

Hamilton County no longer installs driveway tiles.

Tiles must be installed by the property owner or a hired contractor. If you are interested in installing a tile for a driveway or replacing an existing tile then please fill out the ROW permit application at <http://roadworkpermit.hamiltontn.gov>. An inspector will make a site visit to determine if you need a tile and if so what size.

***100 Year Flood Zones and Flood Ways** - The 100 year flood zone will require a land disturbance permit issued by Building Inspection before a ROW permit will be issued. Disturbing the floodway will require a No Rise Certification by a licensed engineer with approval from FEMA before the land is disturbed before a ROW permit will be issued.

You may contact Building Inspection at 423-209-7860 and speak with Regina or Ronnie for info on a land disturbance permit.

PIPE

QUESTIONS

If you have any further questions you may contact Tyler at tylerm@hamiltontn.gov, Brandon at brandonm@HamiltonTN.gov, or Tom at tcassell@hamiltontn.gov. A list of known contractors that perform the installation of tiles can be supplied to you upon request. The county in no way recommends one contractor over the others.

CONTRACTORS

If you would like to know if you are on our list of known contractors please email the people mentioned above. If you would like to be added to the list please send us an email containing your company's name, area of business, and a phone number for citizens to contact you.
