your resources. To meet this heavy expense it will require a special levy of about fifteen cents, but your committee is of the opinion that with the surplus on hand at the beginning of the year.

## January Term

The special levy of five cents above recommended will be sufficient to meet this unexpected demands on the County. We base our estimate on assessed valuation of Twenty Five million dollars on Real Estate Personal property and Rail Roads which would yield for County purposes \$137500. Deduct say 7500 for errors omissions and cost of collection and it would leave a net income for County purposes from direct tax levy of say \$130000. In addition to the receipts from direct taxes, your Committee estimate the following receipts from other sources

From County Court Clerk	\$89000 <sup>00</sup>
" Circuit       "       "	4000 <sup>00</sup>
" Chancery     "       "	1500 <sup>00</sup>
" Workhouse Fines	2500 <sup>00</sup>
" J. P. Fines	2000 <sup>00</sup>
" All other Sources	1000 <sup>00</sup>
Making a total in addition to Tax levy of	50000 <sup>00</sup>

On a grand total for all County purposes outside of Schools of \$180000<sup>00</sup>

In making this estimate of the receipts your Committee has been liberal. Your income will fall short instead of exceeds this sum. The demands on your resources during 1891 will be about as follows.

For Workhouse Expenses	40000 <sup>00</sup>
" Poorhouse       "	10000 <sup>00</sup>
" Interest <sup>on</sup> Sinking funds	12000 <sup>00</sup>
" Building <sup>and</sup> Repairing Bridges	17000 <sup>00</sup>
" Improvements on Court House	35000 <sup>00</sup>
" Hospital Tax	2000 <sup>00</sup>
" County Court Expenses	12000 <sup>00</sup>
" Circuit       "       "	25000 <sup>00</sup>
" All other <sup>and</sup> Miscellaneous	14000 <sup>00</sup>
Making a grand total of Expenses of	175000 <sup>00</sup>

The County is always subject to expenses that cannot be estimated and in the item we have named for Miscellaneous expense, we have made our estimate as low as it is possible to do, and keep within the limits of what we regard as a fund basing the levy upon our estimate of Receipts and Expenses. You can readily see that there is no margin left for extravagant appropriations. We therefore recommend the adoption of the levy above indicated as well as the following Poll & Privilege Tax. On all Poles & Privileges subject to such tax for County purposes

Increase in Value in four years	26,280 <sup>00</sup>

It will be seen from the foregoing statement that the County Schools are in a flourishing condition and that considerable progress has been made during the year.

Four thousand dollars were expended in the erection of commodious school buildings and \$1,375<sup>00</sup> in furniture and apparatus (which has during the past four years fifteen commodious school buildings and \$1,326<sup>00</sup> in furniture and apparatus) which has greatly increased the facilities for efficient school work.

During the past four years fifteen commodious school buildings ranging in size from one to six rooms have been erected and thirty schools supplied with improved desks, thereby increasing the value of school property in the County 174 per cent. The scholastic population of the County has increased during the year 9 per cent. And in four years 42 per cent. While the enrollment and attendance have increased in like proportion. The course of study and system of graduation and the uniform series of text books adopted in 1888 together with the rigid examinations of teachers have been the direct means of raising the standards of education in the County at least 100 per cent. The exposition of County school work held at the Court House on the 19th of last December was far beyond the expectation of the most sanguine, and the results which will arise therefrom are incalculable. Actual class work map drawing compositions were displayed in abundance, and teachers had for the first time in life the opportunity of comparing their methods with those of their co-workers. This was the first exposition of Country school work ever held in the State.

Report  
Workhouse  
Committee  
4th quarter 1890

To The Hon Hugh Whiteside Judge of the Justices Composing the County Court of Hamilton County Tennessee Gentlemen

The undersigned your workhouse Committee beg leave to submit to you the following report for the 4th quarter of 1890.

The forces of the County Workhouse have been employed in prosecuting the work on the various Roads near their various locations as ordered by your Hon Body during the last quarterly term of your Court, and all the additional work laid out for some of them by your order has been completed. to wit: The widening of the Bowling Springs Road by the St Elmo force. And the widening grading & graveling of the Shallawford Road. The Repairing of the Russell Turnpike. The grading and graveling of Willow St. and the grading and graveling of Cahos Crossing. by the Head Quarter force = The most remarkable features in the Management of the Workhouse during the last quarter has been: The large increase in the number of Prisoners. which from 74 at the beginning of the quarter had risen to 163 by Dec 31st 1890 =

2nd The large results in the amount of work accomplished, which has to be attributed, not only to the increase in numbers of the force but also, to its discipline the efficiency of the various foremen and an exceptionally favorable season

3rd The comparatively small cost of maintenance of the Prisoners considering their increased numbers which necessitated an increased number of guards (amounting to three additional men) and an extraordinary outlay for shoes bedding clothing &c to the amount of more than \$10000.00 all of which have been purchased during the last month of the quarter and is practically in tact on hand. The work accomplished during the quarter foots up in round numbers as follows.

The cost of carrying on the operations of the Workhouse during the last quarter of 1890 foots up nominally to the sum of \$13,008<sup>00</sup> but the sum of \$2,400<sup>00</sup> of this amount has been returned to the Treasury by Collections of fines & pecuniarily secured. Paid to Trustee Peabody to the amount of \$203<sup>00</sup> Total \$2700<sup>00</sup>  
To this amount should be added a credit of over \$1000<sup>00</sup> on account of a stock of feed provisions coal clothing shoes bedding tools &c just laid in during last month and almost wholly intact and on hand as heretofore stated deducting this sum of \$3700<sup>00</sup> from the nominal expense of \$4300<sup>00</sup> for the last quarter. And this sum includes an expenditure for the purchase of gravel & hire of teams for distributing the same over Dix and one half miles of Road bed of more than \$4100<sup>00</sup> so that deducting this sum from \$4300<sup>00</sup> the cost of feed food & clothing salaries &c appears to have been about \$5200<sup>00</sup> which is 20c per mule per day and 13c per man per day. This extraordinarily large expense for hired teams arises from the necessity of grubbing several miles of Road bed & graded during the previous quarter, while the favorable fall season lasted, and before the winter rains made hauling difficult. all of which had to be placed to the charge of the last quarter. As to the very pertinent question now does the cost of maintenance of the institution confided to our management compare with the value of the work accomplished for the benefit of the tax payer? He will say that were the work done by contract and at reasonable fair contract prices the cost would be

Which is within 200<sup>00</sup> of the whole nominal cost taking no credit for the sums paid into the County Treasury, or the large stock of supplies &c on hand: From a close scrutiny of all bills and accounts we find that all supplies have been bought with great care and at the lowest contract prices and expenses of all kinds have been <sup>cut</sup> down to the lowest possible figures. In conclusion we may say that owing to the enforcement of a humane but firm discipline and the care bestowed upon their Physical Comfort and interest shown in their spiritual wellfaring - the convicts have generally shown a good disposition and willingness to perform their allotted tasks no abuse by their keepers has occurred and no complaints have been made by prisoners. They seem to be content with their lot - as far as men forced to submit to compulsory labor and loss of personal liberty ever can be expected to be content. No decrease of numbers by escape has occurred. Only four out of the large force have attempted it and all have been recaptured. besides two in addition who had escaped during a previous quarter. The health of the institution owing to the cleanliness and other sanitary arrangements, to wholesome food and comfortable clothing & quarters has been remarkably good, so that out of the whole force there are only two persons now sick and under treatment by the County Physician. Considering the premises we may safely say that the management of the County work house during the last quarter exhibits most gratifying results and reflects credit upon the ability and devotion to duty on the part of the Superintendent all of which is hereby respectfully submitted

The Work House Supt. Submitted the following report  
 To His Honor Hugh Whiteide Judge  
 And Justices of Hamilton County Tennessee  
 Gentlemen

I have the pleasure to present  
 my report of the Hamilton County Work house  
 for the 4th quarter ending December 31/1890  
 Headquarters or Branch No 1

Located on Dadds ave at Battlefields Station.  
 Has employed one Supt one Foreman. Two  
 Guards usually. But when the force increased  
 as it has lately then additional Guards have  
 been employed. About one Guard to 10 or 15  
 prisoners. Also employed one Blacksmith

Work Name  
Supt  
Report.

The Engineer, one watchman one cook, an average of 20 men.  
Maintenance of this branch \$3,609<sup>00</sup>. Now this branch has  
Completed all the work ordered by the Court, except Dadds Ave.  
and the force is at work, between McCasie Montgomery Ave  
on Dadds Ave. Also a force extending the work southwards  
within one half mile of Russell Ave. Now to complete  
this work it would take a force of 25 men, three months  
good weather. But at present the avenue is fenced up  
Mr Peyer, owning a tract of 6 acres, where the Road runs  
has fenced it up. Practically sloping, work in the Rock Cut.  
Branch No 2.

Located at St Ems, Tenn. There is employed at this branch  
one Foreman 1 Guard 1 Watchman 1 Cook 1 Teamster  
and up to Dec 1<sup>st</sup> /90 an average of 10 men. Dec 4<sup>th</sup>  
this force was increased to 17 and Dec 16 to 21 men  
and one additional Guard.

The Expenses of this branch was \$1,647<sup>76</sup>  
\$847<sup>00</sup> was team hire. The work done by the force,  
as shown by the Engineers estimate

Making Embankment, ex Whitecreek St.	4300 yds
" " " Blowing Spring Road.	1040 "
	<u>5340</u>

Now this earth has been moved about 2000 ft and  
giving a fair Contractors Estimate 35 cts per yd.  
this work would cost the County \$1,869<sup>00</sup> making  
a saving of \$221<sup>24</sup> = this is due to the using of  
Wheel Dumps and the trap for hauling earth.  
Three months good weather this force will have  
completed the extension of Cawart St and also the  
free extension to Whitecreek St.

