Dear Customer;

The enclosed is a complete description of the files which the Assessor of Property has made available to you. The information following the file layout, are support tables that describe the fields that contain codes. The files are stored in ZIP archive files. To extract a file from the ZIP archive, double click the file name in Windows Explorer. This will open the archive file as a folder. Copy the file out of the archive folder and paste it somewhere on your machine. Below is a name and brief description of each archive file and what it contains.

AssessorExtract.txt = General Parcel Information – Once extracted, this file will require about 300mb of hard drive space. This file contains basic property information, owner information, descriptions, sales information, total land value, building value, appraisal, and assessment.

Also enclosed is a complete description of the comma delimited file or CSV file which the Assessor of Property has made available. The file is stored in a ZIP archive file. To extract a file from the ZIP archive, double click the file name in Windows Explorer. This will open the archive file as a folder. Copy the file out of the archive folder and paste it somewhere on your machine. Below is a name and brief description of the extract and what it contains. One of the best things about this file is that if you double click the .CSV file, and if you have MS Excel on your machine, it will automatically within Excel making it easier to view.

AssessorBuildingExtract.txt = Building/Improvement Information – Once extracted, this file will require about 140mb of hard drive space. This file contains descriptive information about the buildings on the parcels. This information will include district, year built, size/area, story height, number of bathrooms, and various building structural information. Use the Map, Group, and Parcel to link these buildings back to their general parcel information.

There are the tables listed below along with their record layouts. Further below that are some support codes along with what those codes represent. Please let me know if you see any problems with these codes.

If I can be of any further assistance, please don't hesitate to contact me.

Sincerely,
David Murphy
