STATEMENT FROM COUNTY MAYOR WESTON WAMP

HAMILTON COUNTY, TN (October 31, 2025) — “The County is grateful for the community’s interest in the future of both McDonald Farm and Enterprise South. As part of the public input phase, which will extend into 2026, we encourage Hamilton County residents to share feedback on the proposal at YourHamiltonCounty.com. In the weeks and months ahead, the County Mayor’s Office will continue meeting with outdoor recreation organizations and residents in neighborhoods near Enterprise South Nature Park to gain valuable insight.

Our hope is that this community input phase will focus on how we can increase the total acreage of protected land and green space in Hamilton County, while ensuring that long-term growth opportunities are planned responsibly, transparently, and in parts of our county where it makes the most sense practically and financially.

It is important to remember that despite widespread misinformation, no changes to the current recreational use are being proposed to Enterprise South Nature Park. The concept would simply exchange certain deed restrictions to give future community leaders and residents greater flexibility, should they ever decide it is necessary.”