### Branch No 3-

Located at Facing Water on the Washington Road  
There is employed at this Branch one Foreman 2 Guards  
one Watchman one Cook one Teamster and an average  
of 8 men. The expenses of this Branch for this quarter  
has been \$3,130<sup>00</sup>. Team hire mostly gravelling \$1,480<sup>00</sup>  
the work done by the force has been earth moved  
2400 Cubic yds Gravelling 18325 lin. ft or 3 1/2 miles  
Nearly the most of this Gravel was a long haul, and  
expensive. But the best that could be done. Now  
by estimating the gravel at 20 per yd and Earth  
at 20 cts per yd, which is a fair price this force  
would earn \$3,158<sup>00</sup> which pays its expenses.  
This force is now at work near Mr Penbone's farm  
there is a space of less than 2 miles ungraded and it  
take this force about 3 months or less to complete

Jan'y Term 1891

This work, when the Washington will be completed to Daisy except 15 m. at Facing Water Creek. Now the repairs or building of a new bridge should be looked to, so that this force located as it is close can build the approaches before moving. The Engineer gave me an estimate of work to be done above Daisy which was about 100 000 yds and 15 wide. Now estimating the amount of work this force has done in the past year they will go about 6 to 7 miles a year. The usual cutting & filling and graveling a force of 25 men would go about seven miles

Branch No 4

Located on the King farm on the Harrison Road. This force has employed one Foreman and two Guards, one watchman one Cook, one Hauler and an average 15 men. The expense of this Branch was \$1,450<sup>00</sup>. The team hire was 663<sup>00</sup>. Total due ----- 2413<sup>00</sup>

The work done by this Branch in this quarter. Earth Moved 5873 yds.  
Roads Graded 1600 len ft.

which will amount \$2435<sup>05</sup>. A saving of \$12<sup>00</sup>. This Branch is the most saving of any in maintenance. This force is now working at the Ellis farm, and by making a care full estimate will complete the Harrison Road to Harrison or James County line in about nine months

Branch No 5

Located at Hill City. There is employed at this Branch one Foreman Two Guards one watchman one Cook, 1 Teamster and an average of 18 men. The expenses of this Branch with team hire \$2309<sup>12</sup>

The work done by this Branch in this quarter is moving earth or hard pan 3750 yds. Roads graded 1000 len feet. It is difficult to estimate the moving of hard pan that is next to Rock, and I can only say this force has done very good work and has completed the annual approaches to the bridge and would of gravelled the work but for the New Street Car Companies which are preparing to lay their new tracks

The weather in this quarter has been exceptionally good. the health of the prisoners good and the Court can see by the Engineers Estimate of work done that the different Branches have not been idle. I make the assertion in the first quarter that I took Charge of the Work. that by handling the Work House in a business way by purchasing improved implements or machinery by hiring the best of teams by working the Branches as a Contractor would do. the Work House could be made self sustaining. Now the hauling of gravelling in this quarter is what run our expense so high. But it was a necessity the Road was graded and must be gravelled before winter. Our live stock is in very good fix the Hogs are being fatted for killing some have been killed. The Wagon and other implements are in fair condition. I am preparing an Annual Report which when completed shall be printed in small pamphlet form and distributed to each Justice.

lands of St Birds and others. Appeared  
in open Court and submitted their  
report. And on Motion of W. G. Walker Esq.  
and <sup>2nd</sup> by J. W. Sells Esq. said report was  
received and ordered to be made matter  
of records. And is as follows

To the Hon County Court of  
Hamilton County

Gentlemen

We a jury of view appointed by your  
Hon Body to locate survey and report  
upon a County Road from a point near  
Birds Mill through the property of G. H. and  
Geo Birds and G. H. Garnagan and to  
Scruggs Bridge Road over Chickamauga  
Creek would ask to much respectfully  
report and recommends that having visited  
in company with Mr Marcus Long  
Civil Engineer and acting County Surveyor  
the property aforesaid and surveying  
with care fully a line with a view to  
cheapness of construction and permanency  
no part of which being subject to overflow

 Sept 1890

Hon Hugh Whelpley, Judge of Hamilton County presiding at the January term 1891  
 The undersigned members of the Examining & Auditing Committee of said County respectfully submit that they have examined & checked the quarterly report of J. B. Rogan, Clerk Master of said County and the report of L. McClark & J. H. Messick, Clerks of the County all for the quarter ending 30th Sept. 1890 and finding them regular & correct approved and stamped them. We likewise checked & carefully examined the annual report of J. H. Peabody for the year ending 30th August 1890. And having found it regular & correct in every respect approved and stamped and returned it to the County Court Clerk to be filed away after Examining & checking the reports of J. J. Irvine late Circuit Court Clerk of said County, including County revenue & for forfeited Cash for the quarter ending 30th Sept. 1890 and finding many omissions we returned said report to him with full notes & Memoranda of cases and items omitted & requested him to incorporate them with his reports as submitted to us so as to make it an amended report to be treated as an original report of both the revenue & forfeited Costs for said quarter when said reports

were returned amended we checked and examined the same carefully and found them correct so far as they reached but that by some means lacked several cases including many items aggregating more than one hundred dollars. We again gave him the full notes & Memoranda & requested him to make a small supplemental report to those already checked and approved, which he did in a few days & they attached to the original reports to those already checked and approved make up complete statements of County revenue & forfeited costs collected & reported by him for said quarter with these previous reports include all the revenue of all kinds collected by him for said County during his term of office we approved and filed the same with the County Judge. We also interviewed fifty Justices of said County two City Recorders of Chattanooga who as Ex officio Criminal Justices impose and collect fines under the small offense law. In all instances where any Justice in said County had imposed and collected fines for twelve months previous to 1<sup>st</sup> of Oct. 1890 we examined his reports and his docket and took an accurate account of same and made notes of the amounts collected & reported the same in our minutes until paid over by each Justice to the County Trustee. The two City Recorders Pyatt & Dyer had reported and paid over all revenue in every case fully settled, but in several cases where only partial collections of fine & costs had been made they had not reported such cases. We charged the full amount of fine in each to them and noted every case with number and amount in our minutes against them. They have directed the City or Recorder's clerk to complete the collections in such cases promptly and report them as other cases, which we believe will be done in a short time - Nearly every Justice has funds in full and the others will doubtless pay up in a few days.

To The Hon County Court  
Gentlemen

The undersigned the Bridge Commissioners expected to make a full and complete report at this term of the Court. Showing itemized lists of receipts and disbursements but owing to the fact that the hand rail on the Bridge is not yet completed according to Contract it has not all been paid for. And in order to have our report complete when it is made up we ask to be granted until the July Term of the Court to make our final report so that complete payment can be shown. Permit us to say however that the near completion of the Bridge and its occupation by the public fully confirms the wisdom of the Court

In April Term 1891

Bridge Com  
Report

In ordering it built it is becoming more popular and more highly appreciated every day and the good results growing out of its erection will be constantly felt both in the convenience it gives the public and the appreciation of values on the North side of the River. which will be felt in the increased valuation of property and consequent increase in taxes on property directly benefited by the Bridge. Some little trouble has been experienced in regulating travel in a satisfactory way but your Commission has had the Watchman clothed with powers of Policeman and Deputy Sheriff so as to have full authority to make arrests. He has proven quite an efficient man in regulating travel and preserving order on the Bridge. And while one man has so far done all the duty of watching looking after little repairs and keeping the bridge clean and attending to the Signal Lights as required by the Marine laws of the U.S. it is found a pretty hard job for one man to do yet his work has been increased by the usual amount of bad weather and consequent result of carrying mud on to the Bridge. After the bad weather is over his work will not be quite so heavy. The present Watchman is a German He was employed nearly all the time during the erection of the Bridge and had his leg broken in one of the accidents. He is familiar with the work and is a very industrious man but it may be that the work required will prove to be more than ought to be imposed on one person. If it should prove to be the case we recommend that you authorize the bridge Commission to furnish him such help as may be absolutely necessary and in doing this we think a day laborer a portion of the time to help him keep the Bridge clean would be all that would be required. If you leave this to the Commission at least while they are in your service we

Gentlemen

April Term 1891

Report of Com  
of Court House  
Repairs

Your Committee on repairs to Court House report that the work has progressed as well as could be reasonably expected during the time we have had so much unfavorable weather. It is believed that the work will be completed before the next term of the Court. And now that we will probably have better weather your Committee will insist on the Contractor completing the work as soon as it can safely be done. The work has been paid for on the estimates paid out and approved by the Architect. And up to this date the Contractor has been paid Twenty Thousand Four (\$20,400) dollars on account of paid work. There will necessarily be a few little details in the way of arranging the offices and equipping them for the convenience of the several County offices but in doing all this your Committee will economize in every way possible and in the absence of other instruction will endeavor at all times to carry out the former orders of the Court.

Very respectfully

on Judges  
Report

The Finance Committee to whom the County  
Judges report for quarter ending March 31 - 1891  
reported and on motion of Esq. Cochran and  
Esq. Converse same was received and  
adopted and was ordered together with the  
Judges report to be made a matter of record

And is as follows

On the short time we have had to investigate  
the figures shown in the report of the County  
Judge we find nothing but what is based  
on authority given in former orders of  
the Court. We therefore recommend  
that the action of the Judge in issuing  
warrants as reported be approved and  
said report be made of record

County Maps

Report of Committee appointed to take into consideration the proposition of Fairleigh & Belts in reference to County maps was read and on motion Esq 2<sup>nd</sup> by Esq Light was received and ordered to be read of record

To the Honorable County Court

Gentlemen

The undersigned, the Committee to whom was referred the matter of reporting on the proposition of Messrs Fairleigh & Belts to sell the maps to the County - presented yesterday, report that we regard the price of the maps reasonable, and if it is complete, more and accurate we think it would be to the interest of the County to take it. We find some criticisms as to the correctness of the map. There are matters that we are not in a situation to pass upon, but if the boundaries of the County are correctly shown by the maps, or if any errors that exist are corrected, and the Civil District lines accurately shown on the maps, we would recommend that the County accept same on the terms offered, but in view of the fact that it would require some little extra work to show district lines and correct any possible imperfection that might exist. We recommend that the maps be referred back to Messrs Fairleigh & Belts for completion as above suggested, and if complete to the satisfaction of the Court, and the boundary lines of the County are shown to be correct and other defects which may be found in the maps as now drawn, will

Gentlemen

I beg leave to submit herewith a report of the  
county schools for the third quarter of the scho-

During the quarter thirty nine schools have been

Report  
Supt Sch. Co. W.

in session some of them only a part of the time but on account of continued sickness in my family I have been able to visit only a few of them. The monthly reports received show a fair attendance in most cases. The white teachers have held two meetings during the quarter with an average attendance of thirty four teachers and six visitors discussing twelve topics the most important of which was the establishing of a teachers circulating library. It was unanimously agreed that such a library be established and a committee was appointed to arrange preliminary plans to be reported at the next meeting which will be held April 25<sup>th</sup>. The colored teachers have met three times with an average attendance of nineteen teachers and twenty visitors discussing thirty one topics.

There will be two final examinations for graduation one at Daisy April 18<sup>th</sup> the other at the Court house April 20<sup>th</sup>. In order to pass, pupils must make a general average of at least 80 and not fall below 50 in any branch. The annual normal institute for colored teachers will be held in the city, the first two weeks in June while the institute for white teachers will convene June 29<sup>th</sup> and continue one week the week following to be spent in the meetings of the State Teachers Association and the Southern Educational Association to be held on Lookout Mountain.

Prospects for successful school work the coming term are indeed flattering as our teachers are using every means to become better prepared for the work.

Respectfully Submitted

The work house committee and County Engineers read their reports for the quarter ending March 31<sup>st</sup> 1891.

On motion of A. G. Sabagan Esq. 2<sup>nd</sup> by H. B. Wood Esq. said reports were ordered received and made a matter of record. A quorum of justices voting for the same, and is as follows:

To The Honorable Hugh Whiteside  
County Judge, and the  
justices composing the County Court of Hamilton  
County Term,

Gentlemen -

Work House  
Committee  
Report.

County Court April Quarterly Term 1891.

Your committee charged with the management of the Work House have the honor to submit to your consideration their report for the first quarter of the year 1891, as follows: The quarter just passed has in many respects been one of the most unfavorable as the climatic influences on the operations of the work house forces which have been materially hampered thereby so that naturally less work has been accomplished than during former quarters. High water has twice compelled the removal of one of our branches that located at St. Elmo, to Head quarters, where by expenses have been increased and work decreased, and all other branches have frequently been stopped from work during long continued rainy weather - Still the showing made is creditable under the circumstances as will appear from the following statistics

Earth excavation and earth moved	13170. Cub. yds.
Rock quarried	847 " "
Right of way cleared and grubbed	12560 Lin feet
Grading done	3200 " "
Graveled	960 " "

The expenses of feeding (of men and teams) clothing guarding warming etc, of a force averaging during the quarter 161 persons (of both sexes) has been as follows

Employees pay roll	\$3332.40
Teams and gravel	1945.70
Merchants pay roll (for food feed- fuel tools clothing tile etc)	<u>5323.45</u>
	\$10601.55-

amounting to  $12\frac{1}{2}^c$  for the maintenance of one person per day and  $20^c$  for the keep of each mule per day. The aggregate amount overgoes the appropriation by about  $\$600^{00}$  - but it is not to be expected by any reasonable man that 160 men could be maintained during the most severe quarter of the year at the same cost as half that number (which was the average strength during many previous quarters) during a summer quarter. Besides there is an amount of stock left on hand consisting of clothing blankets shoes fuel forage provisions and new tools aggregating  $\$720^{00}$  which should be deducted from the above sum and will bring the actual quarterly expenses well within the appropriation of  $\$10,000^c$ . Your committee have always felt the need of retrenchment and have tried to cut down expenses wherever it has been possible to do so,

County Court April Quarterly Term 1891

Work House  
Committee  
Report.

But they have been thwarted in their efforts by the various system of dividing the work-house forces into so many branches which must necessarily increase the employees pay roll by an additional force of guards foremen cooks and night watchmen besides entailing other necessary expenses in equipping the additional quarters. We do not consider it our province to make any recommendations to your honorable court on this subject at the present time leaving the responsibility of deciding with this important subject to the new Work-House Commission about to be organized under the new workhouse bill - into whose hands we are ready and most willing to deliver up the trust heretofore confided to us by your Honorable body.

Gentlemen

Below please find our report as County Engineers for the quarter ending March 31<sup>st</sup> 1891.

**Bridges.** The Bridge for Smith's Ford North Chickawauaga Creek has been delivered at the bridge site and will be erected as soon as the stage of water will permit. At Falling Water Creek on the Washington Road we would recommend that a new bridge of 100 feet span be built as the bridge that is there at present is too short being only 56 feet span. This old bridge could be used at some other place where it would answer all the requirements.

Committee on Repairs to Court House.

To The Honorable County Court of Hamilton County  
Gentlemen

Your Committee having in charge the repairs of Court House submit the following. Since the beginning of the work. We have paid as follows

- W H Floyd Architect \$ 1,650<sup>00</sup>
- J Chandler Contractor \$ 3,140<sup>00</sup>
- D J Foley 385<sup>00</sup>

The latter payment was on account of putting in Steam Heat in Jail. We have let the Contract for Frescoing the main Court Room which will be completed in a short while. The expense of this will be a little over One Thousand dollars. The different offices in the Court House should be furnished with a better class of furniture with more convenience for the accommodation of the several offices. The Circuit County and Chancery Court Rooms should all be properly seated. To do a good job in seating the Court rooms and furnishing the offices as they should be will cost the County probably six to ten thousand dollars. Your Committee have not felt authorized to contract for any of these. under the circumstances without instructions from you. Should you desire us to go ahead with this work and make the best contracts in our judgement, we can. You can so instruct us at this term of the Court. Bridge Com

Which deducted from total receipts leaves a balance of original appropriation in the hands of the Trustee amounting to \$2177<sup>00</sup>. This balance which is subject to correction in final settlement with Trustee is represented by cash and Notes of the parties interested on the North side of the river that are yet unpaid. The little balance unpaid represents less 4% of the amount of the original Notes given in aid of the construction of the Bridge. The prompt manner in which these notes have been paid has not only been a source of gratification to the County, but it is a positive evidence of the good faith of the makers, in their promise of substantial aid to the County in the work of erecting the Bridge. Vouchers for all the above payments properly approved are in the hands of the County Court Clerk and are filed as a part of this report. We submit herewith the final report of Mr. Thatcher the Chief Engineer which was made up in his Office in Louisville Ky prior to the time of dedicating the bridge, and the figures he gives as to payments &c are only intended to be approximately correct because at that time all the payments had not been made. Hence, he could not give the exact figures. His report is a very satisfactory one, and should be kept on file as it may be of benefit to the County in future. In figuring on the cash of similar work, the item under private donations was represented by notes given by the subscribers amounting to \$25,000. All of these have been paid except \$1000<sup>00</sup> as stated by the County Trustee.

In our statement of receipts we show the full amount donated. But the \$1000<sup>00</sup> referred to is yet to be paid and as it was a donation to the County in account of erecting the Bridge, it is only right that the County should insist on these notes being paid.

The Bridge Commission in the prosecution of this work have always observed the strictest economy in expenditures and have not incurred any expense whatever that could be reasonably avoided. We are informed by competent authority that the incidental expense attached to the erection of the Bridge including the cost of engineering &c have been considerably less than is usually spent in such work. In the items of expense as shown above, the payment to the Lithographing Co. George W. Oaks and the postage in mailing Resources of the County were bills contracted in the course of preparation of the Bonds and Advertising the same. No account has been taken of right of way to the Bridge or other expense was met by parties interested in having the Bridge erected and as part of the donation to the County, although this evidently cost the donors at least \$8000 a possibly more. The Bridge so far has proven a success

County Court July Term 1891

Both in Capacity and Convenience it affords the public in crossing the River. We feel safe in saying you have a good structure and it only requires time to demonstrate the wisdom of the County Court in ordering it built. One of the surprising things in connection with the enterprise is that some private Company did not take advantage of the opportunities offered by the County for the erection of a toll Bridge. It certainly would have proven a very profitable investment. But the general interests of the County considered a free Bridge as preferable and the County certainly did a wise thing in ordering it built at public expense. Your Commission take this occasion to return thanks to Col Edwin Thacher the Chief Engineer and Messrs Farleigh & Betts the resident Engineers as well as to Messrs Bragg, Bruns and Wood Inspectors for the faithful manner in which they have discharged their duties. Our relations with them have been of a most pleasant character and they have all proven themselves competent men in their respective lines of work. Messrs Neely Smith and Co and the Smith Bridge Co the Contractors evidently took the work low neither of them in our opinion made any money. On the contrary we have always thought they lost money on their contracts if such has been the case it has been the result of taking the work too low or meeting with obstacles they did not at first anticipate the Engineers and Commission at all times insisted on the work being done strictly according to specifications. These were carefully drawn and your Commission never felt at any time that they could modify the specifications in any way so as to reduce the cost and to do justice to you and the public who entrusted this duty to us but it is due the Contractors to say that they always tried to do the work strictly according to specifications as interpreted by the Engineer in Charge and it certainly gives us pleasure not only to bear testimony to their capacity as Contractors but to the fact in their relations with us they proved themselves gentlemen worthy of our confidence and appreciation. The Contractors for this structure Messrs Neely Smith & Co have freed

a bill for Extras which is based mainly on the fact that their Construction of the Specifications and Contract is not just as Constructed by the Engineers and Commission. Their bill Contract and Specifications have all been placed in the hands of the County Attorneys who will make a report on same. In the prosecution of the work they had more trouble and expense especially in getting in their foundations than they anticipated and laying aside all strictly legal questions they possibly may have a equitable claim that should have a fair Consideration. The County Trustee has never had any Compensation for handling the bridge funds and we think  $\frac{1}{4}$  of one per cent would be a small Compensation for the risk assumed by him and we recommend that the Compensation above suggested be paid the Trustee as his Commission for disbursing the Bridge money. Many Compliments has been passed on the Walnut Street Bridge and it is safe to say that no better specimen of bridge work on similar cast has ever been built. We also thank your Honorable body for having conferred upon us the duties of taking Charge of the work. We have endeavored to discharge that duty faithfully and believe we have done so to the satisfaction of the Community. If such be the case we will not only feel satisfied but will always feel a pride in the part we have taken in the work. To The Honorable County Court

We respectfully report the following  
disposition of County litigation since the last  
quarterly term of this Court.

Four Cases have been decided by the Courts  
and in each instance the decision was in  
favor of the County.

The attachment proceedings against the County  
in the Case of M<sup>r</sup> Gifford vs McCunley & Morse  
was dismissed at the term of the Circuit Court  
just closed. The proceedings were an attempt  
by Mrs Gifford to attach some \$800<sup>00</sup> which was  
due to McCunley & Morse for certain work done  
by them on the County Bridge.

The suit of J. T. Bee vs County was dismissed  
at the same term of the Circuit Court. Dr Bee  
had sued the County for a Medical bill.

The Case of John P Fuller Esq vs County was  
dismissed at the last term of the Chancery Court  
the Complainants in that Case claimed title  
to lot on which the Court House is built.

B. K. Reynolds vs P. T. Bradfield (Esq) was a  
suit in which the plaintiff claimed to have  
had a contract with said school &  
directors to teach a five month school term  
he claimed also that the directors had closed  
the school and refused to allow him to teach  
and refused also to issue to him warrants  
for his salary under the contract the suit  
was to force the directors to restore him to the  
school and to issue warrants for his salary  
this case was also dismissed by the  
Circuit Court. The suits still pending  
in which the County are parties are as follows

Tombison Fort Chairman of the Executive Committee in Charge of the Reception of the Society of War Party submitted a report & On motion of Esq Mahagan 2<sup>nd</sup> by Esq West said report was received and ordered to be made a matter of record A quorum of the justices being present and voting for the same - said report is as follows to wit

To The Honorable the County Court of Hamilton County Tenn & the Mayor & Alderman of the City of Chattanooga Tenn Gentlemen

We hereby submit to you the accompanying report of the receipts & expenditures of the Executive Committee in Charge of the Reception of the Society of War Party in the City of Chattanooga and to the Battle fields of Look out Mountain, Mission Ridge & Chickamauga on March 12<sup>th</sup> & 13<sup>th</sup> 1891

We respectfully ask you to submit the same to an auditing Committee for examination and approval the vouchers to support the payments are in our possession and will be submitted to the inspection of your Committee We think proper to say that none of the funds appropriated by the County or City were used in furnishing the banquet at the close of said reception, We think proper also to say that the expenditures were kept within the limits of the appropriation and leaving in our hands a balance of \$40<sup>52</sup> which the Committee thought proper to pay over to the Mayor and Alderman of the City of Chattanooga because the City had appropriated \$300<sup>00</sup> and the County \$250<sup>00</sup> the return to the City of Chattanooga of the balance in our hands making the amount appropriated and used by us about the same from both City and the County

to the Finance Committee for report.

✓ Finance Committee made following report.

Gentlemen.

The undersigned whose duty it is in  
a certain measure to look after the financial  
affairs of the County, beg leave to submit the following  
facts and recommendations ~~to~~  
First 1<sup>st</sup> We find that by reason of the very expensive  
improvements made during the past year upon  
the Court House, in advance of the Collections of 1891  
taxes and large expenditures made through the  
Work House Commission as well as the increased  
Cost of the Courts and of the Poor House & Charity account  
that all the funds in the County Treasury have  
been exhausted. And it is certainly incumbent  
upon the County, from this time forwards to  
practice a more rigid rule of economy.  
It is a well known fact among all business  
Circles that money is very scarce and  
during the general depression in business  
that is being felt in most all business  
Channels, that the Collection of taxes during  
the coming year, will work a hardship

Oct Term 1891

on a great many of our Citizens. And to protect them as far as possible in this matter, the County Court should make as few debts as possible for payment in the immediate future. And should contract in every possible way in the expenditures of the several departments of the County. The practice of creating indebtedness and providing for same out of a fixed tax levy and then doing the work and paying the bills in advance of collection of taxes is an unsafe policy and should be under all circumstances discouraged. In case of the improvements on Court House (for instance) it would have been far better to have deferred the same until the taxes were collected, rather than to anticipate the proceeds of the tax levy, by paying such bills out of the funds in the County Treasury left and provided for other purposes.

Our present experience should prompt us to be more prudent on our orders for the expenditure of money in future. On account of heavy appropriations above referred to the County Judge and your Finance Committee have had to negotiate with some of our local Banks for loans to the extent of fifteen thousand dollars with which to meet current expenses interest on Bridge bonds &c. These bills had to be provided for in advance of this meeting of the Court and we respectfully request the Court to approve of such action on the part of the County Judge and your Finance Committee, in providing in this way for the immediate necessities of the County and to authorize them to provide for additional emergencies in the event same should arise before the proceeds of the 1891 tax levy becomes available.

The committee on repairs to Court House  
made their report and on motion of Esq Gohagan  
2 by Esq. Card same was read and ordered made  
a matter of record and is as follows

To The Honorable County Court

Gentlemen

The undersigned the Committee on improving  
the Court House reports that the work is now  
practically completed with the exception  
of putting in the furniture and laying the  
Linoleum all of which will be completed before  
the next term of the Court, provided the furniture  
is delivered according to terms of contract.

The cost of repairs so far has been

Bills of D. J. Chandler	\$ 37 431 98
on account of which he has been paid	<u>35 180 00</u>
leaving a balance due him of	2 251 98

The cost of frescoing the Circuit Court Room

by Mr Merdemeier was	\$ 1075 00
on account of which he has been paid	<u>875 00</u>
leaving a balance due him of	200 00

The cost of painting not embraced in original  
contract with Mr Chandler was \$ 672 00

the work was done by J. F. Richardson Esq. and has  
all been paid for. In finishing the room under  
the County Trustees office it required an  
asphalt floor which was done by the  
Chattanooga Roofing & Painting Co. at a cost of  
\$ 77 88 which has all been paid for. Extra  
plumbing in basement and in room adjoining  
Clerk's<sup>rd</sup> Mastens office came to \$ 217 65  
which was done by the P. Fleming Plumbing Co  
and is also paid for. The work as it now  
stands is all paid for except the bills that  
may be due for furniture and the balances above

referred to, the cost of the will approximate Ten  
 Thousand dollars. And the bill for Linoleum on  
 floor which will approximate Eighteen hundred  
 dollars; In doing this work and paying the bills  
 the County has encroached heavily upon the available  
 funds in the Treasury. by paying these bills in advance  
 of the Collection of the Taxes provided for this  
 purpose. the work was a necessity it is true  
 And the County now has or will have when  
 the work is completed not only an excellent  
 Court House but convenient internal  
 arrangements all through, this report is made  
 merely for the information of the Court to keep  
 you posted as to the progress of the work  
 we trust all the furniture will be in complete  
 before the January Term of the Court. At which  
 time the Committee will make a complete  
 and final report.

Esq. Gahagan Chairman of Finance Committee Submitted  
 the following communication

To The Honorable County Court of  
 Hamilton County Tenn.

Gentlemen.

The work done during the present year  
 in the way of improving the Court House. practically  
 furnishes this County with the handsomest and most  
 convenient building of the kind in the State; The next  
 thing that should be done to give a better external  
 appearance to things is to improve the grounds around  
 the building; this is a matter that has been neglected  
 in the past. And is a subject of universal criticism  
 not only on the part of our own people but of  
 strangers who visit our City; There has been  
 for years a general public approval of the  
 idea of purchasing the Baptist Church lot.  
 thereby securing to the County the ownership  
 of the entire block of ground on which the  
 Court House is located. the undersigned has

for several months been negotiating with the owners of that piece of property for an option on the same to be presented to the Court, as a result of a considerable correspondence the owners of this property sent a representative to this city about two weeks ago to confer in regard to same, they insisted on asking thirty five thousand dollars for the piece of property, their terms being a reasonable cash payment and the remainder in annual payments until all was paid, the condition of our County finances was clearly laid before them, and the facts stated that an immediate cash payment would probably prevent the purchase and that the price asked was more than the Cash would give finally they were induced to accept the following proposition which I have in writing the substance of which is as follows The price to be paid thirty thousand dollars same to be provided for one fifth each out of the Tax levies for 1892 to 1896 inclusive interest to be paid by the County annually at the rate of 6% per annum, the price asked for the property may appear to be a large sum yet it has cost the owners thirty three thousand dollars, hence it is clear that the consideration and terms offered the County is probably lower than can ever be had again, in view of these facts the Court could safely take in consideration the offer herewith submitted

Very Respectfully

A J Bahagan

# County Court October Quarterly Term 1891

The following is an estimate of the work done during the quarter as shown by the engineers report, which is hereto attached, and made a part of this report. We find that the total gross expenses for the quarter amounts to the sum of \$11,814.92<sup>23</sup> divided as follows: Employees \$2,710.57 Hired Teams \$1,379.21 Supplies \$5,243.60 Estimates of Contracts for gravel (On shallow Ford road \$2,544.20 Washington Road \$603.93 Forest Avenue \$733.85 Total \$15,924.88 Paid to Holl Brady for moving Halling Water Bridge to Oppassum Creek \$775.00 To Stone cutters and free labor on Halling Water Bridge Abutments \$845.37 The work house department is entitled to the following Credits \$150.00 Engineer's Salary and the pay roll of Halling Water Bridge amounting to \$845.37 and amount paid Brady for moving Halling Water Bridge \$775.00 should be charged to the Bridge fund, this would leave a balance of \$10,776.36 net expenses for operating and maintaining the Work House department for the quarter, this is an increase of expense from last quarter of \$665.85 caused by the Estimates in contracts for graveling, to deduct the total Estimates of graveling \$15,924.88 would show saving in expenses from last quarter of \$926.63

Report of County Engineers for  
Quarter Ending Sept 30<sup>th</sup> 1891

To the Work House Commissioners of  
Municipal Council  
Municipal

We have the honor to submit our Report  
as County Engineers for the Quarter Ending Sept 30<sup>th</sup> 1891  
J. S. Briggs

Halling Water Bridge. The abutments for this bridge are about completed and the work has been done in a first class manner. The foundations were carried down to a gravel bottom some distance below the surface of the ground so that all possibility of washing out is avoided. Proposals for the superstructure have been advertised for and they will be presented to you with this report.  
Oppassum Creek Bridge

Under instruction from your honorable body, I went to Retro and met Esqr. McCall to relocate the bridge over Oppassum Creek. A location was decided on at what is

## Vanity Court October Quarterly Decm 1891

Known as Duwoody Mill site It is proposed to use here the Bridge that was removed from Falling Water Creek and it will be necessary to build iron legs and a wooden trestle approach on each side of the stream. For this work I herewith submit a proposal from R M Brody to whom the Contract was let for removing and erecting the Bridge his price for the legs & Trestle approach is \$614.75 for moving and erecting old Bridge

	155.00
making a total cost at his figures	\$799.75

### Big Saddy Bridge

We also located a Bridge across Big Saddy Creek on the Mountain or Back Valley road at Samers, the Span is 80 feet, with abutments 10 feet high and the cost will be approximately \$2800-

### 2<sup>nd</sup> Surveys

During the quarter we have made survey for the following roads, The Sawyer road from the Dallas road to the Washington road a distance of 1.4 miles, The Dallas road from the Bridge to old Dallas by way of Kirschen Station, a distance of 15 miles

The Lightfoot Mill road on Citico av and Chamberlain av a distance of 1 mile

The Barrison Road to James County line a distance of 3 miles

## County Court October Quarterly Term 1891

✓ H. D. Buffaker Supt of Public Schools read his Report for quarter ending Sept 30<sup>th</sup> 1891. A motion of Esq Bennett second by Esq Converse was received and ordered to be made a matter of record and is as follows to wit  
Chattanooga Tenn Oct 5<sup>th</sup> 1891

To the Hon County Court

Gentlemen:-

I have the honor to submit herewith a brief report of the County Schools for the quarter ending September 30<sup>th</sup>

Two very successful annual institutes for the special training of teachers were held before the opening of the schools, nearly all the County teachers and many visitors being present. We see in every school the good results of these educational renewals.

The schools are now all in session, the monthly reports from teachers show a larger attendance than ever before. Your Superintendent had the pleasure of attending the National Educational Association meeting in Toronto Can July 14 + 17 where many new ideas were gained.

We are about on the road of the way on our sound of visitation and it gives us pleasure to note that in nearly every school we found the teachers doing his best under the circumstances.

In August the teachers met and recommended for use in the Secondary Schools the following books subject to adoption by the School directors of the County

McAdams Geology of Tennessee —

Luptons Agriculture —

Wentworths School Algebra —

" " Geometry

Huges Introduction to Physical Science

Goodmans Simplex Book Keeping

Lincolns Hygienic Physiology

Macy Civil Government

Lockwoods Lessons in English

Phelans School History of Tennessee was recommended for primary schools.

It was decided by unanimous vote of the teachers at the September meeting that a County Educational Exposition be held in connection with the annual Normal Institute next year. The exposition held here last December was the first County School work ever exhibited in the State, and was heartily endorsed by the State Superintendent in a four page edition in his last annual report.

To the Honorable County Court of  
Hamblen County Tennessee  
Gentlemen

Your committee have examined the report of W H Peabody, Trustee, for final settlement on tax levy for 1890, and from all other sources to September 1<sup>st</sup> 1891. We have carefully checked all items on said report, and compared same with books of his office, and find same correct, subject of course, to any errors in additions and calculations that may hereafter be found by the auditing committee of this County. We therefore recommend that said report be accepted, made a matter of record, and his bondsmen released from liability on tax levy for 1890 as provided by law.

Respectfully submitted

Esq. A. J. Gahagan Chairman of the Finance Committee submitted a tax levy and budget for the year 1892 which is as follows -

To the Honorable County Court of Hamilton County Tennessee  
 Gentlemen,

The undersigned your Finance Committee submit the following report and recommendations. We estimate the receipts of the County during the year 1892 to be approximately as follows

# Quarterly Court January Term 1897

From County Court Clerk	\$ 36000.00
" Circuit " "	3500.00
" Chancery " "	1000.00
" Work House fines	2000.00
" J.P. fines	3000.00
" all other sources	2000.00
Total, from above sources	\$ 47500.00

We estimate the total assessed valuation on which will be based the levy for 1897, including Rail Road Assessments will foot up twenty five million dollars and we recommend that the tax levy for 1897 be made by the Court as follows.

State Tax	.30
County "	30
School "	25
For County Hospital	04
Interest sinking fund	05
Bridges	04
Post House	04
Payment on Court House Grounds	04
Road Tax	10
Total	\$ 116

On all real estate and personal property subject to taxation under the laws of the State and in addition to the above we recommend the levy of a poll tax on all persons liable to same, of one and 50/100 dollars one dollar of which shall go to the school fund and the fifty cents apply to legitimate county purposes - This would make one and 06/100 dollars taxes on all property in the City and one and 16/100 dollars taxes on property outside of the City the difference ten cents of course being the road tax which is applied on improving the roads in the several districts of the County We estimate that the expenses for the County during 1897 will approximate about as follows.

## Quarterly Court January Term 1892

Work House	40000.00
Poor House	12000.00
Interest & Sinking fund	12000.00
Bridges	10000.00
Hospital	6000.00
County Court	11000.00
Circuit Court	2500.00
Miscellaneous Expenses	15000.00
First payment on Baptist Church lot & interest	8500.00
Outstanding warrants and unadjusted claims	25000.00
Making a total of	165500.00 for

County purposes. To provide this sum we estimate about the following receipts  
 From tax levy as provided above, net 119000.00  
 " the other sources above enumerated 47500.00

Making a total of receipts \$166,500.00  
 which will leave as you will observe practically no margin for incidental or other expenses not provided for above unless same should be paid out of any surplus that might accrue by reason of reduction in some of the Departments of the County. The item of outstanding warrants and unadjusted claims will possibly be more than we have provided for above. They consist principally of the following

warrants held by the local Banks	16000.00
warrants held by Conant Bros	5562.18
" held by S J Chandler	2290.00
" " " McDonald & Co	1862.00
Jinton Mfg. Co	2000.00
Unadjusted Claims	2500.00
Making a total of	<u>30214.00</u>

which amounts as you will see to more than above provided to meet this item of expense, yet the surplus could possibly be carried over into the next year as an unpaid item and could be provided for out of the tax levy of 1893 --

This course would in all probability be better than to attempt to increase the levy for the present year. Of course the County will not be called

## Quarterly Court January Term 1892

on again soon to go to such heavy expenses as she has had to pay the past year in improving the Court House and it is safe to estimate that following 1892 a total levy of one dollar will be ample to meet all necessary expenses. It is however incumbent upon the County Court to practice economy in expenditures especially during the present year as it will be a hard one on our people and the great scarcity of money will make it to say the least a hardship to meet taxes. The item of receipts from the County Court Clerk is made up mainly from privileges and to provide this we recommend the following levy on privileges for the year 1892.

Merchants shall pay an ad-valorem tax upon the average capital invested in business as follows	
For County purposes	.30
" Schools	.15
" Privileges for County	.10
" Schools	.10

But in no case shall said tax be less than Five Dollars.

Auction<sup>er</sup> and Commission merchants shall pay an ad valorem and privilege tax as other merchants but in estimating the amount upon which the tax is to be assessed the Clerk will ascertain the amount of sales at auction or on commission, of the party engaged in business not exceeding twelve months, and one third of said sales shall be the basis upon which to assess & collect said taxes.

Merchant license must not be issued for a shorter period than twelve months, except where the business of the merchant terminates before the expiration of twelve months.

# Quarterly Court January Term 1892

then the Clerk should collect the tax for only the time the business is carried on and provided further that parties selling merchandise for any part of the quarter shall pay both ad valorem and privileges taxes for the quarter. The rate of taxation on the following privileges shall be

✓ The Bridge Commission by its Secy. A. J. Gahagan submitted their report which was received and ordered spread of record and is as follows.  
To the Honorable County Court Gentlemen

The joint workhouse & Bridge Commission having in charge the County Bridge report for your information that in managing same economically we have thought it advisable to dispense with one of the guards finding that the travel over the Bridge is so well regulated that one person can do the work at least for the present. On November 15<sup>th</sup> we dispensed with Mr. Troutman and continued J. M. Lovelady as Bridge watchman fixing his salary at fifty dollars per month and requiring him to employ at his own expense any additional help that may be required to keep the Bridge clean, floor in repair &c we also modified the original order made in regard to

## Quarterly Court January Term 1892

to travel across the Bridge, so as to provide that light teams crossing might drive around heavy and slow teams going in front of them, provided that in so doing the teams driving around should not be permitted to obstruct other teams going in the opposite direction.

This modification will be quite a convenience in a good many instances and will not interfere with teams going in the opposite direction and, we believe as an experiment will prove satisfactory.

Very Respectfully  
A. J. Gabogian Secy.

On motion of Esq. Gabogian seconded by Esq. Converse the report of the Court House Com. was received & ordered spread of record and is as follows.

To the Honorable County Court Gentlemen,

Your committee on improving the Court House beg leave to submit the following report of expenses incurred

J. Chandler Contractor	37475.98
Conant Bros Furniture Co	5562.18
W. H. Lloyd architect	61723.92
The Tanton Mfg. Co	3200.00

Gottschalk & Co	76.58
J. Chandler (Furniture Beer)	913.33
Newell-Chandler	111.37
Total	52982.47

warrants for all of these bills have been issued except the balance due the Tanton Mfg. Co of about \$1200.00 that company is now finishing up

January Term 1892

a little more of their work and as soon as completed and put in their entire bill will be paid. The warrants in favor of Conant Bros Furniture Co are payable one half January 15<sup>th</sup> 1892 and one half February 15<sup>th</sup> 1892

The warrants in favor of J Chandler for about \$3200<sup>00</sup> are still unpaid. The cost of putting the Court House in its present condition has been a heavy one yet the work is now done and we think you have the best Court House in the State and will not under ordinary circumstances require much more expense in the way of cost of repairs for the next several years -

The matter of keeping the Court House in good condition has been considerably discussed by your Court and until we can arrive at the best methods by actual experiments we would suggest that you leave the question of janitor service and such other little details with the Court, at least for the present as we are afraid satisfied we will get this service eventually regulated so as to be in a satisfactory shape. The matter of improving the grounds is one that the Court should order or give authority to the Court, to have the work done. The stone wall around the premises should be completed - just as soon as the condition of the County Treasury will permit of the work being done and the grounds cannot well be put in perfect order until the fence is completed and we recommend that you authorize the County Engineer and Court House Court, to receive bids for doing this work with authority to let contract in their judgment.

January Term 1892

the cost of same can be met out of any available funds for County purposes that may come into the hands of the County Treasury during the present year

A comparison of the foregoing statistics with former reports will show that the County schools are in a flourishing condition the most important event of the year was the County exposition of school work held at the Court House in Dec. 1890 nearly all the schools were represented thereby giving the Teachers an excellent opportunity of comparing methods and selecting the best for future use. it was also a great stimulus both to teacher and pupils in doing neat and systematic work the schools are now are preparing material for another exposition to be held during the annual institute next June or July - two annual Normal Institutes one for white & one for Colored Teachers were held last June one hundred & seven teachers were enrolled at the white Institute & seventy three at the Colored. a convention of school Directors was held at the Court House on the 7<sup>th</sup> of last Nov. and a course of study was adopted for the primary and secondary schools of the County in accordance with the new school law.

The following text books were also adopted for secondary schools  
 Meador's Geography for Tennessee  
 Winslow's agricultural  
 Ray's Elementary algebra  
 Wentworth's plain Geometry

 We would further respectfully ask  
 that this agreement apply to all City  
 Convicts and that this contract shall  
 be in force for one year from date.

We would further agree that  
 when each prisoner is delivered  
 to the County authorities the Police  
 Department will furnish the County  
 authorities a statement of the total  
 City fine and costs against said  
 prisoners should the prisoner pay  
 out during his or her imprisonment  
 the Superintendent of the Workhouse  
 is authorized to receive the amount  
 due and shall turn over to the  
 Recorder all funds that shall  
 come into his hands possession  
 and shall make monthly assess-  
 ments with the Recorder and  
 make monthly reports to the  
 Police Department of the City Prisoners  
 on hand the number received

Chattanooga Tennessee  
January 8<sup>th</sup> 1892

Hon Hugh Whiteside  
County Judge of  
Hamilton County  
Tennessee

Your obedient servants, the Examining and auditing  
Committee of said County respectfully submit  
to your Honor that for the fiscal year ending  
Sept. 30<sup>th</sup> 1891-

That they made an exhaustive examination  
of the books and report of C H Babcock County  
Trustee for said County for said year  
We find the books in good shape and under a  
good system

The report is correct as to amounts in the  
aggregate and in detail and as to style and  
arrangement, is a model.

We have examined quarterly for the same  
fiscal year the reports of J B Ragan Clerk & Master

Report of  
Auditing  
Comrs.

January Term 1892

R B Henderson Circuit Court Clerk and J H Merrick County Court Clerk. In most cases the reports of these several officers have been found - absolutely correct, but occasionally an omission was found which is always included in the next report and we presume they have all settled with the County Trustees according to the reports filed, examined and approved.

We have interviewed all the justices of said County and examined the dockets of all justices who have tried and fined defendants under the small offence law including the docket of the City Recorder who is officia a criminal justice; except H. H. Hixon of the 2nd District and J C Rogers of the 1st District. Neither of the said justices has given us an opportunity to examine his docket except an invitation to inspect it at his home. Squire Hixon paid for year ending Sept 30<sup>th</sup> 1890 \$7<sup>00</sup> which he claimed is the amount collected and this statement is according to his sworn report for the said fiscal year. We find no reports for the year ending Sept. 30<sup>th</sup> 1891, but he claims he made regular quarterly reports. He paid Co Trustees for said year \$14<sup>00</sup> the amount he says he collected.

He promised to bring down his docket and let it be stamped and examined by the Ex. & Au. Committee. Squire Rogers says has collected some and has paid some money to the Trustees but that his docket is literally worn out, but that he will bring it down and have it examined and stamped, and get a new docket and comply with the law.

At the end of the year Jan'y 1<sup>st</sup> to 7<sup>th</sup> the session of the Quarterly Court the following justices owed for the fiscal year ending September 30<sup>th</sup> 1891 as follows:

- Thos Cowart \$35.00
- A C Kirk 60.00
- J A Holtzclaw owes by mistake 5.00 he claims
- H B Wood owed for the year ending Sept 30<sup>th</sup> 1891, \$696<sup>80</sup> He has since paid \$304<sup>45</sup> and \$200<sup>00</sup> making \$504<sup>45</sup> and leaving a balance for 1890 of \$191<sup>35</sup>. He owes for the year ending Sept. 30<sup>th</sup> 1891. \$178<sup>20</sup> making a total to that time of \$369<sup>55</sup>. J G Buzge owed \$26<sup>00</sup>. A P Ellis \$8<sup>00</sup>. S M Adams \$17<sup>00</sup>. B F Whitesides settled in full to Oct 1<sup>st</sup> 1891 and by some means paid \$4<sup>00</sup> more than he owed for which the County

January Term 1892

Trustee should give him credit on quarter ending Dec 31<sup>st</sup> 1891.

Recorder Stong owed \$491<sup>00</sup>. All the justices not mentioned in the report either had nothing or had settled in full to Oct 1<sup>st</sup> 1891. Every justice not settled in full claims to have a large balance in his favor for unpaid costs, which claims are corroborated by Trustee Peabody in his opinion when interrogated upon the subject. On the statement of the justices we waited until the last hour for them to settle

October Term County Court of  
Hamilton County 1891

Petition of  
County Atty  
H. M. De Witt

In the matter of County Attorney -  
Be it resolved, that, it appearing to the satisfaction of Hon. Hugh Whiteside Judge of the County Court presiding, on this October 1891 that Mr Henry De Witt was originally appointed by this Court Attorney and Counsellor at Law for Hamilton County, and it also appearing that W. G. M. Thomas was then a partner in the practice of Law with said De Witt, when, by request of said De Witt, this Court permitted the record to show that the Law firm of De Witt & Thomas were the County Attorneys.

And it now appearing to the satisfaction of this Court that, since that time, to-wit, on the 3<sup>rd</sup> day of September 1891, the said Law firm of De Witt & Thomas has been dissolved by mutual consent:

Now, therefore on the motion of the said Mr Henry De Witt, the Court appoints him, of record, the Sole Attorney and Counsellor at Law for the County of Hamilton, for and during the remainder of the term of office of this Court - the said attorney W. G. M. Thomas having due notice of this application and appointment and making no opposition to it, and admitting the justice of the same. This entry should have appeared on the minutes of the October Term 1891 of this Court and is entered by order of this Court at the January Term 1892 Now further it having been assented to be entered there

January Term 1897  
by oversight and mistake

After the above order the following endorsements thereon were made to-wit:

Auditing  
Committee's  
Report

Hon Hugh Whiteside County Judge of Hamilton County  
Dear Sir - We now present our quarterly report  
on the reports of J. B. Ragon & M., R. B. Henderson  
Circuit Court Clerk and J. H. Messick County  
Court Clerk, for the quarter ending 31<sup>st</sup>  
Decr 1891. We found Ragon's report absolutely  
Correct and after checking approved and  
stamped the same. We found R. B. Henderson's  
report Correct except four cases of County Tax and  
fines, which we noted in our minutes  
to be included in next report, with the  
exceptions noted, approved and stamped the  
same.

We found the report of J. H. Messick Correct  
except he had over paid by \$18<sup>00</sup> in the  
Cases of A. J. M<sup>o</sup> Alister for which he should  
have a credit in next report. Noting  
this error we approved and stamped his  
reports for said quarter.

We also report as to the outgoing justices for  
the quarter ending December 31<sup>st</sup> 1891

J. M. Adams paid \$175<sup>00</sup> which was  
in full to 1<sup>st</sup> Oct. 1891. He owes for quarter  
ending Decr. 31<sup>st</sup> 1891 \$17<sup>80</sup> and says he will  
settle the balance soon, and has a large  
amount cast coming to him in the  
Courts.

Spire Burge owes up to Oct 1<sup>st</sup> 1891  
\$26<sup>00</sup> and for the quarter ending Decr 31<sup>st</sup>  
\$4<sup>00</sup> making \$30<sup>00</sup> and has a large  
amount of casts due him, and will  
apply the same in settlement before  
drawing any out-

January Term 1892

Squire Rowden owes to Oct 1st 1891 \$106<sup>90</sup> and for quarter ending Decr 31st \$4<sup>00</sup> making a total of \$110<sup>90</sup>. Has a large amount of costs due him and will settle in full soon applying all costs in settlement before drawing out any -

Squire Whiteside had settled in full up to Oct 1st & had a credit of \$4<sup>00</sup> over. having paid too much by mistake - He owes a balance of \$37<sup>00</sup> for the quarter ending Decr 31st 1891 - Has costs due in the Courts - enough now in Trustees hands to settle the balance -

Squire Wood HB owes for 1890 \$191<sup>35</sup> for 1891 up to 1st Oct 1891 \$178<sup>20</sup> and for the quarter ending Decr 31st \$42<sup>00</sup>, making a total indebtedness up to this date of \$411<sup>55</sup>. He has a large amount of costs due in the Courts, has not drawn any for some time, says he will apply costs and settle in full soon -

A A Stong is still Recorder & ex officio Criminal Justice. He has paid to Trustees since Oct 1st 1891 \$1001<sup>00</sup> and will soon make another payment - his account is satisfactory

Respectfully

quarter ending Dec. 31 1891 was  
received and ordered spread of  
record and is as follows,  
To the Hon. County Court  
your Work House Commission  
submit the following report for  
the quarter ending March 31<sup>st</sup> 1892

April Term 1892

We have had during the quarter an average of about one hundred male prisoners & ten female prisoners making total average of 110 prisoners. This force has been divided into two branches one on the North side & the other on the South side of the river.

This consolidation was ordered & effected in the last part of Jan'y. J. W. Dobbs was elected Supt. on Jan'y, 18 & W. Swalker foreman in charge of the North side branch - This consolidation has enabled the Committee to reduce the salary account about three thousand dollars per annum notwithstanding the fact that we now have the City prisoners - The force on the North side has consisted of about 31 men & the following work has been accomplished  
 1 by them Montgomery street  
 1 has been completed, one large stone culvert finished & one heavy fill about 300 ft. long & six ft. high made. This force they moved to the Dallas road & have graded about one & three quarters miles of this road thirty feet wide. This force is now at Saddy working on the Washington road. Before the consolidation a branch of the North side force built about 1/4 quarter of a mile of good road over the Woolan hill & made a considerable fill on the Washington road between the Martin Hamilton pieces - The force on the South side has consisted of the remainder of the prisoners & this force has practically finished the grade of Dadds avenue to the Georgia State line these remaining

April Term 1892

but three or four days work to entirely finish the grade on this avenue. This force has also completed & dressed up the heavy rock cut on Rodds av & have laid heavy rock or Telford base on Rodds Ave from Montgomery Ave to the workhouse near the heavy stone cut above mentioned a distance of about feet very advantageous arrangements have been made for furnishing slag, as a top dressing for this street & your committee believe that they will be able to entirely finish Rodds Ave. in two more months. The total expenses for the quarter were \$10480<sup>25</sup> of this amount \$2452.<sup>10</sup> was expended for 18 additional mules & 9 wagons harness & should be deducted from the total for it is not one of the usual expenses of running the workhouse but is in the nature of a permanent improvement or stock on hand which should be carried from quarter to quarter - The county engineers or Sup't. reports will give the details as to costs of separate departments - details of the work done your commission is very much gratified at the amount of work done & the general arrangement of the present Dept all of which is respectfully submitted

The report of the standing Comt. on Charitable Appropriations reported as follows,  
For the Honorable County Court  
Hamilton County Term,  
Your committee appointed

at last term to examine into the conditions and methods of the various charitable organizations of the County, beg leave to report:-

First, - That they have visited and inspected the County Poor House, Vine Street Orphan's Home and its branch, the Refuge also Mission Home for fallen women, the Steel's Colored Orphan's Home, and the Society for Prevention of Cruelty to Animals. Your Court recommends that no more allowance be made to this society by the County and that the prosecution of this service be referred to the Police Commission and the County officers which of necessity have the field in hand, and can be more effective than any ordinary special service.

For the associated Charities we think, after a careful examination of its affairs, Eighty five dollars (\$85.<sup>00</sup>) per month fully sufficient to meet its real necessities.

We find the County Poor House well managed and properly conducted. Vine Street Orphan's Home is well managed, the rooms and apartments are exceptionally neat and clean, the books well kept, showing all transactions. The Steel Orphan's Home, the Refuge, and the Home for fallen women were all very well kept and the inmates of all well cared for. We recommend that the Vine Street Home, the Refuge, and the Steel's Home receive the sum of 13<sup>¢</sup> per day for each

inmate in said home under the age of thirteen years, who having been sent to said home under the age of thirteen years, who having been sent to said Home upon the order of the County Judge and said amount to be paid quarterly upon a return of or report certified to by the officers and Superintendent of each Home, showing first, the name of each inmate for whom appropriation is allowed, 2<sup>nd</sup> the age of each inmate, 3<sup>d</sup> day and year when said inmate was first admitted and 4<sup>th</sup> - The total number of days that said inmate has been in the home for the quarter for which report is made. That no child shall become a charge of Hamilton County that was not a citizen thereof and that when the ages are unknown, the County reserve the right to estimate or guess such ages. That it shall be the duty of the Charity Committee to visit at least once each quarter all charity organizations which are receiving aid or support from the County and verify and approve all reports upon which appropriations are asked and upon such approval the County Judge may issue his warrant, said reports to be placed on record.

The Mission Home for fallen women is subject to all the above conditions except that of age and citizenship

Chattanooga April 4 1892  
To the Hon. County Court  
Gentlemen,

I submit herewith a report of the County Schools for the quarter ending March 31 which is as follows.

During the quarter forty one schools have been in session with a teaching force of sixty six.

The attendance has been larger than for the same period last year which shows a steady growth as the result of an increased interest on the part of patrons.

Thirteen pupils have graduated from the Primary schools and received their certificates which entitles them to admission into the secondary schools under the new school law.

This give us a total of one hundred and twenty graduates to date. We are glad to report that the teachers are taking great interest in the circulating library which gives them access to the best professional books at the nominal cost of \$1- a year.

The library contains about one hundred and fifty books and others will be added soon. Two State and Normal Institutes will be held in Chattanooga, beginning June 13 and continuing two weeks at the expense of the State. Tuition will be free to all and no County appropriation will be needed. The white teachers at their meeting last Saturday voted to supplement their State institute with

April Term 1892

an additional week beginning June 6<sup>th</sup> making in all three weeks - The colored teachers will no doubt take the same step at their meeting April 16.

The schools are now preparing material for another exposition to be held in connection with the State institutes which will be the first joint State Normal Institute and educational exposition ever held in the Volunteer State

We desire to call your careful attention to the annual report which is just from the press

It will be found to contain every detail of the County School work it being by far the best and most complete report ever issued from any County in Tennessee

To the Hon. County Court  
Gentlemen

Your committee composed of the County Superintendent and the Schools directors of the first and the twelfth districts beg leave to make the following report.

At the October term of Court 1891 two petitions came before your honorable body one from the citizens of school district No. 22 known as the Igon or Millsill school district asking that district 22 be re-established as it was prior to an order of the Court transferring a large portion of the territory of said 22

April Term 1892

district to the first district said change having proved detrimental to the interests of the district.

The other petition was from citizens of first and twelfth districts praying for a school district between the towns of Daisy and Soddy.

Your committee was appointed with power to act, and after due consideration having advised with the people interested and given the whole matter a careful and impartial investigation have agreed (1) That the boundary of school district No. 22, be reestablished as follows,

Beginning on Soddy Creek at what is known as the Craighhead Landing thence a direct line to the John Thatcher pond thence a direct line to the old Hunter Ferry road at the George Clift place thence with said old Hunter ferry road to Jas. Gann's thence a direct line to Monroe Mastersons west corner thence with the said division line between the Campbell Gow and Masterson line to Tenn. River thence up said Tenn. River and Soddy Creek to the beginning.

Owing to the fact that to establish a new district between Daisy and Soddy would in our opinion be detrimental to the school interests all parties concerned as it would divide the population and of course shorten the school term and because a number of the petitioners since investigating the matter prefer to let the district remain as it now stands we desire to report that the petition was not granted and that the district remains undivided.

 To Hon. Hugh  
 Judge of Hamilton  
 County-

Dear Sir, Your auditing & Examining Committee for said County asks to file with your Honor the following for the quarter ending 31<sup>st</sup> March 1892 -

after examining the report of J B Rogow C. M. for said quarter thoroughly we stamped & approved the same having found it absolutely correct in every respect. We then called on the Circuit Clerk R. B.

May Term 1892

Henderson, no report could be found, there was a sharp controversy between the circuit & the County Clerk as to the whereabouts of the Missionary report, and after some delay we proceeded to check his dockets his report books where he copies his reports before filing them - This was necessary as the Circuit Court was in session & he & his deputies were so much engaged with daily business of an urgent character that a second report could not be made - The copy of the report was correct, except certain commissions & which were fully noted in our minute book fully set out in this report with a distinct & positive agreement with said Clerk Henderson that these matters will be formally reported in the next quarterly report & fully paid along with other items in the next report - The errors & exceptions are as follows to wit: Civil Docket I page 417 County tax 2<sup>50</sup> State H. page 305, 75<sup>00</sup> State I' 668 - 5<sup>00</sup> & in same case fine 75<sup>00</sup> State I' page 579 75<sup>00</sup> State J' page 413 - 5<sup>00</sup> making total of 47<sup>50</sup>

We examined checked & approved Messick's reports for the months Jan'y, Feb'y - March 1892 making up the full quarter ending March 31<sup>st</sup> 1892, with the following exceptions which were noted & fully set out in our minute book. The errors & exceptions are as follows to wit: In Jan'y report he shows \$21.<sup>00</sup> collected from Sw. Clinton which amount should have been 7<sup>50</sup> Privilege tax collected from J. Long 2<sup>25</sup> should have been 2<sup>50</sup> In March report 5<sup>00</sup> privilege N. Dietzen & Bro collected & not reported in same reports 5<sup>00</sup> privilege from May E. Roach not reported, - In Jan'y report for Tippler's 50<sup>00</sup> collected from Mattie Schultze not reported, & March report Tippler's 50<sup>00</sup> collected not reported. These items of figures show errors for against the Clerk all of which will be corrected & paid in next report, & all

other respects the report was found correct & entirely satisfactory, besides it is the largest & most valuable report ever made & settled by any C. P. Clerk so far as the Chairman of our Committee, & he has been such for a series of years - all of which is respectfully submitted for your official consideration & approval.

W. H. C. A. P. H. & Messrs. ...

July Term 1892

Commission submit the following report for the quarter ending June 30, 1892

We have had during the quarter an average of (118) one hundred & eighteen prisoners - the cost of feeding the prisoners has been 13 1/2 cents each per day - the cost for feeding the guards & other employees has 18 1/3 cents each per day.

The cost for feeding the stock has been 22 1/2 cents per day each. The total expenses for the quarter have been \$7578.00. During this quarter about six hundred dollars has been expended in permanent improvements on the work houses but no credit is taken for this nor for any of the supplies we now have on hand.

The working forces have been divided into two branches one on the north side of the River located at Saddy - This force has graded 3 7/8 miles of road which leaves only about 1/4 of a mile to complete grade to Daisy where it connects with the work already done on the Washington road.

The force at Headquarters or on the South side of the River have graded 1/8 of a mile on Alabama Avenue in St. Elms & 3/8 of a mile on Slodds Avenue which completed to grade of Slodds Avenue to the Georgia State line & this force has also put slag & gravelled 2 1/8 miles of Slodds Avenue which leaves less than one mile to gravel to entirely complete Slodds Av. all of which is respectfully submitted

Gentlemen

Your committee on improving Court House and grounds reported that the stone wall around north end of lot has been completed and the work accepted at the total cost of \$1093.<sup>00</sup> dollars. The contract for this work was left to Messrs. Keating Bros and they have given us a good piece of work - The contract for building sidewalks was let to George L. Gillespie, who is now delivering the curbing on the ground and will commence the work just as soon as the City completes the excavations necessary, to conform to the established grade of the streets.

✓ The report of the Special Committee on Telephone Company crossing the Bridge over the Tennessee River at foot of Walnut street is as follows.

To the Honorable County Court  
Gentlemen,

Your Committee to whom was referred the matter of the Telephone company crossing the Bridge, reported that we have not made any contract with the telephone company - They insist that they cannot pay any consideration for crossing the Bridge as the income they will receive from the north side of the river would not justify any extra expense - They, however, make the generous offer to furnish the County, free of charge, eight sets of instruments, free provided.

July Term 1892

the Company would relieve them of all State and County taxes and privileges on instruments, and plant in this County this offer is a very generous one, so far as it applies to the telephone company and we respectfully recommend that it be rejected and that the company be allowed the very generous privilege of paying their taxes the same as required of other tax payers. We recommend, however, that they be permitted to cross the bridge free of charge for the next three years, they giving bond to hold the County harmless, on account of any accidents that may arise by reason of their wires crossing said bridge. This will give the citizens of Hill City the benefits of telephone service the same as now enjoyed by the other suburbs of the City.

Very Respectfully

Chattanooga, Tenn. October 3<sup>rd</sup> 1892

To the Honorable County Court.

Gentlemen,

We have examined the report of the County Judge as carefully as the time we had would admit of we have every reason to believe that same is all right, and that all bills paid have been legitimate charges against the County we recommend that the Judges action in issuing warrants for same be approved by the Court. In this connection permit us to say that the large amount of business now transacted by the County, fully justifies the inauguration of a different

October Term 1892

system of keeping accounts. Your Committee have not felt justified in suggesting any changes from the old method without your authority. If you will give us permission to do so, we will prepare and submit to the January term of the Court, a more comprehensive plan of book keeping, so that a better system of checks and balances between the several officers of the County will be kept. We believe that the interests of the County demand this in order that future reports may be more easily and accurately made.

On motion of Esq. Gabagan seconded by Esq. White the matter of the amount of School funds due the City of Chattanooga from the County was disposed of in the following manner a quorum of justices present and voting for same

Chattanooga Term October 1892  
 To the Honorable County Court  
 Gentlemen,

The Trustee's report to September 1<sup>st</sup> shows a balance due the fourteenth Civil District for schools amounting to Twenty thousand thirty nine and 80¢ (\$20,039<sup>80</sup>/<sub>100</sub>) dollars. Since September 1<sup>st</sup> the City has been paid on account three thousand (\$3,000<sup>00</sup>/<sub>100</sub>) dollars, leaving a balance of Seventeen thousand thirty nine and 80¢ (\$17,039<sup>80</sup>/<sub>100</sub>) dollars still due. The City is greatly in need of this money and by reason of the large expenses of the County during the last twelve months, here

October Term 1897

treasury has been so exhausted as not to leave funds on hand with which to meet this liability - Your Finance Committee have been in conference with the officials of the City in regard to it and have agreed upon the following adjustment, to wit:

The County to issue her warrants to the City for five thousand six hundred seventy nine and 33/100 (\$5679.33) dollars payable January 10<sup>th</sup> a like sum payable February 10<sup>th</sup> and five thousand six hundred seventy nine and 34/100 (\$5679.34) dollars payable March 10<sup>th</sup> also in addition to this to issue warrant for one hundred seventy and 40/100 (\$170<sup>40</sup>) dollars being one half of the legal interest on said warrants from October 10 to date of maturity. The basis upon which this is arrived at is that the County shall meet one half of the legal interest on these deferred payments and the City will lose the other half - In the opinion of your committee this is a very fair adjustment for the County. In fact the County should have paid this money over to the City some time ago. The City has shown a generous disposition to accede to this kind of an adjustment and the County should not in our opinion hesitate for one moment to make it. We recommend the prompt acceptance and adjustment of the matter in this way.

On motion the report of the Court, out of House Improvements relative to the permanent paving of Walnut street in front of the County property was carried as follows.

Chattanooga Term October 3<sup>rd</sup> 1892  
To the Honorable County Court  
Gentlemen

Your committee on improving the Court House and grounds have been delayed in completing their work in a measure by reason of the fact that the board of Public works are contemplating a change in the grade of Walnut street between sixth & seventh. By all means that street ought to be brought to a grade and paved. The City Board of Public works have shown a disposition to do so, provided they can have the cooperation of the County - If the street is brought to a permanent grade it would probably necessitate taking down the wall on the west of the Court House lot in order to let it down to conform to the permanent grade of the street. Your Committee would respectfully ask that you grant us permission to act for the County in this matter with authority, if necessary to have the wall taken down and

October Term 1892

reset to conform with the proposed grade of the street if the change is found necessary.

This will incur some expenses but of course your committee will not incur any indebtedness that can be avoided. Whatever is done should be done with a view of placing the grounds and stone wall in permanent position. Requesting your instructions in regard to this matter, we are

October Term 1897

As they may be recorded - was on motion of Esq. Hope laid upon the table.

The Committee on Charitable Appropriations reported as follows and on motion same was received and ordered spread for record

October Session of County Court Hamilton County  
 To your Honorable Body your committee on Charities beg leave to submit the following as their report

This Court appointed the Charities Committee at last January term. The committee soon after the Court adjourned, visited the Vine Street Home, the Steel's Home, the Refuge and the Home for fallen women. At the July term your committee submitted a report in which they made some recommendations as to the management of these institutions.

The most important was that the inmates of all of them should have thirteen cents per day from the County for all the days they were fed by these homes.

That such aid should only be allowed to inmates under thirteen years of age except the home for fallen women.

After a more thorough examination your committee is fully convinced that twelve years should be the age limit and the last quarter's statements from these homes have been approved on that limit we requested the Home to submit a list of inmates. The Vine Street Home reported thirty six inmates. On inspection we found thirty six and of this number ten were found over thirteen years of age, thus leaving twenty six eligible for County support.

The original list of inmates submitted by the Steel Home cannot now be found so exact figures cannot be given, but the lists showed between ninety and one hundred inmates as in the Home.

## October Term 1892

On inspection we found about thirty over thirteen years of age all the way to twenty, and eight or ten which were reported as in the Home, not there.

Deducting the over ages and what we could not find from the lists, we had forty nine which were subjects of County support.

The ages of these orphans are mostly unknown, so for convenience we placed the birthdays all on one day, which was July 1<sup>st</sup>, the middle of the year. By thus assuming a common birthday, only one report in the year has to be corrected as to ages, and there is no question but what the County Court has that to look after. We submit some comparative statements between the years of 1891 & 1892, as to the appropriations made by Hamilton County to these Orphans Home.

To this sum add the	<u>2040.33</u>
---------------------	----------------

The difference in the Steele Home appropriation and you have a total saving to the County Treasury of 2048.49 for the first three quarters of 1892. Your committee has had some correspondence with the County Judges of Davidson and Knox Counties as to their methods of caring for their orphans. Two important facts were acquired.

Davidson County appropriates for her

October Term 1892

Orphans at the various institutions where maintained, thirty dollars, per head per annum at present we appropriate to each eligible inmate \$47.45

Knox County did not answer that question and Memphis did not notice our inquiry.

Both Davidson & Knox Counties proceeded vigorously to place all their orphans in Homes at once, and Prof. Smith who served our state four years as school superintendent and is now one of the professors of the University of Tennessee, at Knoxville, assured one of your committee that the list of applicants for both white and colored which were at all desirable, far exceeded the supply, and that the applications were from the best citizens.

This plan is one of very great economy and has been successful, therefore we recommend the following.

That from this date the County Judge be authorized and directed by official notice through the newspapers to inform the public that parties desiring to adopt or otherwise satisfactorily take charge and care for any children in the Orphan Home can visit the Homes, see the children, and by application to the Judge with satisfactory assurances as to the care of the child, take the same in charge. This would apply to such children in the Homes as are county charges, and if from any cause the child be withheld by the Home, then such child would no longer be a County charge and would be stricken from the list which drew allowances from the County. Davidson County has taken the question of charities in hand with a view of formulating some method, more effective and less costly, and with

October Term 1892

that view, will call a meeting at Nashville some time this month, and an invitation to represent Hamilton County and participate in the proceedings will be extended, and we recommend that a suitable Committee be appointed to attend such meeting

The school opened this year with brightened prospects for a successful school year than ever before we have ~~never~~ never had a more energetic and faithful corps of teachers than at present and the monthly reports received show the to be larger than last year which is indicative of a greater

October Term 1892

interest among patrons and pupils. The two leading points from which may be correctly estimated the worth of a system of schools are efficiency and per cent of attendance. With a lack of either the school is not at its best.

Our teachers are making good use of the teachers professional library established in 1890 and therefore are becoming more and more professional in their methods of instruction and discipline - One of the most important events of the present school year is the National Public School Celebration Oct 21 in commemoration of the 400th anniversary of the discovery of America by Columbus. The president has appointed the day as a National Holiday and every school in America is expected to have exercises appropriate to the occasion. Hamilton County schools will do their whole duty in this grand move to instill patriotism in the mind and heart of the youth of our country.

In Districts where no election of directors was held in August the Superintendent has appointed the following

To these gentlemen and all others who so kindly gave me their aid I hereby tender my sincere thanks - The contract with Mr Travis was satisfactorily executed and in only one or two exceptions was there cause for any dissatisfaction

Respectfully Submitted

W. J. Garagan  
Coroner of Hamilton County.

Esq. J. J. Bennett presented the following resolution which was unanimously adopted by the entire Court whereas, The Chattanooga Times under the able and progressive management of Adolph S. Gels. has for the past fifteen years been a most important and influential factor in the growth and prosperity of Hamilton County and foremost identified in nearly every public and private movement having in view the welfare of the County and Whereas, The Times is about to enter its new home - an edifice which in itself is an ornament to the County and a object of pride to all our citizens because of its being one of the handsomest private buildings in the State if not of the South.  
Resolved, That the County Court of Hamilton County take the occasion of the opening

October Term 1892

of the handsome new building to express to the management of the Times its appreciation of the great and good work it has done and continues to do in promoting the material interests of the County, and esteems it a matter of congratulation that the County has so successful, able, and enterprising a newspaper, whose powerful influence has always been generously given to all good purposes; and to wish it continued prosperity.

Resolved; That we recognize in the success of the Times what a great reward this County offered to pluck and perseverance when intelligently applied in worthy enterprise.

Resolved That a copy of these resolutions be engrossed and presented to the Times.

In the matter of the payment of the County Clerk for Tax Books and Duplicates the same without objection was referred to the original Committee of Esqrs. Cowart Taylor & White to examine and report their recommendations to the County Judge who is authorized to draw his warrant accordingly—

The petition of Citizens of the 17<sup>th</sup> Civil District asking that they be taken into the 20<sup>th</sup> Civil District for schools benefits thereby necessitating a change in the 17<sup>th</sup> & 20<sup>th</sup> Districts boundary lines was granted and said change is as follows—Beginning at a point north of Henderson's line, thence South to Chatterwoya Creek and east with the line of said Creek to the intersection of the Georgia State line, west with said Georgia State line to the Southwest boundary of the 20<sup>th</sup> District line—
